# Scorpio Ascendant

---

People with Scorpio rising tend to be secretive, deep, withdrawn, mysterious, regenerate or degenerate, reserved, hard to understand, courageous, willful, persistent, stubborn in thought, creative, self-reliant, self-controlled (except perhaps with the passions), and silent.

According to the spiritual astrologer Isabel Hickey, no unevolved soul is born with Scorpio rising. This is a powerhouse rising sign.

“ It represents the battleground where the higher and lower selves must come to mortal combat. They must be aligned and the lower self eventually must die and give way to and obey the higher self, the God within.

Physical, emotional, mental and spiritual levels are all involved. You appear calm on the surface, but you can be extremely emotional inside. 'Still waters run deep', as they say.

You tend to be the silent type, always wanting to know others' motivations, but never disclosing your own. You love to play the detective or the ferret.

You have to know everything, all the how's and why's. You have great determination and strength, enough to overcome any adversary, even yourself.

“ You need to overcome resentment, possessiveness and jealousy. There may be a fascination, preoccupation, interest and/or ability with the occult, death, sex or healing.

You can be a devil or an angel, the eagle or the stinging scorpion. Mars and Pluto rule Scorpio so Mars and Pluto will be important in your chart.

# Sun Profile

*The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.*

## Sun in Ninth house

You may wish to find, understand, live and accept a higher ideal or philosophy. But, then again, you may be one who insists upon scientific proof before anything can be believed. You can be the far-sighted thinker, one of high ideals and tolerance of other people's views or the dogmatic fanatic who just parrots what others have told you. Generally, there is a quest for truth and wisdom and a love of travel, not necessarily physical. You may have an aptitude for foreign languages and a love of foreign culture.

### NINTH HOUSE

### IX

*The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.*

## Sun in Cancer

Cancerians have a strange way of moving through life in a sideways manner, never approaching life head-on, but always from the side. They generally do not tackle anything straight away, but always from the flank. Emotionally, they are up one minute and down the next. These mood swings are sometimes difficult for others to understand and deal with. Cancerians are tenacious, sympathetic, industrious, sociable, thrifty and protective. They can also be argumentative, sensitive, emotional, martyr-like, intuitive, psychic, and patriotic. Cancerians respond to life through their emotions rather than through their minds. They tend to absorb the emotional vibrations of wherever they're at, so it is important to always be in positive environments. Because they live in their feelings, they unconsciously seek sympathy and attention and affection from others. They have a strong need to feel secure. Home and family bring the highest sense of security. Because of all this, they want to be first with those they love or they are very unhappy. Cancerians must learn to release their loved ones to live their own lives. Cancerians are well-known for changing — their minds, their moods, anything. Since they usually possess a slower moving life force, they are usually less active than others. In order to be active, they must first motivate their mind. In general, they dislike exercise. As a consequence, they may become out of shape and gain weight in later years.

### CANCER

*Cancer's element is Water. Symbolic of the emotions, water signs need to give and receive. They thrive on the exchange of feelings. They need security and love to be wrapped in an environment of love and comfort.*

# Moon Profile

*The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.*

## Moon in Ninth house

You are a dreamer and muse often about the higher aspects of life. Since you may not be content with the way your life currently is going, you have the desire to search for fresh fields. This search may take you on many long travels, both physically and mentally. Security may be

found in a religious or philosophical ideal. Your philosophy of life is what nurtures you and gives you security. You have a variety of interests, in sports, hobbies and studies. You make a stimulating teacher because of your personal interest in the subjects you teach. They are really a part of you and that comes across to those who listen to you. You may have precognitive dreams. Concerning vocation: the emphasis is placed upon the higher mind, the dimensions of philosophy, public mores, religion, law or sharing the reasoning of the public. Issues regarding foreign travel, relocation, even citizenship change are important dimensions to consider in the quest for work conditions that will bring personal success.

### NINTH HOUSE

### IX

*The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.*

## Moon in Leo

You are warm, generous, and loving in your affections and you bring out great devotion and loyalty in your loved ones. You want to be worshipped and adored like the king or queen you feel you are. You want and need a partner you can be proud of and your own pride is very important to you. You cannot love someone you don't respect and aren't proud of. It is important to you that you feel recognized and appreciated. Your feelings get hurt when you feel ignored. You dislike emotional games and dishonesty. You are popular, generous, dignified, loyal and ambitious and have a persevering, penetrating mind with leadership and creative ability. You dramatize the events in your life and your feelings. On the negative side, you may be ego-oriented, vain and/or ostentatious with a tendency to wear your heart on your sleeve.

