What is Synastry

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forewarned to better cope with the struggles of life.

Synastry House Report

Nick Jonas's Sun In Priyanka Chopra Jonas 5th House

As the 5th house is synonymous with fun and romance, this is a very good combination. You are able to bring out a sense of fun in your partner, you encourage their creativity and their youthful spark. This combination is indicative of couples who love to go out and embrace life, you are probably always seen at the latest places and may enjoy theatre or sports events.

You share a strong passion for children and there is a desire to start a family quickly. It may be that you already have children of your own, who your partner can become close to. If your sun suffers challenging aspects to your partner's outer planets, then decisions over children can be a source of conflict or perhaps an ex-partner will make bonding with the step children harder.

Often you are inclined to want to monopolise your partner and you may want to be their only source of pleasure; you could easily become jealous over their passion for a sport, for theatre or their hobbies.

Jealousy works both ways with this combination and one or the other of you will resent it when the other one gets attention or acclaim. Like the 1st house sun combination, this is also a competitive placement where you compete for the attention of each other, the attention of friends or even the attention of the children and it can all end with bad feeling developing.

Your partner perceives you are a person with whom they can have fun and while that bodes well for romance and courting, it can be an issue later on when responsibilities are heavy and 'fun' is no longer top of the agenda. However, despite the last sentence this is a placement that allows couples to keep love alive and to maintain a certain freshness and excitement in their love lives. There is something about this placement that keeps the relationship dynamic and the attraction weathers many storms.

The key to success here is many hobbies which you share – if you play together, you stay together.

Nick Jonas's Moon In Priyanka Chopra Jonas 12th House

The 12th house is a rather nebulous and mysterious one linked to emotions, psychology, dreams, the unknown and also big institutions, hospitals, libraries, archives and places of retreat, it is the house where we are somewhat backstage and a cog in a much bigger wheel. This indicates your connection is to a place or phase of life – you may have met in rehab or while researching something, you may both work for a very big organisation.

This placement indicates many secrets. You both have an intuitive understanding and even a spiritual link and yet you may not spell things out to each other or discuss practical matters in detail. You may ignore practical matters altogether. You are very aware of each other's moods and emotions and that can generate much compassion, but also can make you feel constantly responsible for each other. Your sensitivity to each other can end up creating a spiral of self-sacrifice and an inability to have separate lives without some guilt. You are able to play on feelings of guilt within your partner.

The intimacy is both deep and intense and yet there may not be passion as the other emotions, which weigh so heavily, may dampen the lust and physical desire. You and your partner may enjoy having a bubble of escapism around you where you almost shut yourselves off from other people and life in general and seek to escape together.

Your partner may feel you know them so well it is almost uncomfortable and they may try and keep secrets from you. There can end up being a lack of trust. While you both read each other emotionally so well and truly get each other on a deep level, one of you may feel an open book and may seek to close that book somewhat, which creates great hurt for the other. Hurt feelings go with this placement.

Nick Jonas's Mars In Priyanka Chopra Jonas 2nd House

This is a sensual house with a sexual flavor and Mars here brings curiosity, admiration and respect. You enjoy each other's bodies and sex is physically rewarding. There are strong feelings good and bad, there is affection, commitments, enduring emotional attachment, but also some jealousy and control.

You energize your partner's desire, both material and physical. You may be the one who gets your partner working harder, hitting targets and being more adventurous in business. You are a motivating force and together you are an ambitious couple who can do well financially, although it can be easy come easy go with too much conspicuous spending.

Your drive and guts help your partner feel more secure, they like your assertive side, it makes them feel safe. Your partner likes it when you come on strong and they may even enjoy sexual domination.

Your partner may begin to rely on you too much for motivation and confirmation, which can lead to great jealousy when your attention is turned elsewhere.

There are issues with sharing and boundaries, your partner may lose a sense of their own boundaries and become too wrapped up in or affected by your desires and wants.

You may begin to argue about money and your partner may hide expenditure or purchases from you. Your partner may act out sexually in secret, not necessarily with another, maybe with a private collection of sex toys.

This can be very successful, but it can also lurch into game playing and manipulation born of insecurity and an obsessive need for control.

This relationship can get stuck, it is hard to turn things about or make changes once things go south, but there is great emotional loyalty.

