Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Twelfth house

There is the desire or the need to serve others in this lifetime. At times this is in direct conflict with a desire to seek seclusion from the world and/or wallow in self-pity seeking sympathy and service from others. This life may be a contemplative life due to the need to reshape negative character traits from past lives. You have an awareness of the oneness of life. You may lack confidence in your abilities. You have an empathy with sick or mentally disturbed people. You may develop or have clairvoyant powers and an interest in occult subjects and psychic phenomena. You may enjoy playing the martyr.

TWELFTH HOUSE

XII

The Twelfth House is commonly referred to as the House of the Unconscious. The unconscious state can help engender our successes, as well as assist us in coping with our failures.

Sun in Sagittarius

Sagittarians tend to be idealistic, optimistic, dependable, open-minded, friendly, honest and versatile. But, they can also be tactless, irresponsible, showy, boastful, self-righteous, arrogant, quarrelsome, fanatical, dogmatic and dictatorial. Sagittarians like any work where foresight and a willingness to take a chance is offered,

while at the same time, they try to avoid detailed work. Sagittarians are usually outspoken, sometimes to the point of bluntness. Simply blurting out their ideas and opinions is due to their never-ending search for truth and wisdom. Others think Sagittarians are pretty tactless and the statement that 'truth hurts' fits their way of thinking. Regardless of their undiplomatic remarks, others instinctively feel as if the Sagittarian means them no real harm and is only interested in raising their consciousness. Sagittarians love the outdoors, large animals, nature and sports. Some have reckless gambling tendencies and will bet it all on the drop of a hat. Travel and even long walks appeal to them because they make the Sagittarian feel free — and he needs to feel free. Sagittarians are philosophical and they want to understand the deeper issues and abstractions of life. They have a certain faith in higher things that generally always keeps them of an optimistic bent, no matter what difficulties are currently besetting them. They want to understand the meaning of life. This helps to keep them growing and expanding, which is something they need to do. This desire for expansion can cause them to overextend themselves with too many activities and to use up their energy too rapidly. They need to take intervals of rest to recuperate between projects.

SAGITTARIUS

Sagittarius is Fire energy and the ruler of Jupiter. This is a very active, extroverted, mobile, expansive sign. The Archer is always ready for action, bursting with goals and idealism.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Sixth house

You are considerate of fellow workers and desire to nurture them in a productive work environment. Service to others is a fine outlet for your personality. Moodiness and sensitivity can be a problem, though. Fluctuations in health are possible, perhaps mostly due to worry and feelings of insecurity. Emotional tension along with digestive troubles indicate the need to relax. Stop worrying. You should not eat when overworked, overtired, or when you are upset. Take care of your health and watch your diet. Concerning vocation: You are probably totally absorbed within your work situation. You can be a workaholic. Many job changes are possible and working with the public or with women is indicated.

SIXTH HOUSE

VI

The Sixth House is commonly referred to as the House of Health. Implicit in maintaining good health is the ability to cope in the face of adversity, and this theme rings truest in the Sixth House.

Moon in Cancer

You very easily respond to the emotional environment in which you are placed. You soak up feelings like a sponge. Perhaps this is why you so easily become moody, irritable and inconstant in thought and feeling. Learning to control your own moods may be very difficult, yet necessary, for you. Your greatest need is to nurture and mother someone or ones. You often appear irrational to

others because you can't always explain the reason or source of your feelings. Anyone who lives with you must accept your ups and downs and appreciate your need for times of withdrawal. You are also very sympathetic and understand the unspoken feelings and needs of others. You take slights very personally and though you may forgive a mistake by a friend or loved one, you never forget it. Security is very important to you and you look for it in your home and family life. Your senses and emotions are quite strong and it would be wise for you to listen to your intuitive side as you can be quite psychic. You are very tenacious and you do not give up or let go of things or people easily. Your mother is/was a strong influence for good or ill in your life. You are basically an introvert, but will do whatever it takes to protect and defend your family or loved ones. You tend to be a pack-rat because everything has an emotional memory behind it and you find security in all those memories. Nothing or no one is ever gone if they leave their memory behind. Thus, you can become quite possessive. You have the memory of an elephant, but you must learn to forgive and forget past hurts.