### LEO

*Leo is Fire to the core of the Sun! Fire brings a desire to create, innovate, and lead. The sign radiates mega-confidence. The fixed motivation adds self-reliance, a characteristic that works well in leadership positions.*

# Mercury Profile

*MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.*

## Mercury in Eighth house

You have talent for analysis, research, insight, tax preparation, insurance and perhaps detective work. You want to get to the bottom of who, what, where and why. You are a born investigator. You may tend to worry over fluctuating finances. Watch a tendency to gossip about others. Your mind may be preoccupied with death, sex, healing, magic or psychic phenomena.

### EIGHTH HOUSE

### VIII

*The Eighth House is commonly referred to as the House of Sex. This House delves into relationships -- interactions with another and how certain aspects of those interactions can take on a more communal nature.*

## Mercury in Gemini

You have an extremely adaptable, energetic, active, alert, curious, and versatile mind. You seek knowledge, either through reading or conversation, or through travel and talking with the new people you constantly meet. You have so much nervous energy that this can sometimes cause great stress which must find an appropriate release. Exercise is a good way to release this tension. You are clever, witty, and always have a joke or comeback ready for any situation. You love being involved in multiple things at once and this may be a problem ? too many irons in the fire at the same time. You are quick to grasp new concepts and equally quick to lose interest in an idea or project once your curiosity has been satisfied. You like to taste a little bit of everything ? concentration and disciplined study are not your strong points. You are handy with your hands and may be ambidextrous or mechanically inclined. Debate and argument appeal to you. There is a tendency to scratch the surface with the things that strike your interest without learning anything very deeply. This is the jack-of-all-trades, master-of-none position. There is danger, then, of superficiality. Control of thought, word, and action is necessary in order to be successful. Find your focus, stay with it and develop perseverance. Journalism, speaking, teaching, sales, advertising, or writing may appeal to you. Mentally restless, you may change jobs or locations frequently, or do work that involves movement, travel, and variety. You grasp concepts easily and may become impatient with those who don't learn as quickly.

### GEMINI

*The Air element of Gemini brings communication, intellect and speed! This is one of the joy-of- life signs, one that reaches out, expands and expresses. Ruler of Mercury. Gemini is an inquisitive student with a quick grasp of subjects.*

# Venus Profile

*VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.*

## Venus in Tenth house

Your pleasant disposition and harmonious nature make you popular in your career and with the world at-large. People seem to want to do nice things for you, which can lead to laziness if you abuse this energy. You have a loving and friendly approach to the world with a general attitude of optimism. This placement can be favorable for public speaking and singing. Your voice may be used to please and inspire people. This position usually grants comfortable financial circumstances.

### TENTH HOUSE

*The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.*

## Venus in Leo

In affairs of the heart you are warm-hearted, spontaneous, ardent, affectionate, loyal and generous. You hate pettiness and stinginess in your partner. You seek the Hero, the Prince or Princess, someone you can idolize and adore, someone you have great pride in or someone who can sweep you off your feet. You crave love, appreciation, and attention from others and like to be at the center of things. You are rather susceptible to flattery and love to feel SPECIAL. You want and enjoy drama in your love life and some grand romantic gesture or extravagant expression of generosity impresses you. You dramatize your emotions. You are honest, frank, attractive, kind, compassionate, and fun-loving with a charming personality. You find it easy to be in love with love. You may expect too much of people and thus become easily hurt. You must watch a tendency to be preoccupied with your physical appearance when you should be developing your inner potential. Vanity and becoming a show-off is possible. You need to be admired for your inner and outer beauty.

### LEO

*Leo is Fire to the core of the Sun! Fire brings a desire to create, innovate, and lead. The sign radiates mega-confidence. The fixed motivation adds self-reliance, a characteristic that works well in leadership positions.*