Nick Jonas's Mercury In Priyanka Chopra Jonas 5th House

I sense fun, creativity and many artistic endeavours and nights at the opera with this placement. You may enjoy playing games like chess, scramble, backgammon, poker or doing crossword puzzles together. There is something quite competitive about this placement, you bring out the 'winner' in your partner and you both like to out play each other.

This is a very playful combination and you love life when you are together – this match makes you both very happy and it also has a great chance of lasting.

You also bring out the romantic in your partner and together you will have a great deal of fun in a traditional romantic sense and a more modern one. This placement encourages self-expression and you are both amused by, and entertained by your partner, you bring out the best in them.

This is excellent for both business and pleasure, as together you are lucky with money and you are excellent at making management, investment and creative decisions. This placement suits couples in the arts and also those who innovate or invent.

Like the 4th house, there is a love of children and a desire to be parents and to be very involved in your children's creative and intellectual development. You can be quite pushy parents and in some cases try and live out your dreams in your children.

You stimulate the best in each other and are happy and relaxed in each other's company.

You may sometimes annoy him if you steal his thunder or outdo him professionally. There can be great professional rivalry here.

Nick Jonas's Jupiter In Priyanka Chopra Jonas 5th House

This placement has fun written all over it, it is like your partner gives you permission to be wild and to live it up. This relationship helps you break free and even if it does

not last, you will never regret it as you will have had a great time, getting to know yourself better along the way.

This partner may be 'the one your mother warned you about', they may be a party animal or someone larger than life. This partner will expand your life socially and creatively and can be a welcome breath of fresh air.

There is much going out, traveling and possibly quite a bit of money spent. You bring out the show off and the competitor in your partner and they will do much to impress you. You may keep this partner on a string, just because they make you feel good, you must not lead them on if you have no intention of getting serious.

You may not take your partner's uniqueness seriously, you could make the relationship all about you to the point where their personality is eclipsed.

If you work together, you may take the lead and not take your partner's ideas seriously.

While initially this relationship is all bells and whistles, there are great dangers of resentment and depression on your partner's part later on. Concealed jealousy can be the snake in the grass.

Your partner may be far more concerned about starting a family than you are. If your partner is female they may be worried about the biological clock.

You may give your partner good advice about the stock market, management or self-promotion, but they may feel they are not able to act on that advice due to lack of confidence.

This bodes very well for romance, fun and luck, but long term you may lose interest and your partner may change into someone you do not know.

Nick Jonas's Venus In Priyanka Chopra Jonas 6th House

You may well meet at work and the relationship starts as your partner is so

impressed with you and your work ethic.

This partnership is all about being pragmatic and putting in consistent effort. Boredom will kill this relationship, so you need to keep busy and set targets. It is not so much about excitement but more about being productive and having similar priorities and interests.

While some partners are jealous of the time you spend with the kids, your partner will love you even more if you show what a dedicated and diligent parent you are. Your partner will never forget that time you made chicken soup for their mother when she was unwell, they certainly appreciate you caring and nurturing nature.

This partner brings out the work a holic in you and that can be good or bad, depending on your current work load. You may seek to get your partner's approval by doing over and above and while you will get appreciation, you may end up neglecting yourself. A balance needs to be struck.

This partner can make you value good health and they may help you develop better attitudes to fitness and food. In some cases, interests in animals and animal welfare are a uniting force and mutual concern.

This may not be a passionate match and chemistry could be lacking. Sec may be tickbox and unadventurous, but you enjoy each other's company and communication tends to cement the relationship. You are good at working through problems together.

Nick Jonas's Saturn In Priyanka Chopra Jonas 10th House

Your partner has a great deal of respect for you and they may feel in your shadow somewhat. You are the power house of the relationships and the breadwinner. Even if you are not the breadwinner, you have the power. It may be that you come from a prominent or prestigious family and that is why you have greater influence on the relationship.

You may make the decisions and decide on the ultimate direction of the relationship. Your partner may not be good at expressing their assertive side or being decisive. You can help your partner to develop their career in a systematic way and you could have useful connections among business leaders or the establishment.

You may put the brake on your partner's ambitions and could suppress their progress in life, however you could also help them improve their public image and PR. You may dissuade them from some courses of action and steer them towards other directions which you see as more beneficial to you both.