CANCER

Cancer's element is Water. Symbolic of the emotions, water signs need to give and receive. They thrive on the exchange of feelings. They need security and love to be wrapped in an environment of love and comfort.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in First house

You are adaptable, clever, inquisitive, eloquent, witty, and perhaps high-strung. You want to know something about a lot of things. Your speeches and writings reflect your own personal opinions. You may have jittery nerves which keep your body slim, but which could cause nervous disorders. You love talking about what interests you.

You want to know the facts behind any statement or idea you hear. Your natural skepticism often borders on cynicism. You have a rational approach to problems and are usually quite level-headed no matter what the circumstances. You are capable of working long hours with focused concentration and attention on whatever interests you. You probably have a good memory and are very attentive to details. At times you appear to others as lacking a sense of humor, boring, or depressed. You simply have a lot on your mind. You are thorough, conscientious, and disciplined in your thinking, and have an aptitude for business, organization, and administration. You are also a good strategist, and will plan and patiently follow a realistic course which will lead to your eventual success. Serious-minded and studious, you enjoy quiet time alone for thinking or reading. You seldom indulge in foolish or silly chatter for you consider them a waste of valuable time which is better spent on more productive things.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

Venus in First house

You are friendly and charming with a magnetic personality. You are the honey in life that draws the bees. You always seem to know what to say with regard to what people want to hear. Whether it is the truth or not is the problem. You have an uncanny ability to attract everything you need in life. People and things just come

to you. But, you must guard against using people to get what you want. You enjoy and have an appreciation of beautiful and luxurious things. You can also be quite selfish and self-centered. Acting like the spoiled brat is also a danger.

FIRST HOUSE

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Venus in Aquarius

Your affections are expressed in an open, unconventional and rather detached way. Socializing, bringing people together and having many friends and acquaintances very much appeal to you. Because you value friendship so highly, you may be more comfortable being a friend than a lover. One thing's for sure ? you

highly dislike possessive, clingy relationships. You want to be free to do whatever you want with whomever you like. You want an intellectual or spiritual connection with your partner and this may even be the preferred substitute over a very intimate or emotional bonding. You need a partner who will give you plenty of freedom, allowing you to be your own person, and not be too demanding emotionally. You are charming, happy and original, but also, cool, calm and detached. This detachment is beneficial because you, as a rule, are never possessive of people or things. The feelings you have tend to be filtered through your mind and intellectualized. You need to learn warmth and understanding.

It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.

Mars in Eleventh house

You have strong desires and wishes, social leadership ability and many casual associations with energetic and enterprising friends. You probably put a lot of energy into your friendships. It is important that you seek the right type of friendships. You can be taken advantage of by friends or you can take advantage of them. Active participation in group activities suits you well. Leadership within the group also appeals to you.

ELEVENTH HOUSE

Mars in Scorpio

You are extremely strong-willed and you pursue your goals and desires with passionate dedication and determination. You are capable of total concentration and tremendous discipline, and you are very difficult to influence once your mind is made up. When you want something, you can be very one-sided and almost obsessed with it. You tend to be secretive and you do not want others to know what your plans are. You tend to be instinctive, perceptive, determined, strong-willed, stubborn and magnetic. You have deep emotions and may occasionally show a primitive side. You need to learn self-discipline or your desire nature will rule your life, probably causing great sorrow in the end. You must learn to control your jealousy and possessiveness in matters of love. A certain amount of detachment in relationships would probably be good and this, of course, would include your tendency to treat loved ones as possessions. You are very forceful in a quiet and subtle way and others may have difficulty in seeing or understanding your motives. You can manipulate people in a way that is not obvious to them or others. Direct confrontation with others is not your preferred style. You like operating behind the scenes. In any case, you are a formidable opponent when riled. In matters of health, there may be a tendency towards hemorrhoids.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

You are helpful to others and are a dependable worker with a sense of loyalty. You inspire cooperation and good will among your fellow workers. You enjoy your work and give of your time willingly. Watch that you do not overwork or overindulge in eating or drinking. There could be difficulties in the liver and blood or poor circulation due to over-indulgence.

Saturn in First house

You are probably reserved, quiet, and serious. People may take you for quite a cold person. You are responsible, hard-working and duty comes first on your list of priorities. Self-controlled and disciplined are how others see you. You may have experienced a rather austere or difficult early childhood. Perhaps there was

illness that kept you on the sidelines. Feelings of inferiority, insecurity, or unworthiness may push you to great ambitions and accomplishments. Perhaps you feel unloved or that you are not worthy of love. These feelings may have been activated in your early, formative years. Pessimism and depression may come upon you because everything looks like such a struggle for you. Keep your chin up and realize that no hard work is ever wasted and that rewards will come to you later in life if you buckle down now and toe the line. Survival issues may come into play.