# Mars Profile

*MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.*

## Mars in Seventh house

You are independent, like to have your own way and you must develop gentleness and diplomacy in order to avoid rubbing people the wrong way. You need to learn how to cooperate with others. Relationships energize you and you get a great deal of stimulation from them. You desire an active partner who can help you share in the goings-on of the world. Your partner needs to challenge you, help you initiate projects and perhaps compete with you. You need a sparring partner! Your relationships have much energy and you need to channel that energy into constructive means and not into destructive ones. The competition between you and your partner might better be directed towards the outer world. In all your dealings with others you enjoy the element of challenge and competition. You may goad others just to see how they will react. The chase is important to you, perhaps more important than the end result. Because you enjoy the action, you may not mind losing battles to a partner who is prepared to carry the fight to you. Your marriage partner is likely to be very ardent, positive, active, capable and courageous, with a will of their own. Perhaps the partner you seek is someone who can play the role of a champion or a crusader. Mars here makes for an association where the passions have full play and a love match with much devotion is possible. The tendency is to marry early, often as a result of love at first sight, although if Mars is badly aspected, you may marry in haste and repent at leisure. There may be strife and friction in marriage as a result of the partner's hasty temper, intemperance, extravagance, brashness, intolerance, over-demanding attitude or violence. In order to get the best results from marriage and partnership, you should try to be as cooperative and easy-going as possible, practicing gentleness and

### SEVENTH HOUSE

### VII

*The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.*

diplomacy rather than allowing any assertive or quarrelsome tendencies to gain the upper hand.

## Mars in Taurus

Once you set your mind on a goal, your dedication, determination, and commitment to it are extraordinary. You never give up and find it difficult to change your mind or course in mid-stream. Whatever you have set your sights on, you refuse to give up or let go of it. You are loyal to a fault, unless someone betrays your trust, then all heck can break loose. You are patient and usually slow to anger unless someone takes you too far. That is

when you charge, just like the bull Taurus stands for. You are reliable and consistent and can handle more of the workload than most around you. You prefer a regular routine, with definite hours and clearly defined responsibilities and tasks. You enjoy building and seeing the results of your hard work. Things you can put your hands on appeal to you. You need to see practical results, not theory and you are not satisfied with intangibles like just having a good time. At the same time, you have a lazy, comfort-loving side and there is often a good deal of inertia for you to overcome before you get going. Once you get a momentum going, your energy level is strong and steady. Keeping things going is your strength, especially once someone else starts them. Material well-being and security are large factors in determining what you do. Your stamina and persistence is your great strength but it can also work against you; you can get caught in a rut and refuse to seize new opportunities. You also tend to play it safe and to limit yourself in that way. Change scares you. So does disease and pain. At times you have a decided stubborn streak where no one can reach you. Possessiveness and jealousy may cause problems for you in relationships. Money and possessions are important to you for the feelings of security they bring. Re-evaluate your values. Sharing should be cultivated. Your tongue may be quite unruly at times.

### TAURUS

*The Earth element of Taurus brings strength and the desire for solid ground, form and structure.*

*Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.*

# Jupiter Profile

**4** JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

## Jupiter in Fifth house

Many opportunities for romance, dating, and activities involving children or teaching will probably come your way. You are optimistic and enjoy passing on your knowledge to those around you. You have creative ability which can bring success and happiness. There is a strong desire to make significant contributions through your creative self-expression. Children, which may be plentiful, can be a source of pleasure or over-indulgence. Guard against rash gambling and speculation.

### FIFTH HOUSE

**V**

*The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. The simple act of creating is, essentially, giving of oneself and making something -- making another? Yes, the Fifth House does speak to procreation and children, but it also addresses the creation of art and culture.*

## Jupiter in Pisces

Your needs for growth and expansion are perhaps best satisfied when you are working to help raise mankind to a higher spiritual level. You recognize that we are all in this together and what is bad for one is bad for all. You are sympathetic, charitable, genial, unassuming, quiet, visionary, intuitive, with a subtle sense of humor. You have an interest in spiritual or metaphysical ideas and issues, but you need to find your own path and

experience Truth for yourself. Periodically retreating from society and the people closest to you is good for your nerves and your own mental health. The strong desire you have to help others comes out in your willingness to help the unfortunate. Perhaps you volunteer in hospitals, jails, or other places of confinement. You give hope to those who need it most. You probably love nature and large animals, especially horses. There may be an interest in healing. On the negative side you may be hypersensitive, over-emotional, too sentimental, have a tendency to exaggerate, or to be too extravagant or self-indulgent.

### PISCES

*Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.*

# Saturn Profile

**♄** SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

## Saturn in Fourth house

You are probably conservative and perhaps find security in land or real estate or in old, traditional ways, beliefs, things or antiques. You may dislike change because of an unconscious fear of the unknown. You may have a desire to accumulate possessions, for security reasons. There may be many responsibilities and problems in your home or family life. You may be somewhat of a tyrant or strict disciplinarian in your home or with your family. Inner worries may cause ulcers. You may be a caretaker of someone or of your parents, perhaps because of a karmic debt to them. The later part of life can be more rewarding if you learn the lessons life has to teach you in your earlier years. If not, then old age may not be as pleasant.

