Virgo Ascendant

People with Virgo rising tend to be practical, analytical, discriminating, fastidious, careful, exacting, attentive to details, methodical, quiet, unassuming, shy, critical, thoughtful, and somewhat self-centered.

You have an ingenious, active and alert mind. Gaining knowledge and putting it to good use are important to you. You strive for perfection and can be quite the person to live with or to be around because your standards for yourself and others are so high.

“ At times others can never be 'good' enough to meet those high standards. Finding fault with what's wrong with things is your forte.

Sometimes, though, this can make relationships sour as you often turn your critical eye on the one you love and the things they do. Pessimism and being too self-critical are two faults you should try to improve upon.

You may tend to worry too much, especially about the small stuff, the little details. Too much worry can lead to health problems. You need to learn to digest every experience and assimilate it without bitterness, regret, spite or resentment.

You need to get rid of any negativity that stems from a feeling of inadequacy. You tend to look younger than you really are, no matter what your age.

“ You are very restless and nervous, so you seldom have much weight on you. At times you can be very indecisive and unsure. Mercury rules Virgo so Mercury will be important in your chart.

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Ninth house

You may wish to find, understand, live and accept a higher ideal or philosophy. But, then again, you may be one who insists upon scientific proof before anything can be believed. You can be the far-sighted thinker, one of high ideals and tolerance of other people's views or the dogmatic fanatic who just parrots what others have told you. Generally, there is a quest for truth and wisdom and a love of travel, not necessarily physical. You may have an aptitude for foreign languages and a love of foreign culture.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Sun in Gemini

Geminians are friendly, clever, talkative, versatile, curious, perceptive, intuitive, and logical. At times they can also be quite contradictory, restless, two-faced, critical, and impatient. Gemini people enjoy and need work that includes a great deal of variety. They love to do several things all at the same time, sometimes making them late for appointments. They abhor boredom. Geminians tend to flit from one experience to another, gathering in all types of information along the way, but seldom getting to the depth of any subject. They go broad and not deep. Persistence is not their strong suit. Gaining knowledge and disseminating it is their real talent. Hence, they make wonderful salespeople or teachers if they stick around long enough to get all the facts instead of only half the story. Even if they do not possess all the facts, since they are never at a loss for words, they will continue with their story as if they did have all the facts. It is important for a Geminian to seek intellectual satisfaction. Mental stagnation turns them off, so they read extensively and communicate widely in order to satisfy this longing for mental stimulation. This discontent can make them either very ambitious, or it can incline them to jump from one thing to another, searching for the greener grass which never appears. Geminians usually think quickly on their feet and have the ability to use the right words in any situation. They possess tremendous wit and a good sense of humor. Other people may have difficulty in keeping up with their rapid change of subjects.

GEMINI

The Air element of Gemini brings communication, intellect and speed! This is one of the joy-of-life signs, one that reaches out, expands and expresses. Ruler of Mercury. Gemini is an inquisitive student with a quick grasp of subjects.

There is a strong need for communication and for gathering information, which is later shared with people in general or women in particular. You have a fine sense of humor

and like to joke and play around. Travel appeals to you because it affords new opportunities for learning. Routine of any kind probably bores you and you are constantly looking for variety. Your ideas change at a moment's notice and you are forever flexible and adaptable to any situation. Learning is perhaps better accomplished through listening rather than reading. You seem to thrive on travel, sociability, fellowship, and expressing your opinions to whomever will listen. In addition, you are adventurous, playful, freedom-loving, and always ready for a good time. You rarely allow difficulties to keep you down, for no matter how bleak the past or present, you always expect a better, brighter future. In fact, you are uncomfortable with your own or other people's problems and emotional pain. You often try to cheer up or offer philosophical advice to those who are hurting, but unwittingly you avoid or ignore the emotions involved. Friendship means a great deal to you, perhaps even more than love or romance. For you to be happy, your mate must be your best friend and encourage your aspirations and ideals. You also need a great deal of emotional freedom and mobility. On the negative side, you may be rather intolerant, closed-minded, dogmatic, arrogant, non-objective, risk-taking, or possess a holier-than-thou attitude.

