Virgo Ascendant

People with Virgo rising tend to be practical, analytical, discriminating, fastidious, careful, exacting, attentive to details, methodical, quiet, unassuming, shy, critical, thoughtful, and somewhat self-centered.

You have an ingenious, active and alert mind. Gaining knowledge and putting it to good use are important to you. You strive for perfection and can be quite the person to live with or to be around because your standards for yourself and others are so high.

“ At times others can never be 'good' enough to meet those high standards. Finding fault with what's wrong with things is your forte.

Sometimes, though, this can make relationships sour as you often turn your critical eye on the one you love and the things they do. Pessimism and being too self-critical are two faults you should try to improve upon.

You may tend to worry too much, especially about the small stuff, the little details. Too much worry can lead to health problems. You need to learn to digest every experience and assimilate it without bitterness, regret, spite or resentment.

You need to get rid of any negativity that stems from a feeling of inadequacy. You tend to look younger than you really are, no matter what your age.

“ You are very restless and nervous, so you seldom have much weight on you. At times you can be very indecisive and unsure. Mercury rules Virgo so Mercury will be important in your chart.

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Ninth house

You may wish to find, understand, live and accept a higher ideal or philosophy. But, then again, you may be one who insists upon scientific proof before anything can be believed. You can be the far-sighted thinker, one of high ideals and tolerance of other people's views or the dogmatic fanatic who just parrots what others have told you. Generally, there is a quest for truth and wisdom and a love of travel, not necessarily physical. You may have an aptitude for foreign languages and a love of foreign culture.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Sun in Taurus

Taureans are generally strong, quiet, deliberate, practical, exacting, determined, persistent, persevering, compassionate and loyal. They like getting their hands on their work, building things, and seeing the tangible, practical results of their effort. Routine work does not bother them as long as the end result is useful and serves some concrete purpose. Possessions and material things are usually of great significance to Taureans. This

is because they don't feel emotionally secure unless they can see and touch the objects they own. This intense need to possess and enjoy with the senses can drive Taureans to be extremely productive or extremely acquisitive. Lesser evolved Taureans can treat people as objects or possessions, thus leading to difficulty in relationships. Taurus people work at a slower pace than most, but they always finish whatever projects they start. Because of this, they are reliable, trustworthy, careful and steadfast. They are better at sustaining what others have started rather than starting things themselves. Taureans can be lead, but never pushed. It takes a lot to make a Taurean mad, yet if they are pushed over the edge, well, all heck can break loose. Simply imagine an angry bull and you know what a Taurean is capable of when he is pushed too far. You know the saying about a bull in a china shop, right? When angered, Taureans need plenty of time to cool down. It is best to just leave them alone. You will know when things are out of their system. With anything Taureans need time to assimilate and mull things over. Don't rush them or push them.

TAURUS

The Earth element of Taurus brings strength and the desire for solid ground, form and structure.

Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Second house

You want and perhaps need to possess both money and possessions for your emotional security. Your feelings and emotional well-being are connected with your material resources. Changes and fluctuations will occur in your financial situation. Perhaps you alternate between being thrifty and careless with your money.

Concerning vocation: the emphasis here is on self-worth. You need a work structure that allows public view or access, or working with women or the public. Like a pretty piece of jewelry in a department store window, you should be within the public's view while working. This may not entail working with the public directly, however. You feel as if you need to be seen while working. Becoming one with your work allows you to identify personally and emotionally with some life purpose and to project this to the public at large. Because you so closely identify with your work, your ideas of how successful you are as a person are directly tied in with the success you feel at your work environment.

SECOND HOUSE

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

Moon in Libra

You are kind, sympathetic, agreeable, optimistic, fair, and very fond of social pleasures. You are a considerate and thoughtful friend, and have a real flair for making others feel accepted and appreciated. At the same time you probably possess good reasoning powers and the ability to form correct judgments. There is love of art and music with perhaps decided ability as a performer. You have a

need for people and relationships. You avoid personal confrontations or any expression of intense, unpleasant behavior or emotion. You strive for peace, harmony, and perfect balance. You feel unsuited for menial physical labor and you hate to get your hands dirty. Your desire to be liked by everyone may cause you to seek peace at any price, thus you can be evasive on issues due to your desire to keep the peace. You can be quite vacillating and indecisive. You are much more at odds with yourself than people would guess by looking at you from the outside. It is sometimes very difficult for you to make up your mind because you see all sides of any issue and you always want to be fair. You must learn to stand up for your principles.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus-inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in Eighth house

You have talent for analysis, research, insight, tax preparation, insurance and perhaps detective work. You want to get to the bottom of who, what, where and why. You are a born investigator. You may tend to worry over fluctuating finances. Watch a tendency to gossip about others. Your mind may be preoccupied with death, sex, healing, magic or psychic phenomena.