You have the ability to translate abstract concepts into concrete terms. You may experience feelings of loneliness and inadequacy and that could be one reason why you tend to work so long and hard. On the negative side, prestige and social standing may be extremely important to you and you will be tempted to do whatever you have to in order to acquire them. Selfishness and a great love and desire for power can also be present.

It is as though you always have a sense of impending doom. You need to overcome this apprehension. Self-control must be developed.

Chiron Profile

Chiron in Seventh house

You will feel worthy of rejection or not worthy of love when you reach out to others and find them to be unavailable. It's time for you to learn that everyone's susceptible to feeling unloved sometimes and all of us reach out to others to feel less lonely. Be wary of getting into or staying in relationships because you're chasing a sense of safety and security you believe will come from another person. This placement indicate you can physically manifest through parental divorces or the parents having a rough relationship. If you take rejection too personally, you will vibrate a painful frequency that will attract more people being unavailable. It can also show lack of closeness with the parents while growing up. You fear being abandoned. You might often attract those who have wounds you desire to heal. It's likely you attract or have attracted those who use you for your empathy. You definitely need to learn grounding principles, and need to demark strong boundaries between you and your loved ones to prevent or stop a cycle of codependency or abuse. You are quite empathic and even psychic. There is a need for finding a balance between you and your partner – you are not one person. Find your 'self'. The major learning curve with Chiron here is to take apparent rejections in stride and not let them define your willingness to accept, love, and validate yourself. Only you can love yourself in the ways that you need and when you do, relationships can become celebrations of being together, not desperate attempts to stave off loneliness.

SEVENTH HOUSE

VII

You're especially aware of the emotions and needs of others, in particular, the pain and suffering, the self-judgment and pitying. When you can be aware of the pain or grief of another and not have to heal it, shut down, or otherwise react, then you can bring

the gift of witnessing the realities of the human condition with unconditional compassion. Letting go of the painful past and early engrams will prove to be a real challenge. You feel safe in the cage. There is a great awareness of the inner self and much inner reflection, but you are naive when it comes to dealing with the big bad world and your sensitive emotional nature is easily wounded by the deeds of other people. You may have no desire to venture into the outside world and take on grown-up responsibilities, gripping tightly to the past and the childhood. This thwarts growth and you become stuck. Only after being forced to leave your safe cocoon and experience adult life filled with duties and responsibilities and change, can a much-needed transformation occur. Forgiveness for past actions does not come easily for this placement. You need to learn to give to yourself and cherish your own needs. This helps your balance and complete. Any change proves frightening for you, even when that change allows you to enjoy independence and freedom. A great deal of compassionate awareness in the laboratory of your own heart is the key to accepting the wide range of possible human feeling states and moving through them.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of the all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Most of the world that sees you will observe a conscientious, quiet, conservative, and stable individual. You tend to be a good worker that seldom complains, and have a manner of quietly working your way up the corporate or social ladder. Your contemplative nature would have you avoid the emotional crises that so easily occurs with more temperamental types. There may be those moments when others see you as a cold and calculating thinker, which tends to give them the impression that a certain amount of empathy is lacking. You are not prone to vacillate or change your views or attitude very often, and your preference is for a structured setting that clearly defines everyone's roles whether in business or the work place.

You have a knack of forming friendships with people that have a direct bearing on your financial undertakings; important connections can be made through close acquaintances that happen to know the right people. Your over-all health and well-being is generally good, but you should avoid stressful situations as this can affect the nerves and mental state. Although you are not prone to accidents, or inclined to take risks, injuries could result to upper limbs especially the hands. The workplace tends to be a hub of activity, and you are likely to appreciate the mental and intellectual aspects of your duties rather than the physical demands. You would do well in a position involving travel of some regularity either of shortduration--or occasionally longer trips. Whatever you do, boredom and dull routines may have you changing jobs or looking for more challenging work; mental stimulation and differing conditions suit you best. Aspects Profile

Moon Opposition with Mercury - ☾ ☿ ♀

Tension

Orb - 5.33

The Moon and Mercury in opposition suggests that it's hard to bring emotions and reason into balance. Issues are clouded by concern over trivialities, and emotional response often wins over common sense. Conversely, cold logic sometimes overcomes due concern for the individual. In either case, you find it hard to integrate feelings and thinking. It's hard to predict your conclusions on any particular issue. Occasionally, you become nervous and emotionally troubled. When this aspect is active by transit, you may be easily irritated and argue at the slightest provocation. This is not necessarily your normal mode of response.