You may assimilate material at a slower pace than others, but once a concept is learned, it is never forgotten. You hate being forced or rushed into a decision or an action, especially if you have not been given time to think it all through and evaluate the practicalities of the situation. Once your mind is made up, that's it. It will take a lot to undo it. Perseverance is one of your best traits. You enjoy sustaining what others have started, especially if you can see tangible, practical results. You love to build things. You succeed not so much because of your mental brilliance, but because you have the ability to concentrate and follow a project through to its completion. You may have an artistic or musical aptitude. Perhaps you sing or speak for a living. Common sense is not uncommon in you.

TAURUS

The Earth element of Taurus brings strength and the desire for solid ground, form and structure.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Venus in Gemini

In matters of love and romance, a person's sense of humor, intellect, and communication skills attract you more than their physical appearance. You desire a partner who is mentally stimulating, curious, one who can challenge your mind, and keeps you from getting bored. Relationships where talking, sharing ideas, going places, and learning new things together are highly preferred and needed. You need a lot of social stimulation and can be a bit of a flirt. Jealous and possessive partners turn you off. You are charming, friendly, and enjoy meeting new people. You can be fickle in matters of love and may have a tendency to desire more than one love interest at a time. You enjoy the fun and excitement of love, yet may fear its obligations. Your feelings can be well expressed through speaking, through writing or poetry, or perhaps through art where you get a chance to work with your hands. Your emotions are ruled by your mind and you may prefer intellectualizing your feelings. If Venus is poorly aspected, your breathing may be shallow and there may be poor oxygenation of the blood.

GEMINI

The Air element of Gemini brings communication, intellect and speed! This is one of the joy-of- life signs, one that reaches out, expands and expresses. Ruler of Mercury. Gemini is an inquisitive student with a quick grasp of subjects.

Mars in Ninth house

Your mind is enthusiastic, but restless. You are independent in thought. Your religious zeal must be watched so that it doesn't turn into fanaticism. You have strong opinions and are happy to tell anyone who will listen what they are. You have a strong desire to travel, not necessarily physically, but mentally. You have a liberal, broad, and progressive philosophy about life and do not want anyone else imposing their beliefs on you. There is a possibility of strife with in-laws. You will fight for your convictions. You may need to watch a tendency towards believing you are always right.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Mars in Taurus

Once you set your mind on a goal, your dedication, determination, and commitment to it are extraordinary. You never give up and find it difficult to change your mind or course in mid-stream. Whatever you have set your sights on, you refuse to give up or let go of it. You are loyal to a fault, unless someone betrays your trust, then all heck can break loose. You are patient and usually slow to anger unless someone takes you too far. That is

when you charge, just like the bull Taurus stands for. You are reliable and consistent and can handle more of the workload than most around you. You prefer a regular routine, with definite hours and clearly defined responsibilities and tasks. You enjoy building and seeing the results of your hard work. Things you can put your hands on appeal to you. You need to see practical results, not theory and you are not satisfied with intangibles like just having a good time. At the same time, you have a lazy, comfort-loving side and there is often a good deal of inertia for you to overcome before you get going. Once you get a momentum going, your energy level is strong and steady. Keeping things going is your strength, especially once someone else starts them. Material well-being and security are large factors in determining what you do. Your stamina and persistence is your great strength but it can also work against you; you can get caught in a rut and refuse to seize new opportunities. You also tend to play it safe and to limit yourself in that way. Change scares you. So does disease and pain. At times you have a decided stubborn streak where no one can reach you. Possessiveness and jealousy may cause problems for you in relationships. Money and possessions are important to you for the feelings of security they bring. Re-evaluate your values. Sharing should be cultivated. Your tongue may be quite unruly at times.

TAURUS

The Earth element of Taurus brings strength and the desire for solid ground, form and structure.

Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.

4 JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in Fourth house

You are generous, self-confident, hospitable and patriotic. Prosperity usually increases in later years. You desire a home that is spacious and comfortable. Parental influence is strong in shaping your character. Perhaps your parents shared a strong faith with you. Usually, considerable help and/or an inheritance is received from

the parents. With Jupiter well-aspected, it is better to stay where you were born rather than move away from your birthplace. Guard against becoming ostentatious and watch out for self-indulgence.