EIGHTH HOUSE

VIII

The Eighth House is commonly referred to as the House of Sex. This House delves into relationships -- interactions with another and how certain aspects of those interactions can take on a more communal nature.

Mercury in Aries

You are outspoken and direct in speech and actions. Your thoughts are original and filled with enthusiasm and great energy. You love a good argument or debate and like to compete and strategize with your mind. You say what you mean and don't pull any punches. You are opinionated and love to share those opinions, even if not asked to do so. You love controversy and might need to

develop a little more tact in how you express your own thoughts. Your mind is restless and filled with much nervous energy. It is hard for you to sit still. You always have to be busy, especially with your hands. Mechanical ability may be present. Your thoughts and words are quick and impulsive and you may at times suffer from foot-in-mouth disease. A lack of patience and concentration in carrying out your plans may be evident. Great wit and an entertaining personality help make you popular. You don't like to be told how to do things and want the freedom to do things your own way. There never seems to be enough time to do all the things you have on your mind. You may be quick-tempered, but hardly ever carry a grudge. You get over things quickly, then move on.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

Venus in Eighth house

You may be enjoying physical comforts and prosperity perhaps due to your partner's efforts. You may inherit money which allows you the luxury you seek. You may lack self-discipline and there may be a tendency to laziness as well as a preoccupation with sex. Trouble may come to you if you have a tendency to indulge your lower nature. You may be attracted to healing, psychic endeavors or metaphysical subjects. Perhaps you have an interest in magic.

EIGHTH HOUSE

VIII

The Eighth House is commonly referred to as the House of Sex. This House delves into relationships -- interactions with another and how certain aspects of those interactions can take on a more communal nature.

Venus in Aries

Venus desires relationships, sociality, and affection. Aries is forthright, demanding and wants to take the lead. Therefore, you may be very ardent and pursuing in relationships. Your feelings and passions are easily aroused and you usually try to take the lead in social matters and affairs of the heart. You go out and get what you think you want. Trouble is, once gotten, you may get

tired of having. The thrill of the chase is more important to you than the final catch. Thus your romances may start off in a blaze of excitement and glory only to end in boredom and monotony. There are always fresh fields to conquer and you go after them. It's almost a crusade for you. Venus worst qualities are trying too hard to please others and taking the line of least resistance. In relationships, then, you may choose partners who tend to dominate you and want you to do things their way at the expense of your own wishes. Venus in Aries calls for you to be assertive, yet not dominating, pleasing, yet not a dishrag. You are independent and have an impulsive approach to love. You like competitiveness and perhaps pick fights just for the action and excitement. You can be very inconsiderate of others because you sometimes do not think about your actions and they effects they have on those closest to you. Impatience and selfishness can be a problem for you.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Mars Profile

MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.

Mars in Ninth house

Your mind is enthusiastic, but restless. You are independent in thought. Your religious zeal must be watched so that it doesn't turn into fanaticism. You have strong opinions and are happy to tell anyone who will listen what they are. You have a strong desire to travel, not necessarily physically, but mentally. You have a liberal, broad, and progressive philosophy about life and do not want anyone else imposing their beliefs on you. There is a possibility of strife with in-laws. You will fight for your convictions. You may need to watch a tendency towards believing you are always right.

NINTH HOUSE

IX

The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.

Mars in Taurus

Once you set your mind on a goal, your dedication, determination, and commitment to it are extraordinary. You never give up and find it difficult to change your mind or course in mid-stream. Whatever you have set your sights on, you refuse to give up or let go of it. You are loyal to a fault, unless someone betrays your trust, then all heck can break loose. You are patient and usually slow to anger unless someone takes you too far. That is

when you charge, just like the bull Taurus stands for. You are reliable and consistent and can handle more of the workload than most around you. You prefer a regular routine, with definite hours and clearly defined responsibilities and tasks. You enjoy building and seeing the results of your hard work. Things you can put your hands on appeal to you. You need to see practical results, not theory and you are not satisfied with intangibles like just having a good time. At the same time, you have a lazy, comfort-loving side and there is often a good deal of inertia for you to overcome before you get going. Once you get a momentum going, your energy level is strong and steady. Keeping things going is your strength, especially once someone else starts them. Material well-being and security are large factors in determining what you do. Your stamina and persistence is your great strength but it can also work against you; you can get caught in a rut and refuse to seize new opportunities. You also tend to play it safe and to limit yourself in that way. Change scares you. So does disease and pain. At times you have a decided stubborn streak where no one can reach you. Possessiveness and jealousy may cause problems for you in relationships. Money and possessions are important to you for the feelings of security they bring. Re-evaluate your values. Sharing should be cultivated. Your tongue may be quite unruly at times.

TAURUS

The Earth element of Taurus brings strength and the desire for solid ground, form and structure.

Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.