### FOURTH HOUSE

### IV

*The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.*

## Saturn in Aquarius

You possess practical common sense, self-discipline and inner sources of strength which provide stamina. Although humane in nature with a friendly and sympathetic disposition, you may have difficulty in understanding other people's goals. You need to learn tolerance for other people and must develop forgiveness. You have the ability to exercise system, organization, discipline and tact in unusual and non-traditional ways. You can think ahead and plan things with an inventive flair. Seeing things in a whole new way is one of your strengths. Your tendency is to be serious, impersonal, detached and scientific. On the negative side you can be opinionated, vindictive, cold and uncaring with a tendency to get quite aggravated if your plans are met with opposition.

### AQUARIUS

*Ruled by shocking Uranus is a element of Air, Aquarius very much epitomes the planet that inspires it. This sign has astonishing intellectual and communication skill.*

# Uranus Profile

*URANUS symbolises SHOCK; CHANGE; INDEPENDENCE; THE NEW; INVENTION; REBELLION; INDIVIDUALITY; EXCITEMENT; ORIGINALITY; ECCENTRICITY; INSPIRATION; UNORTHODOXY and REFORM. It is personified by TECHNICIANS; REBELS; ALIENS; INDIVIDUALS; ECCENTRICS; ASTROLOGERS; REVOLUTIONARIES; REFORMERS, and those who are unusual or different in some way.*

## Uranus in Tenth house

You are not a conformer and do not wish a career that is stable, uneventful and commonplace. You are highly independent and may wish to be self-employed. Your rebellious nature may cause you to do the opposite of what you are told to do in your line of work. Your strong imagination, intuition and creativity will be applied to any career you choose. Sudden changes in job fortune are probable. Routine work drives you batty. A career in electronics, computers, invention, metaphysics or mechanics is possible.

### TENTH HOUSE

**X**

*The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.*

## Uranus in Leo

You tend to deviate impressively and creatively in relation to pleasures. You choose new pleasures, perhaps unconventional ones, and ways of enjoying yourself. You may experience some conflict between your basically casual, or 'cool' attitude and an enthusiasm to impress others, perhaps with new ideas and new ways of having fun. You should avoid being overconfident and taking too many risks. You can be too proud and seek power for its own sake.

### LEO

*Leo is Fire to the core of the Sun! Fire brings a desire to create, innovate, and lead. The sign radiates mega-confidence. The fixed motivation adds self-reliance, a characteristic that works well in leadership positions.*

# Neptune Profile

NEPTUNE symbolises SPIRITUALITY; SENSITIVITY; THE AURA; MEDITATION; CONTEMPLATION; DIFFUSION; MERGING; COMPASSION IMAGINATION; TRANSCENDENCE; INSPIRATION; UNIVERSALITY; ILLUSION AND DISILLUSION; UTOPIA; IDEALISM; THE DIVINE; DREAMS; E.S.P.; DRUGS; HALLUCINATIONS; THE OCCULT; SELF-SACRIFICE; THE UNCONSCIOUS AND THE COLLECTIVE UNCONSCIOUS; MYTH; BLISS; PSYCHOSIS; WEAKNESS and DELUSION.

## Neptune in First house

You tend to be artistic, idealistic, dreamy, procrastinating, psychic, and very (hyper)sensitive to your environment. Getting lost in your own imagination can sometimes make you moody, frustrated, unstable or impractical. You may be a sucker for the sob stories of those who feel down and out. You may enjoy playing the role of savior, or of martyr. The day-to-day pressures of the world can drive you away and into your own little world. Be sure you do not get lost in it. You still have to live and function on this earth plane. Your physical body may be susceptible to all sorts of real or imagined ailments. You are like a sponge and can soak up the influences of the environments you are in. So be careful what you surround yourself with. Watch any medicine you take because a little probably goes a long way for you. Perhaps the secret for you is to lose your ego so that you will find yourself.

### FIRST HOUSE

*The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.*

## Neptune in Scorpio

You and people of this age, tend to dream about matters of a secret and profoundly deep nature in an intense and passionate way. You may be interested in a strong way in matters to do with mysticism, hypnosis and sex. You may wish to get involved in religious or cultish organisations and share your deep held beliefs or searching for profound secrets, such as those related to life and death. You may be interested in matters related to spirits, UFOs, vampires, and other uncertain and vague phenomenon. You should avoid a tendency to believe in things just because they are mystic and profound. You may experience conflict between one part of you that is intensely selfish and another than is self-sacrificing. You may be able to refine this differences by dissolving the deep hidden issues into universal oneness.