FOURTH HOUSE

IV

The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.

Jupiter in Capricorn

Your positive qualities are honesty, sincerity, faithfulness, ingenuity, resourcefulness and some degree of mechanical ability. Your attempts at growth, expansion, meeting new opportunities and getting ahead in the world are met with reserve, discipline, caution, system, practicality and organization. You have a desire for material success, yet this may not bring satisfaction or happiness if gained. There may be a tendency toward miserliness and withholding yourself from the rest of the world, financially and emotionally. You hate waste, are self-reliant and self-controlled, and possess a desire to have authority over others. You can rise to great heights if you stay honest, truthful, respectful, and keep your nose clean doing everything above-board.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Saturn Profile

♄ SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in Seventh house

There may be the tendency to attract older, more serious partners. Partnerships may involve much duty, responsibility and hard work. There may be a karmic tie from the past to the partners in this life. Whatever the case, there may be a feeling of restriction, bondage, depression and anxiety in your relationships. They certainly can be enduring, though. Saturn here indicates you need to learn to cooperate with and to develop empathy for others. You are perhaps cautious about marriage, but, when committed, may find it very difficult to leave your marriage partner, even if you are unhappy. You may marry for security rather than love. Discipline is needed in relationships. There may be a very self-controlled and sometimes calculating attitude towards all forms of partnership. You are inclined to seek a partner who will awaken your sense of responsibility and give you a greater sense of purpose and will to succeed. For a woman there may be a subconscious desire to marry a father figure and the partner may well feel an urge to organize your life on a more effective basis. The responsibilities of marriage or the fear of marriage may delay marriage. If Saturn is well aspected in your natal chart, then this position usually indicates that one loyally abides by marriage vows and faithfully carries out marital duties. With a well placed and well aspected natal Saturn, the partner is likely to be a person of integrity, faithful, steady, reliable, industrious, persevering and economical, perhaps not over-demonstrative and preferring deeds to words, and providing a real anchor for the partnership. If natal Saturn is badly aspected, then there is a tendency to endure an unhappy marriage rather than to lose

SEVENTH HOUSE

VII

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

face by breaking up. If you neglect to make your partner happy, your own happiness will be affected in the same proportion. This position can also mean a second choice marriage, which endures in spite of boredom, unhappiness and a lack of love. In other words you may have wanted to marry someone else but settled on a second choice instead. The partner may act in such a way as to become a burden, and may be uncommunicative, narrow in outlook, cold, and over-critical. In some cases the spouse may be much loved, but prone to ill health. Marriage to a widow or widower is possible.

Saturn in Aries

The best quality of Saturn is system and the best quality of Aries is leadership. Therefore, you can be a very capable leader, one who knows what to do and is not afraid of going out and doing it no matter what it takes or how long it takes. Combat and competitiveness spur you on to greater achievements. Self-reliance is high within you and you probably feel that you are more

capable than those around you, hence you may end up doing all the work, which may antagonize you if you feel that others are not holding up their end of things. Saturn's worst quality is selfishness and Aries worst quality is interference with the plans of others. Therefore, you are also capable of meddling and trying to run the affairs of others. You may run roughshod over them in trying to get them to do your will rather than their own. You can be a real slave-driver. You dislike restraint of any kind and do not take kindly to others telling you what to do. Remember this as you give the orders. Obstructions, frustrations, and limitations come into play in your pioneering, self-starting efforts. Freedom comes only through responsibility and discipline. Impatience can ruin all the good work you try to do. Caution may need to be developed in the carrying out of your plans. Stability and security are important to you and you work with those thoughts in mind. Feelings of being inadequate may spur you on to tackle immense undertakings in order to feel more valued or worthy. Stress from trying to accomplish too much may make you prone to headaches. Unexpected gains without any effort on your part can come to you, which may generate an attitude within that you just can't lose. Watch out for that. Neptune in Fourth house

You may experience a sense of inner uncertainty, insecurity and confusion. Unexplainable fears and anxieties may cause you to withdraw from living. You idealize the home environment and it may be, in reality, more in your imagination rather than in fact. A spiritual tie with one or both parents is likely. A desire to live by the sea is not uncommon with this position. You may have vague recollections regarding your true roots and this uncertainty may cause difficulties. Remember, with Neptune, things are not as they appear and you need to face reality in your home environment and with respect to your parents rather than what may be in your imagination and sub-conscious.