You may help you partner develop a better reputation or gather some important contacts. By knowing you, your partner could gain access to high society or the powers that be.

You may be the father figure in the relationship even if you are not a man. You are the Alpha partner.

Nick Jonas's Uranus In Priyanka Chopra Jonas 9th House

As Uranus moves rather slowly through the zodiac and spends about 7 years in each sign, if you date people of a similar age they may have Uranus in only one of two of your houses and visa versa.

This placement is a catalyst for great change and personal growth in both of you. You will have many stimulating conversations and you both open doors for each other; this match spells opportunity and expansion. Life is spontaneous and there is a love of social activities and also humanitarianism. Change is the key word here and you both change a lot while you know each other which could lead to you growing apart. There are so many distractions that you never really get to know each other well and although you talk a lot about abstract subjects you may never connect on an emotional or personal level.

You may find your partner becomes judgemental and you could find their philosophy on life makes them a little moralising or narrow minded. Political differences tend

to cause havoc in this love match and they may be what drives you apart. You may agree with some things your partner believes in and totally disagree on others. Differences in religion can also cause an irreconcilable split.

While unique perspectives and a different culture, background or religion could be part of the original fascination, over time these become these source of conflict and unless you yield to your partner's way of thinking it may well be the end of the road. The success of this partnership depend on how deeply you hold your beliefs and if you are willing to adopt your partner's.

Nick Jonas's Neptune In Priyanka Chopra Jonas 9th House

As Neptune moves rather slowly through the zodiac and spends about 13 years in each sign, if you date people of a similar age, or even born in the same decade, they may have Neptune in only one or two of your houses and visa versa.

This partner loves to talk about philosophical subjects and aspirations with you. Often you are attracted to this partner as they are full of ideas, plans and expectations. They may enchant you with tales of faraway places, or with an extensive knowledge. However this partner may be totally deluded and filled with hot air and you may not be able to tell at first if he/she is the sage or the used car salesman.

You can both enthuse and encourage each other but you can also scatter energy and run on tangents together. This placement is ideal for couples who travel extensively in their jobs, or who teach or work in abstract fields as it is conducive to long, fascinating conversations, experimentation and pushing back the barriers.

Your partner will encourage your need for escapism and you will relish looking for bizarre and eccentric things to do together. This placement brings enchantment and excitement, but over the long term there can be great disappointment and things could turn out very differently to what you imagined.

Nick Jonas's Pluto In Priyanka Chopra Jonas 7th House

As Pluto moves rather slowly through the zodiac and spends about 18-20 years in each sign, if you date people of a similar age, or even born in the same generation, they may have Pluto in only one or two of your houses and visa versa.

You are attracted to the strength you perceive in your partner. There is both sexual attraction, awe and curiosity which draws you together. Your partner will pursue you with zeal and the relationship will be close and quite exclusive. You may sideline your partner's other friends and associates and seek to dominate their time.

You make a powerful team and can endure great hardship or adversity together. Marriage will be on the cards from early on and you will both find this relationship transformative.

This match brings out the best and worst in you. You can be extremely loyal and devoted or utterly bitter and vindictive if betrayed. Till death do us part or 'War of the Roses'.

Synastry Aspect Report

Sun Sextile Sun - ☉ * ☉

Opportunities

Orb - 1.13

You two have responded well to each other from the very start. Your individual natures are complementary, but not overly similar. Translation. You're able to appreciate one another's strengths, make up for one another's weaknesses and still maintain your own individuality that is so essential to a healthy soul, as well as a healthy relationship.

Sun Sextile Mercury - ☉ * ☿

Opportunities

Orb - 7.66

It's not that you have such similar personalities that you don't ever experience misunderstandings or disagreements of course, you do. It is just easier than usual to hash it out and express yourself without hurting your lover's feelings too deeply. This is because they have an instinctive understanding for just how to get through to you, and how to respect your individuality. In fact, just by relating with your partner, you may feel a sense of power and vitality, as if your individuality is better defined than ever before.

