People with Sagittarius rising tend to be idealistic, aspiring, enthusiastic, religious or agnostic, interested in far away places and cultures or ideas, physically active, risk-taking, outgoing, breezy, extroverted, philosophical, perhaps dogmatic, prejudiced, superficial, looking for greener pastures, and on-the-go.

Sagittarius, the Centaur, is half-human, half-animal and this is perhaps the way you are. You have great aspirations, yet may have a most unruly desire nature.

“ You can shoot for the stars or wallow with the animals. There is love of animals, the outdoors, sports, gambling, adventure, and travel. You may lack concentration.

You probably have many acquaintances, but few friends. You tend to have casual contacts rather than in-depth relationships. You have a great restlessness and a love to be on the move.

You may always be looking for greener pastures, never stopping or slowing down to see where you really are and what's around you.

You tend to be talkative and direct and to the point. You may be lacking in tact and diplomacy due to your frankness. Ideas are very important to you.

“ You generally like working with the big picture and dislike all the little details. You may promise much and deliver less. You can rise to the heights or sink to the depths. Jupiter rules Sagittarius so Jupiter will be important in your chart.

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in First house

You are important to yourself and will spend much time and energy on your own personal affairs. It's not that you do not care about others, it is just that you have your work to do and it is very important to you. You want to shine and be noticed for who and what you are. You may want to lead or be in a position of dominance. You are confident, independent and responsible. But watch for tendencies to be power-seeking or dictatorial. Be alert to false pride and try to be more humble. Give proper credit to others for their contributions.

FIRST HOUSE

I

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Sun in Sagittarius

Sagittarians tend to be idealistic, optimistic, dependable, open-minded, friendly, honest and versatile. But, they can also be tactless, irresponsible, showy, boastful, self-righteous, arrogant, quarrelsome, fanatical, dogmatic and dictatorial. Sagittarians like any work where foresight and a willingness to take a chance is offered,

while at the same time, they try to avoid detailed work. Sagittarians are usually outspoken, sometimes to the point of bluntness. Simply blurting out their ideas and opinions is due to their never-ending search for truth and wisdom. Others think Sagittarians are pretty tactless and the statement that 'truth hurts' fits their way of thinking. Regardless of their undiplomatic remarks, others instinctively feel as if the Sagittarian means them no real harm and is only interested in raising their consciousness. Sagittarians love the outdoors, large animals, nature and sports. Some have reckless gambling tendencies and will bet it all on the drop of a hat. Travel and even long walks appeal to them because they make the Sagittarian feel free — and he needs to feel free. Sagittarians are philosophical and they want to understand the deeper issues and abstractions of life. They have a certain faith in higher things that generally always keeps them of an optimistic bent, no matter what difficulties are currently besetting them. They want to understand the meaning of life. This helps to keep them growing and expanding, which is something they need to do. This desire for expansion can cause them to overextend themselves with too many activities and to use up their energy too rapidly. They need to take intervals of rest to recuperate between projects.

SAGITTARIUS

Sagittarius is Fire energy and the ruler of Jupiter. This is a very active, extroverted, mobile, expansive sign. The Archer is always ready for action, bursting with goals and idealism.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Second house

You want and perhaps need to possess both money and possessions for your emotional security. Your feelings and emotional well-being are connected with your material resources. Changes and fluctuations will occur in your financial situation. Perhaps you alternate between being thrifty and careless with your money.

Concerning vocation: the emphasis here is on self-worth. You need a work structure that allows public view or access, or working with women or the public. Like a pretty piece of jewelry in a department store window, you should be within the public's view while working. This may not entail working with the public directly, however. You feel as if you need to be seen while working. Becoming one with your work allows you to identify personally and emotionally with some life purpose and to project this to the public at large. Because you so closely identify with your work, your ideas of how successful you are as a person are directly tied in with the success you feel at your work environment.