Moon Conjunction with Jupiter - ☾ ♃ ♃

Dynamic

Orb - 4.17

The conjunction of the Moon and Jupiter shows a deep sensitivity to your environment, which you truly want to understand as fully as possible. The aspect confers sympathy and generosity. Often individuals having this combination find jobs working with the underprivileged, in rehabilitation programs, or a similar type of occupation. Your honest concern for others brings you the trust and cooperation of most of those with whom you come in contact. You are a giving person and you find success because of this. Beware of over-extending your physical energies.

Moon Opposition with Saturn - ☾ ♄ ♄

Tension

Orb - 9.96

The opposition between the Moon and Saturn suggests a negative mental attitude and often a restriction of the spontaneous flow of ideas. Intellectual responses

are somewhat slowed. Even if you are very bright, the inability to express self in other than a prosaic manner often hides real mental abilities. Thus, you are more contemplative than conversational, but nonetheless a good listener. You are austere in your behavior and having fun is something that is hard for you to do chiefly because you worry too much. You function well when you are self-employed or at least have a free hand in deciding what you do. You lack emotional flexibility and optimism in your dealing with others, and you may sometimes display a stiff formal manner that can make others ill at ease.

Moon Opposition with Uranus - ☾ ♅ ♁

Tension

Orb - 1.15

The Moon and Uranus form an opposition in your chart. This opposition suggests a conflict in your life regarding emotional matters. The Moon denotes emotions and Uranus produces unstable situations. Thus, you may be called on to deal with unpredictable emotions that may appear as nervous tension. It may require conscious effort on your part to maintain a responsible role in your domestic affairs. There is a tendency for you to attract a mate displaying forceful traits. This individual is likely to dominate you. Males have more difficulties than female with this aspect because it frequently sets up problems with females, including the mother. In either sex, there is a constant demand to decide for others that generates stress between the mental and emotional faculties.

Moon Opposition with Neptune - ☾ ♆ ♃

Tension

Orb - 7.83

The opposition between the Moon and Neptune shows talent and creativity. Yet emotions govern most of your actions. You have some difficulty separating truth from fiction, and you may create illusions about yourself and others. Objectives are obscure, and you lack the ability to plan your life in an orderly fashion. You may experience periods when you are lacking in self-confidence. You can become

an escapist at these times. People sometimes take advantage of you because you become so emotionally involved with their problems.

Mars Sextile with Venus - *

Opportunities

Orb - 5.13

Venus in a sextile aspect with Mars produces a warm and affectionate nature. You can contain your strong romantic inclinations until you find a person with whom you're comfortable. You need to be sure the attraction is social and intellectual, as well as physical. Although you expect much of those close to you, you don't threaten their self-confidence by calling attention to their failings. So you find it is easy to get along with most people. Even with people you don't know, it's easy for you to strike up idle conversation and establish a casual relationship. Your artistic nature suggests enjoyment of good music, fine works of art, good literature, and intelligent, congenial friends. You have an optimistic outlook and a ready smile that puts people at ease.

Mercury Opposition with Jupiter - 2+

Tension

Orb - 1.16

The opposite positions of Mercury and Jupiter suggests mental overconfidence. It shows the tendency to go to extremes, promising more than you can deliver. Your talk is not always backed up with action and follow through. You have a constant need to produce thoroughness and attention to detail. In matters of education you may be somewhat conceited. Yet in your education, you may have pursued esoteric, literary, scholarly, or philosophic studies, which lack practical value for earning a living. Avoid alienating people with a know-it-all attitude. Your insatiable appetite for learning can serve you well once you have learned to focus your attention in one area, and develop a specific field.

Mercury Conjunction with Saturn -

Dynamic

Orb - 4.62

The conjunction between Mercury and Saturn increases the depth of your mind. Yet ambitions are slow to be satisfied because you are often overshadowed by your more gregarious competitors. Feelings are apt to be inhibited. You build a wall around yourself shunning the help that may be available from social contacts. This aspect shows ambition and the willingness to work for success with little encouragement or help from others. You are methodical and orderly, solving problems logically, and wasting little time on superficial matters. You are a good listener who is cautious about voicing opinions in conversation.