Sun Square Venus - ☉ □ ♀

Challenging

Orb - 2.8

Well, one thing is certain you won't find each other boring. You may not feel physically or romantically attracted to one another in the beginning, but you will definitely feel an attraction of some sort and maybe even a magnetic pull based on your differing personalities that is compelling enough to surprise both of you. There will be a certain level of tension that naturally exists between you, and it will

be based on balancing your own individual natures with your ability to offer one another love and support. Your ideals and values will most likely be at odds, and the differences will be apparent from the get-go: Your lover will view you as eccentric, crass or careless, or somehow living on the edge.

Sun Sextile Uranus - ☉ ✳ ♅

Opportunities

Orb - 7.06

A lively sense of energy, fun, excitement and uniqueness pervades your relationship. You were both attracted to the other in the first place because you sensed a kindred soul someone who as unique as you, and who needs as much space as you do within an intimate relationship. You recognize in each other that here is a person who will be able to give form and expression to your weirdest, most wonderful ideas. You two are highly creative together.

Sun Square Neptune - ☉ ☐ ♆

Challenging

Orb - 1.16

There is something mysterious, even confusing between you that will always obscure something more important your partner's true feelings for you, perhaps, or their identity as an individual. It might be that you simply can't see them for the person that they truly are, because something below the emotional surface of your relationship muddies your view. This is as difficult to pinpoint as it is to understand, but the effects are felt by both of you. Your lover might have hurt feelings that they refuse to talk about, and they'll insist everything is fine, even though both of you know that's not true.

Moon Sextile Mercury - ☾ ✳ ☿

Opportunities

Orb - 4.14

This aspect produces good emotional empathy and communication. This is a

favorable aspect for all sorts of domestic relationships because there is the ability to communicate feelings and emotions.

Mars Trine Jupiter -

Harmony

Orb - 1.29

You love being together, no matter what you're doing whether you're talking and laughing, taking a walk, seeing a movie or whatnot, you have a great time. However you spend your time as a couple, you both enjoy yourselves immensely. If one of you is feeling down or pessimistic, you only have to be around your partner for a few minutes before you start to perk up again.

Mars Conjunction Venus -

Dynamic

Orb - 5.79

Your sexual bond plays a key role in your relationship, and you always maintain a high level of attraction for each other. You find more enjoyment in minor debates that ooze out of small situations. Though sensuality is a real focus you need to make sure you connect with your partner emotionally well to make this relationship long lasting. It isn't all smooth as cream, though you irritate each other sometimes, and you, especially, may even antagonize your partner from time to time.

Mars Opposition Neptune -

Tension

Orb - 7.43

During this period honesty can be very hard to come by and communication likely gets very confusing and difficult. Your partner has to try hard to stay away from telling you little white lies, because any level of dishonesty in this relationship easily takes on larger proportions and becomes a big deal. Your partner may even be passive-aggressive with you at times, pretending things are fine when really they're not, jabbing you with little hurtful comments. Try not to argue in any confronting

situations. Don't misunderstand this tendency by judging them and try to understand it's just that something in this connection pushes them to behave in that way toward you.

Mars Trine Pluto - ♂ △ ♃

Harmony

Orb - 8.15

Together you two can accomplish just about anything you put your minds to, withering the competition, turning obstacles to dust and achieving greatness. So how are you going to use this special, powerful influence? You each have special gifts; the sense of direction and focus that comes naturally to you, for example, is useful to your partner in finding a target for their penetrating insight. Also, don't neglect the powerful sexual connection this aspect lends you.

Mercury Sextile Sun - ♃ ✱ ☉

Opportunities

Orb - 0.08

From the get-go, you've shared an easy understanding and a communicative rapport. It's just easier than usual, especially for your lover, to hash it out and express themselves without hurting your feelings. This is because you have an instinctive understanding for just how to get through to them, and how to respect their individuality. You also have great potential to be highly creative together; whether this takes the form of some really fun, unique dates or actually launching a creative or entrepreneurial project together is up to you.

Mercury Sextile Mercury - ♃ ✱ ♃

Opportunities

Orb - 8.71

Even if there are other more challenging aspects between you, this one helps keep you on the same wavelength. You agree on most things, and even the subjects you don't agree on are interesting, because you get to look at both sides of an

issue together and debate over it. At base, you think in similar ways your thought processes take similar tracks, ones that each of you recognize in the other. The individual style in which each of you reasons things out and processes information blends together nicely, so you share a feeling of familiarity.