### SCORPIO

*Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.*

## Pluto Profile

*PLUTO symbolises SEXUAL ENERGY; THE ORGASM; DEATH; TRANSFORMATION; DESTRUCTION; REBIRTH; POWER; EVOLUTION; THE MASSES; REGENERATION; THE WILL; REVOLUTION; THE UNDERGROUND AND UNDERWORLD; THE UNCONSCIOUS; WAR; ATOMIC POWER; BIOLOGY; SURVIVAL; PROCREATION and CONCEPTION. It represents the process of destruction of old forms and the release of the energy inherent in them in order to create new life.*

### Pluto in Tenth house

Unforeseen activities can affect your career. Elements of the world society can directly influence your job or your status in the world. You are self-assertive and need to incorporate diplomacy and patience into your personality, especially when dealing with the world at large. This position can give a desire for power, a desire to retreat from society or a desire to be of benefit and service to society. Using power and force to get your way will bring your downfall. Use your skills to uplift society and the masses. You enjoy working behind the scenes to accomplish your goals. You have an instinct for knowing why people do the things they do.

#### TENTH HOUSE

**X**

*The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.*

## Pluto in Virgo

# Chiron Profile

## Chiron in Fourth house

This placement means that you have a unique path when it comes to learning to admit, acknowledge, and honor your feelings and needs. This also shows your deepest wound residing in your family life. This is a hard placement to dig into because the 4th house shows the deepest part of your soul. Forgiving the past is needed.

Forgiving yourself and those who made you feel the way you felt is needed. You feel like a fish out of water. You often express feelings of "otherness". There can be indications of childhood abuse, abandonment by the father, and early childhood trauma, if other aspects support this, or there are hard aspects related to family. A lack of self-confidence may make you think doing anything with your life is a waste of time. You may have difficulty in starting your own family or refuse to start one because as your early life was insecure. You have a great deal of empathy towards others. You may have found in life that no one else can validate your needs – even your right to have needs – and this might have inspired you to veer into loneliness or hopelessness. When you accept that you need to treat yourself in certain self-caring ways in order to move through difficult emotions and loneliness, you can heal truly.

### FOURTH HOUSE

### IV

*The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.*

## Chiron in Pisces

Your energy antenna picks up on most everything in the world around you. You're more sensitive than most to the currents of unprocessed emotional stuff others are carrying, and you might unwittingly absorb them more than you feel is healthy. You also need time to unwind and unplug from the world, perhaps more than most people around you, in order to clear yourself out. Facing your own buried and painful subconscious and repressed memories and pain can heal. You may fall into the perpetual victim role, continually coddling old wounds or spending entirely too much time feeling sorry for yourself. Creative and meditative pursuits can work well here, and also unwinding in nature and with animals. Only through the experience of deep spirituality can the gift of healing emerge. Awareness of God is indicated here with this placement. You may feel that you have lost faith with the universe. You also may feel guilty even though there is no reason to feel that way. You must learn that sometimes things happen for a reason. By examining your problems, you may find deeper insight and connection. Facing your own buried and painful subconscious and repressed memories and pain can heal. Your inner self calls for a heart opening into choosing unconditional compassion, but you're picking up on – and likely absorbing – so much that it can seem an impossibility to respond to all of it with an open heart. Your task is to learn to accept the reality of pain, sorrow, and other kinds of suffering as part of the human experience, judging none of it while not absorbing it, and seeing it for what it is.

Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. The 12 Houses of astrology are symbolic of the all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

You may have a tendency to want to play with money, or in some sense turn it into a game in which you can experience the rise and fall of your fortunes, probably with some amusement involved. You are inclined to do well with certain enterprises, and these would be in areas dealing with overseas affairs, foreign investments, the travel industry, publishing, and the teaching field, particularly higher education. Nonetheless, should a marriage fall on troubled waters, it would be wise to guard against repercussions, and maintain your integrity through it all. In the event a partnership is on the verge of failing, the possibility of creating enemies is increased. Should they fail to listen to reason, it would be best to protect yourself and/or the business from being undermined from within and without. In the case of a business, it would be wise to draw up provisions in the beginning to insure there is no chance of misunderstandings later on. Think carefully about the marriage partner becoming a business partner.