SECOND HOUSE

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

Moon in Capricorn

You tend to be very serious and responsible, thinking that duty calls first before all else. You are not comfortable displaying your emotions for all to see and you certainly don't want them to think that you need help and support. You never want to appear emotionally weak. There is a great sense of ambition within you, perhaps because you feel unloved, unwanted or inadequate. You then work very hard because it makes

you feel important or needed. You need to feel secure in your own authority. Security needs are what drive you. You may be shy and insecure over your own worth and can be overly sensitive to real or imagined hurts. Sometimes you feel as though you have to carry the weight of the world on your shoulders. You are especially uncomfortable with emotional dependency, and will tell yourself and others (even children) not to be a baby. You need to accept that no one is self-sufficient all the time, and to be gentler with your childish emotional needs and wants. To others, you may appear to be rather hard-nosed and tough, with a business-like attitude toward their personal concerns and feelings. Your feelings and loyalties run deep, but you often do not let people know how much you care. You also need to learn to relax, enjoy yourself, and play sometimes. You are conservative, reliable and ambitious. You have the ability to bring plans to completion. On the negative side, you may be ruthless in your desire for power and success. Selfishness and manipulation are possible. You desire recognition. The emotions are steady, but can be quite cold.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in Second house

You may use your wit, knowledge, and versatility to make money. At the very least you like to talk about money ? it is on your mind. You may earn money with an ability to communicate ideas to others through writing and speaking. You may have financial skill, but your money may come and go, regardless.

SECOND HOUSE

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

Mercury in Capricorn

Your mind is clear, disciplined, serious, practical, organizing, objective and realistic, and you are unimpressed by exaggerated claims or promises. You want to know the facts behind any statement or idea you hear. Your natural skepticism often borders on cynicism. You have a rational approach to problems and are usually quite level-headed no matter what the circumstances. You are capable of working long hours with focused concentration and attention on whatever interests you. You probably have a good memory and are very attentive to details. At times you appear to others as lacking a sense of humor, boring, or depressed. You simply have a lot on your mind. You are thorough, conscientious, and disciplined in your thinking, and have an aptitude for business, organization, and administration. You are also a good strategist, and will plan and patiently follow a realistic course which will lead to your eventual success. Serious-minded and studious, you enjoy quiet time alone for thinking or reading. You seldom indulge in foolish or silly chatter for you consider them a waste of valuable time which is better spent on more productive things.

CAPRICORN

Don't be afraid to work. Your money is used to buy beautiful, artistic, and/or musical things. You like a certain amount of luxury to surround you. Money may come to you through a partner or relationship.

SECOND HOUSE

Venus in Capricorn

Love and affections are expressed in cautious, reserved and serious ways. You are probably not that demonstrative towards the ones you love. You care very much about what other people think of you and you fervently desire love and appreciation, yet your reserved responses make it appear that you are really very detached. Casual, superficial relationships don't interest you at all. You are cautious and serious about love and you want a deep, genuine, lasting love. You are old-fashioned and traditional regarding courtship and love, and will remain faithful to your loved one in good times and in bad. You may be attracted to persons older than yourself, someone who is emotionally mature and reliable and who can provide the security you desire. You tend to be loyal, trustworthy, patient and steadfast. For you love may be weighed against practical concerns or on the basis of security needs. Perhaps you'll marry for money or status. You have a strong desire to protect yourself from being hurt and this may keep you from being as outgoing and forward in love matters. You may be very fearful, selfish and jealous or cold and calculating if Venus is badly aspected. There may be an intense ambition and desire for prestige and status.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Mars in First house

You have an abundance of physical vitality. Sometimes there is so much energy that you become reckless, impulsive, and throw caution to the wind. You may experience cuts and burns on your head and face which may leave some sort of scar. You are assertive, independent, impatient and want to do your own thing.

You have strong organizing ability. You are usually self-confident. Guard against accidents due to rushing around in your impulsiveness. You may be subject to higher than normal fevers.