Mercury Square Venus - ♀ □ ♀

Challenging

Orb - 1.75

Small misunderstandings between you are common, and though they usually are not a huge deal in themselves, their cumulative effect could add up to a certain level of tension in your relationship. You just don't read each other right; you misread the cues that come your way and end up feeling unappreciated. Picture this: If your lover thinks you never say thanks for gifts or favors, they develop the perception that you take them for granted when, all along, you've been thanking them for what they bring to the table, and they just can't seem to hear it.

Mercury Sextile Uranus - ♀ ✱ ♃

Opportunities

Orb - 6.01

Your conversations have never followed the usual tracks. And the better you got to know each other, the more this became true. You two are an idea couple, but with just a little extra planning, you could really put your ideas to work. So use this influence for something big: a creative project, a scientific discovery, an invention something that will change the world as you know it.

Mercury Square Neptune - ♀ □ ♆

Challenging

Orb - 0.11

Though you two might have gotten along really well for a time, you realized after a while that there's some sort of disconnect in your communication. This could be a major pattern of willful dishonesty, but it's more likely to be as minor and intangible

as them holding a part of themselves back due to insecurity or past experiences and then you followed suit, because you felt vulnerable and self-protective when you picked up on this strange vibe. Of course, when we're courting a lover and falling in love, it's perfectly natural to put our best face forward but doing so hides that whole other side of ourselves that comes out later, the side that isn't so kind and smart and well-thought-out. And if we've been in troubled relationships in the past, in which we learned to keep parts of ourselves secret as a method of self-protection, it's hard to relearn to live and love openly.

Jupiter Sextile Sun - ♃ * ☉

Opportunities

Orb - 0.06

Your lover derives a feeling of expansiveness and optimism from this relationship. As individuals, you might both be very positive, forward-thinking people, but when you're together, that influence grows exponentially. You offer them unconditional support and encouragement that fosters some highly positive energy.

Jupiter Sextile Mercury - ♃ * ☿

Opportunities

Orb - 8.73

You have a stimulating, inspiring influence on each other. You have a wonderful, mind-expanding effect on your lover, who delights in the great ideas and perspectives you bring to the relationship. So don't be afraid to dream big together, especially if your relationship is a long-term connection, because together, you make things happen.

Jupiter Square Venus - ♃ □ ♀

Challenging

Orb - 1.73

With this aspect, your bond should be strong in spite of a few obstacles that come up again and again. Your different values and beliefs prevent you from being able

to fully support each other in all you do. Your partner, especially, is probably able to smooth things over easily enough, unless other aspects between you make the rift even wider. You might especially differ on issues related to money or spirituality and philosophy, and these issues could be so close to your heart that you have a hard time finding common ground with your partner.

Jupiter Sextile Uranus - ♃ ✱ ♅

Opportunities

Orb - 5.99

With this aspect between you, you have a strong friendship that's based in intellectual freedom and that's a wonderful complement for a romantic relationship. Whether you just have fun with this influence or actually use it in your work or your creative projects is up to you! Either way, it's a lot of fun, and creates a feeling of friendship and exciting openness between you. You encourage each other to follow your dreams, you support each other with optimism and great ideas, but you don't get in each other's way because you're too busy following your own bliss.

Jupiter Square Neptune - ♃ ◻ ♆

Challenging

Orb - 0.09

Your partner stimulates the most idealistic parts of your nature, which sounds nice except that they could encourage you to step off the edge of the mundane world and into the stratosphere with them. You're so idealistic when you're with your partner that you could become quite irresponsible. After all, if all your focus and interest goes toward the uplifting feeling of being together, you can't get much done in the way of tedious, day-to-day responsibilities. You talk each other up and it could be hard to come down again and face reality when it intrudes, which it has a nasty habit of doing.

Venus Square Sun - ♀ ☐ ☉

Challenging

Orb - 5.61

Jealousy, emotional manipulation, possessiveness and control are likely major components of this relationship if you both weren't careful to sort out your feelings from the start. Your sexual attraction to them may also be overwhelming, and you feel transformed by your intimate experiences together. Your emotional lives are closely linked, almost without your having noticed when they merged. Any separations could leave you feeling intensely insecure, even abandoned, but if that happens, it might have more to do with the kind of dependency your lover has worked hard to create than with anything really to do with you.