Mercury Conjunction with Uranus - ♀ ♂ ♃

Dynamic

Orb - 4.19

The conjunction of Mercury and Uranus shows that you are bright, curious, articulate, and intuitive. You're easily excited, and your mind races to answer questions that arise. Your mind probably developed early by taking your toys apart to see what made them work. Electronic communication is especially fascinating to you. You are very futuristic in your thinking, rarely worrying about or dwelling on the past.

Mercury Conjunction with Neptune - ♀ ♂ ♆

Dynamic

Orb - 2.5

A conjunction of Mercury and Neptune suggests that your imagination often works overtime. Logic and illusion become confused and you find it hard to express your highly developed and sensitive mentality. You are so attuned to the emotions of others that you may be vulnerable, and sometimes too easily influenced. There is a tendency to idealize and dream beyond attainable levels, often setting yourself up for disillusionment and disappointment. Good education and professional training are necessary before you can succeed in a career. This placement can produce creative writers or poets.

Jupiter Opposition with Saturn - ♃ ♂ ♄

Tension

Orb - 5.79

The opposition between Jupiter and Saturn suggests difficulty in recognizing personal limitations. In one sense this is good. You continue to plod forward in the face of just about any adversity, and you may face a good deal of adversity. This aspect often shows success coming in the later part of life. There is a tendency to compare yourself unfavorably with other people.

Jupiter Opposition with Uranus - ♃ ♂ ♅

Tension

Orb - 3.02

The opposition between Jupiter and Uranus suggest that you are more enthusiastic, independent, outspoken and willful than may otherwise be shown in your chart. You tend to bite off a bit more than you can chew, and you want to start at the top without due preparation. Speculation and gambling should be avoided. Learn moderation in everything, and try not to be hypocritical.

Jupiter Opposition with Neptune - ♃ ♂ ♆

Tension

Orb - 3.66

The opposition between Jupiter and Neptune shows a tendency to promise more than you can fulfill. You are creatively talented, but you must develop self-discipline to channel your energies in a productive direction. This aspect showing a lack of practicality damages business and financial affairs. You are extremely generous and kindhearted, but you may lack discrimination in this regard. You are somewhat revolutionary and may be over-emotional in your personal involvements. This aspect often denotes difficulty with drugs or alcohol.

Saturn Conjunction with Uranus - ♄ ♂ ♅

Dynamic

Orb - 8.81

The combination of Saturn and Uranus shows that great discipline is needed in the way you develop your ideas. You have an inclination to 'go your own way' and can often find yourself at odds with the views of others; you may suffer from disappointment and frustration as a result. But you possess remarkable self-will and when you apply discipline and maturity to your actions, you are capable of destroying boundaries and making breakthroughs that are of lasting value to yourself and others.

Saturn Conjunction with Neptune - ♄ ♂ ♆

Dynamic

Orb - 2.13

When this aspect is used to its best effect, the conjunction of Saturn and Neptune gives the ability to apply structure and form to ideals and personal dreams. Along the way, you will be called upon to look critically at your own illusions and separate false impressions from reality. This aspect often shows that insecurity and dissatisfaction must be overcome in the battle between your idealistic and material self. You are always ready to make personal sacrifices but can sometimes be too quick to give in to the needs of others when you would be better to stand your own ground.

Saturn Sextile with Pluto - ♄ * ♇

Opportunities

Orb - 3.04

Saturn sextile Pluto offers great strength of purpose and the ability to hold tightly to principles and beliefs. Those born with this aspect see beneath superficial surfaces and have a good grasp of the reality behind any situation. There is an aptitude for political intrigue and the deeper mysteries of life. Emotions are deeply felt but not easily expressed.

Uranus Conjunction with Neptune - ♅ ♂ ♆

Dynamic

Orb - 6.68

This is a 'generational' influence that is most noticeable in charts where it contacts the angles or Sun or Moon. Uranus fosters change and innovative breakthroughs. Neptune relates to mass consciousness. When these planets are in contact with each other, collective ideals will be shaken and disturbed in order to allow new modes of thought and collective expression to emerge.

Neptune Sextile with Pluto - ♆ * ♇