FIRST HOUSE

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Mars in Capricorn

Your actions serve your ambitions for power, recognition, distinction, and status. You are not content to follow, but must have a leading role in whatever you do. If not handled well, the energies of this placement can make you appear ruthless, manipulative and bulldozing over anyone who stands in your way. You are efficient, tenacious, organized, dedicated, practical, disciplined and steadfast in your resolve to feel successful. Your drive and energy are directed toward practical material accomplishment and achieving concrete results. You are hard-working and capable of foregoing immediate comfort in order to achieve your long-range goals. You can easily become a workaholic and are very responsible and conscientious about doing a thorough job. You don't tend to gamble when it comes to implementing your plans but generally prefer the conservative, tried-and-true route and then following through with it. You rely on your own efforts and perseverance rather than luck or good fortune. There is a natural shrewdness and instinct for business or organizational management. You tend to be ambitious, persistent, patient, self-reliant and responsible. You are apt to be slow in learning, but there is total assimilation of knowledge. Your energy is carefully used. Success is very important to you. On the negative side you may have a quick irritability which needs to be controlled and a tendency to feel resentment toward others for supposed hurts. You need to learn how to forgive and forget and how to release your emotions and frustrations positively.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in Fourth house

You are generous, self-confident, hospitable and patriotic. Prosperity usually increases in later years. You desire a home that is spacious and comfortable. Parental influence is strong in shaping your character. Perhaps your parents shared a strong faith with you. Usually, considerable help and/or an inheritance is received from

the parents. With Jupiter well-aspected, it is better to stay where you were born rather than move away from your birthplace. Guard against becoming ostentatious and watch out for self-indulgence.

FOURTH HOUSE

IV

The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.

Jupiter in Aries

You are enthusiastic, assertive, energetic, and filled with many ideas on how to grow, start, promote, or expand the ideas which fill your head. You are opinionated and can be very persuasive in getting people to go along with your plans and ideas. You like dealing with the big picture and have leadership qualities. A need to learn patience and to think before you act is probable. Your tendency to promise more than you can deliver should be watched. Tolerance of others people's ideas and viewpoints should also be developed. You have the ability to sell things, ideas, material goods, philosophies. Over-optimism, conceit, self-centeredness, false pride, and fanaticism over some cause may be your biggest shortfalls with this position.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Saturn Profile

It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in Second house

You tend to be thrifty, practical and responsible, especially with money and possessions. This placement does not deny money, but you must work hard for it. Sometimes you are so busy squirreling away money that you forget to enjoy it. Having money set aside for a rainy day is fine, but you probably don't need as much as you

tend to want to have set aside. Poverty is possible with this placement due to a lack of understanding of the true value of money and possessions. There is a tendency to become depressed over material matters. Your possessions are apt to bring worries rather than happiness because you may need to learn to share with others. There may have been too much emphasis on materialism in past lives. You may need to re-evaluate your values. Attitudes of possessiveness toward others must be changed. Feelings of being unloved, unwanted, and unappreciated occur with this position. You must value yourself before others can value you. Love yourself first.

SECOND HOUSE

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

Although humane in nature with a friendly and sympathetic disposition, you may have difficulty in understanding other people's goals. You can think ahead and plan things with an inventive flair. Seeing things in a whole new way is one of your strengths. You tendency is to be serious, impersonal, detached and scientific. On the negative side you can be opinionated, vindictive, cold and uncaring with a tendency to get quite aggravated if your plans are met with opposition.

Neptune in Eleventh house

You are idealistic and interested in the common good. Strong hunches regarding your hopes and wishes are present. Because the influence of Neptune is elusive, there may be difficulty deciding upon your goals. Just dreaming about them will not bring them about. Friends may be weird, wacky, spiritual, unreliable, or deceitful, but probably artistic or of a musical bent. Be careful with some friends as they may not be what they seem. Some may want to introduce you to drugs or alcohol so be objective and clear-headed. Definite, practical and concrete goals with a firm faith in the future are called for. You may experience conflict between one part of you that is intensely selfish and another than is self-sacrificing. You may be able to refine this differences by dissolving the deep hidden issues into universal oneness.