Venus Conjunction Mars - ♀ ♂ ♂

Dynamic

Orb - 1.71

Your sexual bond plays a key role in your relationship, and you maintain a high level of attraction for each other, even over a long period of time. You might find that you're more compatible with your partner sexually than you've ever been with anyone else in your entire life, and that alone keeps the inner fires burning! But though sensuality is a real focus between you, a high point in your relationship and a great way to connect, it isn't just about the physical sensations your lover brings to you. However, your partner definitely enjoys getting into it, because making up is very amorous for them indeed.

Venus Square Mercury - ♀ ☐ ☿

Challenging

Orb - 3.18

Small misunderstandings between you are common, and though they usually are not a huge deal in themselves, their cumulative effect could be adding up to a certain level of tension in your relationship. You just don't read each other right; you misread the cues that come your way and end up feeling unappreciated. Picture this: If you

think your lover never says thanks for gifts or favors, you develop the perception that they take you for granted when, all along, they've been thanking you for what you bring to the table, and you just can't seem to hear it.

Venus Trine Venus - ♀ △ ♀

Harmony

Orb - 7.29

This aspect has a good chance of leading to something long-term, because you two feel really attracted to each other and very in sync with each other's rhythms. You have a great sexual connection, but also a wonderful bond as friends as two people who just really, really like each other. The sensual connection you share is heated up by this influence you consider your intimate bond to be sacred and important.

Venus Conjunction Saturn - ♀ ♂ ♄

Dynamic

Orb - 3.04

Responsibility is a key ingredient of this relationship. You're both driven by a sense that you have some important work to do together. But in a romantic relationship, you want a little bit of lightheartedness, of freedom and spontaneity, even foolishness.

Venus Sextile Neptune - ♀ ✱ ♆

Opportunities

Orb - 5.65

You both have huge sympathy and understanding for each other, and your naturally affectionate bond easily grew into a wonderful, solid love. You love being close; you two are swept along by the fantastic story of your love affair, by the feeling that you're living together in a wondrous dream world in which you're royalty and everything you touch turns magical. It may have even turned out to be better than you'd ever hoped or imagined.

Venus Conjunction Pluto - ♀ ♂ ♇

Dynamic

Orb - 4.92

Your partner fascinates you, and you feel a big sexual charge when you're around them, but this relationship is something even more intense than that. Your partner started wanting to possess you, and may have made some efforts to try to control you. You're overcome by the desire to become the person and partner your lover wants you to be.

Saturn Trine Mars - ♄ △ ♂

Harmony

Orb - 8.41

You're not very similar in the ways that you meet the world, but your differences are complementary, and if you can learn to appreciate them as such, you could really have a dynamic and mutually satisfying relationship. Each of you brings a unique gift to the relationship that helps you both to achieve your goals. Your partner is the idea person the energetic one who's not afraid to take risks, get competitive and get out there to get something done. You're more into calculated moves that ensures success.

Saturn Trine Saturn - ♄ △ ♄

Harmony

Orb - 3.67

You work well as a team, bringing complementary strengths to the table, and you help each other accomplish whatever you set your minds to. Better yet, you help each other keep from becoming complacent in the natural security that characterizes your bond. You're hardworking together, focused on meeting your goals. You keep your eyes on the prize, and best of all, you get to enjoy the fruits of all that honest labor together.

Uranus Square Mars - ♃ □ ♂

Challenging

Orb - 6.89

You two know almost instinctively how to get under each other's skin. Your lover probably tries to control you what you do and when, what you say and don't say even if that's not normally in their nature. Something about your insistence on independence makes them try to pin you down by force. You rebel against any controlling efforts on their part.

Uranus Opposition Mercury - ♃ ☿ ♀

Tension

Orb - 2

Your partner tries to see things your way and to get along as a couple should, but you just start annoy them after a while, unless you two can find things to do together that don't rely too much on conversation or agreement. Your partner prefers to be more logical than you, using their mind as the precision tool that it is to seek out logical inconsistencies. They arrive at their conclusions after a lot of consideration. Nothing gets resolved, because how can emotion or intuition win out over logic, or vice versa.