You want to know the answers to all your many questions. Research and figuring out puzzles or brain teasers may appeal to you. Perhaps you

enjoy playing detective. You may be searching for that something that will give meaning to your life or searching for that area that will help you regenerate yourself or your thinking. Frustration, depression or anxiety may arise when the answers you seek are not forth-coming. Keep at it! Expressing yourself in writing may help alleviate the tension. This may help purify your thoughts, then allow new thoughts to enter. Once your thoughts and feelings have been purged, you may want to destroy the material as its purpose has been served.

Chiron is associated with the emotional wounds you receive early on in your lives. This shows your deepest wound residing in your sense of self. It can also be that you sometimes feel you don't have the right to exist, as others' reactions to and treatment of you over time might seem to edit or cut you out. You are a fighter for those who are less fortunate and give wonderful advice to others who seek your counsel. You often neglect yourself or feel unworthy. You might blow out of proportion and may feel that you are imperfect or unlovable, being hypersensitive to how others react to this part of you, such as obsession over the size or shape of your nose, the ratio of the length of your legs to that of your torso, or anything else that's simply unique about your body. Helping others help themselves and find their true potential is your strong point. Your weak point is doing the same for yourself. Chiron in first house may indicate a journey of self-discovery. There will be a need to find personal meaning in existence. You're learning to embody uniqueness without fear that others won't love you, because you're here to learn to love yourself in all the ways that others can't, don't, or won't. Let yourself do what you love and take your own advice as if you were giving this same advice to someone you love.

FIRST HOUSE

I

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Chiron in Libra

Libra is an air sign, ruling the mental plane. Relationships prove karmic with this placement. Your relationship needs to be healed, or maybe you have got hurt or rejected in a relationship. You are hypersensitive to what others are feeling and need, as well as how they do and don't give you what you perceive you want and need. You might feel you have less of a right to need love and

support from others, which would be why you've attracted needy others to you in the first place! Building and forming lasting relationships can heal. Awareness of the need for another half is indicated. The identity might somehow be tied to another person. You may attract others to you with a noticeable amount of unhealed issues, or pervasive wounding. How you respond to them will tell a lot about where you are in stages of becoming the source of love yourself. Your job is to take cues from others and how they do and don't deal with their emotional issues and improve how you deal with yours, always evolving how much credence you give to your own emotions, needs, and suffering. You can only seem to know the self through mental interaction with others. A mirroring takes place that makes you eventually aware of yourself. This placement signifies that you need much to learn from the chosen mate, and all lessons will not be pleasant. Reaching a perfected highly evolved union and ultimate healing comes through gifting another with unconditional love without the fear or worry of whether that love is reciprocated. It's up to you to become the source of love for yourself, and these others are with you so you can learn about healthy and empowered ways of doing so for yourself. One of the lessons that may be learned with this combination is that conflict may lead to a greater sense of intimacy.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus-inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Others will tend to see you as discriminating or even fastidious. Your projection out to the world is one of good taste, and a keen mind. You enjoy lively conversation, and intellectual challenges that makes you popular with many people, especially in and around the work place. Your helpful and attentive nature is a welcome interlude for those that need comfort and encouragement, and you can count on the support of those that you have helped in the past. You may have a tendency to be too critical about what other people say or do, and this could lead to misunderstandings, or create reactions that have an adverse effect on your relationships. Because of your changeable nature, consider your decisions after careful consideration, rather than be too hasty and lose control of the situation.

But there is a strong likelihood you would be very unhappy in a position where the bulk of your income came in ways that were not fitted for you, or you had little aptitude for. Thus you would be happy earning income through creative pursuits such as writing, painting, sculpture, architectural and interior design, or through investments that provided a regular income. There might be an element of success should you enter into agreements with partners or others for mutual benefit in business arrangements. Care is needed to choose wisely, or losses could occur; a marriage partner would be ideal in a business relationship.