Chiron Profile

Chiron in Third house

A sensitivity to emotions and subtle energetic cues informs how your mind works. You can easily speak up for others who are being bullied or put down, but you have trouble doing the same for yourself. Realizing your divine being can help you gain confidence in yourself. There can be early injuries to the voice or painful shyness that comes from an early problem with self-expression. This placement shows your deepest wound residing in communication. This could mean constant feelings of being misunderstood or not being listened to. There may have been some injury to your voice or you may have been too shy to speak. You'll tend to be sensitive to how others hear you, including your voice and the words you use to attempt to get across to them what you're thinking. You must accept your unique way of processing information and communicate with compassion in order to free your mind to bring its unique contribution to any conversation. Sometimes, with this placement feel that you will not be able to express what you truly feel, either because you don't know how to put it into words or you feel you won't be taken seriously. Realizing your divine being can help you gain confidence in yourself. Your thoughts and words may take time to be expressed so as to be correct. Chiron in Pisces

Your energy antenna picks up on most everything in the world around you. You're more sensitive than most to the currents of unprocessed emotional stuff others are carrying, and you might unwittingly absorb them more than you feel is healthy. You also need time to unwind and unplug from the world, perhaps more than most people around you, in order to clear yourself out. Facing your own buried and painful subconscious and repressed memories and pain can heal. You may fall into the perpetual victim role, continually coddling old wounds or spending entirely too much time feeling sorry for yourself. Creative and meditative pursuits can work well here, and also unwinding in nature and with animals. Only through the experience of deep spirituality can the gift of healing emerge. Awareness of God is indicated here with this placement. You may feel that you have lost faith with the universe. You also may feel guilty even though there is no reason to feel that way. You must learn that sometimes things happen for a reason. By examining your problems, you may find deeper insight and connection. Facing your own buried and painful subconscious and repressed memories and pain can heal. Your inner self calls for a heart opening into choosing unconditional compassion, but you're picking up on – and likely absorbing – so much that it can seem an impossibility to respond to all of it with an open heart. Your task is to learn to accept the reality of pain, sorrow, and other kinds of suffering as part of the human experience, judging none of it while not absorbing it, and seeing it for what it is.

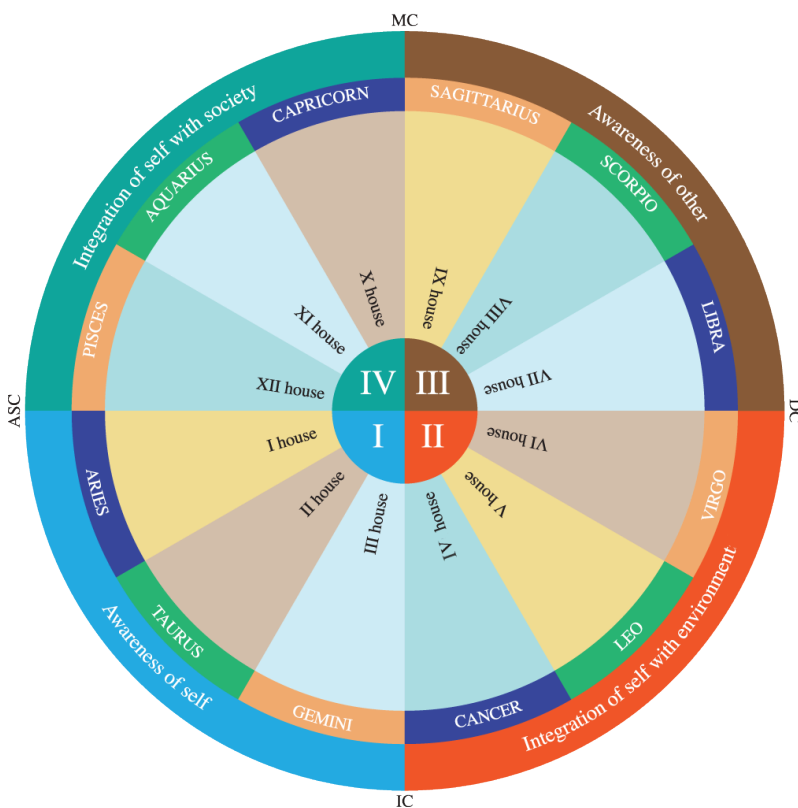

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Occasions may arise in life when unseen influences operate in the background, or forming associations with various people bringing conditions you are not aware of, and this then opens the possibility of falling victim to what you know not. Such a situation could occur by starting a sexual relationship with someone that is married, and they don't tell you. Although you are perfectly innocent, you are still in a potentially dangerous situation. Another possibility might occur with a spouse that is jealous or possessive because they seem convinced something is going on behind their back, even though nothing is. By the same token, avoid making accusations or insinuations about your spouse, unless of course, you have certainty.