Uranus Square Saturn - ♃ □ ♄

Challenging

Orb - 2.14

Even if your partner doesn't start out being overly traditional in their values regarding commitment, duty and so on, they could become more so in this relationship, because of your rebellious insistence on independence. The bad news is, their natural response may be to cling tighter and tighter, which only causes you to run even more determinedly in the opposite direction. The gulf between you widens as your perceptions of each other solidify they take on the role as the controlling, overly needy or demanding partner, while you're the rebellious and unreliable one who can't be counted on. Neither of these characterizations are exactly fair; it's just that you bring out these qualities in each other, because you're both naturally

looking out for yourselves and your own interests in the relationship.

Neptune Opposition Sun - ♃ ♂ ☉

Tension

Orb - 8.64

You might feel like soul mates from early on in your relationship, but don't allow this powerful feeling to confuse you. The bond between you is certainly strong, but it is complicated by projections from you onto your lover. One way is not to become physically involved until you know exactly how you feel about one another, and exactly what the stakes are in the relationship.

Neptune Square Mars - ♃ ☐ ♂

Challenging

Orb - 4.73

With other people, you could afford to fib every now and then for example, to avoid hurting their feelings when your opinions are just too different but between the two of you, these small, innocent fibs are blown out of proportion and could become big, hurtful lies. Passive-aggressiveness could become a problem between you, especially on your side; you might feel the urge to purposely mislead your lover when you're feeling angry or hurt, or even to leave out information just to watch them struggle without it. What a terrible urge that is. Falseness in the opposite direction could occur as well your lover might fake concern for your problems, because they just don't get where you're coming from, and faking it might be the best they can do.

Neptune Opposition Mercury - ♃ ♂ ♃

Tension

Orb - 0.15

This aspect muddies your communication; it influences both of you, but especially you, to project a lot of potentially incorrect images onto each other, which only leads to disappointment later on. But the ideals you concern yourself with probably have to do with your relationship; your expectations run high, and you could lose

sight of the fact that it's impossible to have the perfect relationship or perfect communication with someone. As a result, the communication between the two of you is very far from perfect. At some level, you probably aren't entirely honest with your lover about yourself or your intentions.

Neptune Square Saturn - ♃ ☐ ♄

Challenging

Orb - 0.01

Your partner naturally takes a practical view of life; they trust in the things that they can see, touch, feel and otherwise count on in a tangible way. They believe in hard work and responsibility, and anything more abstract than that seems untrustworthy or out-and-out silly to them. But there's a whole other side of things the intangible, the instinctive, even the psychic and you have a good grasp on these concepts. You tend to lead with your gut, acting on instinct and reaching out as often with your mind as you do with your hands.

Neptune Square Pluto - ♃ ☐ ♇

Challenging

Orb - 7.95

The intensity of this aspect depends on both your individual birth charts, not to mention the other aspects that exist between you as a couple, but whether it's strong or subtle, it isn't easy to deal with. Instead of respecting your views and listening for things they could learn from or adopt for themselves, your lover looks askance at the way you think about life, love and spirituality. They likely have a more forceful personality than you do and even try to control how you think, or to change your spiritual beliefs to match up more with theirs. You should be listening to each other, not closing yourselves off to each other; respecting each other's beliefs, not telling each other your beliefs are wrong.

Pluto Trine Sun - ♃ △ ☉

Harmony

Orb - 4.08

Your sexual attraction to one another is only strengthened by this aspect, because it also intensifies the emotional bond between you, which runs quite deep. Your partner experiences this depth of feeling from the beginning as a feeling of being very well understood. Your bond might even feel effortless from the start, as does communicating in a physical way. Old emotions from your past even ones that may not have served you well for some time find positive expression in this relationship.

Pluto Trine Mercury - ♃ △ ☿

Harmony

Orb - 4.71

Your partner, especially, might be used to more superficial relationships, but you don't allow your bond to exist on anything but a deep, intense and focused level. Your conversations cover huge subjects that boggle both your minds: the nature of the universe and your place in it, the difference between good and evil big, theoretical subjects that you stay up all night debating! You definitely encourage this person to think more deeply and more honestly, and the thoughts they come up with might surprise them. You see them as the light at the end of the tunnel, because you've always been so focused on the depths that you might not know how to come up for air.