Jupiter Profile

4 JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in Seventh house

Benefit, opportunities and wealth may come about as a result of marriage or partnerships in general. You seek a partner that can expand your visions, open up opportunities for expansion and help you grow. Your partner can strengthen your faith and deepen your religious or philosophical attitudes and ideas. You may

feel that you need a partner to help you develop your moral outlook and social conscience. Your partner, who may be a member of one of the professions, may be more affluent than you. If Jupiter is badly aspected in your natal chart, then your partner may be somewhat opinionated, lazy, self-indulgent, extravagant and self-willed, sometimes untrustworthy, immoral, shameless and wasteful. You are able to bring out the generous and good-natured impulses of others, but in order to get the best results from the marriage partnership you may need to control any extravagant tendencies and prevent false pride from unduly affecting the smooth course of your relationships.

SEVENTH HOUSE

VII

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

Jupiter in Pisces

Your needs for growth and expansion are perhaps best satisfied when you are working to help raise mankind to a higher spiritual level. You recognize that we are all in this together and what is bad for one is bad for all. You are sympathetic, charitable, genial, unassuming, quiet, visionary, intuitive, with a subtle sense of humor. You have an interest in spiritual or metaphysical ideas and issues, but you need to find your own path and experience Truth for yourself. Periodically retreating from society and the people closest to you is good for your nerves and your own mental health. The strong desire you have to help others comes out in your willingness to help the unfortunate. Perhaps you volunteer in hospitals, jails, or other places of confinement. You give hope to those who need it most. You probably love nature and large animals, especially horses. There may be an interest in healing. On the negative side you may be hypersensitive, over-emotional, too sentimental, have a tendency to exaggerate, or to be too extravagant or self-indulgent.

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in Ninth house

Your religious and philosophical beliefs are probably quite orthodox and traditional. You take these beliefs very seriously. Your concentration upon deep subjects is probably quite good. You may be intolerant and critical of others and their beliefs. You may question absolutes, God and religion in general. There may be difficulties connected with foreign travel or foreign cultures. Frustrations and delays can occur during long journeys. Take care not to deplete your energy to the point of exhaustion through over-concentration.

NINTH HOUSE

IX

Saturn in Aries

Combat and competitiveness spur you on to greater achievements. Self-reliance is high within you and you probably feel that you are more

capable than those around you, hence you may end up doing all the work, which may antagonize you if you feel that others are not holding up their end of things. Saturn's worst quality is selfishness and Aries worst quality is interference with the plans of others. Therefore, you are also capable of meddling and trying to run the affairs of others. You may run roughshod over them in trying to get them to do your will rather than their own. You can be a real slave-driver. You dislike restraint of any kind and do not take kindly to others telling you what to do. Remember this as you give the orders. Obstructions, frustrations, and limitations come into play in your pioneering, self-starting efforts. Freedom comes only through responsibility and discipline. Impatience can ruin all the good work you try to do. Caution may need to be developed in the carrying out of your plans. Stability and security are important to you and you work with those thoughts in mind. There can be early injuries to the voice or painful shyness that comes from an early problem with self-expression. This placement shows your deepest wound residing in communication. This could mean constant feelings of being misunderstood or not being listened to. There may have been some injury to your voice or you may have been too shy to speak. You'll tend to be sensitive to how others hear you, including your voice and the words you use to attempt to get across to them what you're thinking. You must accept your unique way of processing information and communicate with compassion in order to free your mind to bring its unique contribution to any conversation. Sometimes, with this placement feel that you will not be able to express what you truly feel, either because you don't know how to put it into words or you feel you won't be taken seriously. Realizing your divine being can help you gain confidence in yourself. Your thoughts and words may take time to be expressed so as to be correct. Do not let yourself be hampered by technicalities, and learn to admit to mistakes.

THIRD HOUSE

The Third House is commonly referred to as the House of Communication. In this House, much of the communication is going on between the individual and those he or she holds close: brothers and sisters, as well as neighbors.

Chiron in Scorpio

Scorpio is a water sign, ruling emotions. You may find your gifts of empathy and psychic ability are improved through your experiences. You may fear your own power and try to suppress it. Conversely, you may feel powerless and try to cover this up by acting strong. You may worry endlessly about losing your possessions or loved ones. You can learn a valuable lesson to appreciate life, and that by losing something or someone, you can still become richer by what you have. You may find that you grow in wisdom through the transformative experiences of life like birth and death. As Scorpio involves opening deeply to reveal our vulnerable sides, trust issues might be part of your experience. Your awareness of the deep psychological and emotional knots and bruises that you carry can trigger you into not feeling safe, perhaps even regretting opening to trust others. You know a lot about death, and from you others may learn about death. It's important for you to learn that each person is ultimately responsible for becoming the source of love for the self, but it's true that our deepest issues in need of healing and resolution can only be accessed once we open ourselves to another and get triggered. Awareness of other peoples' emotions must be learned; you may be selfish and fixated on your own emotions and feelings. Feeding your own inner need for power brings about the chirotic crisis. Psychological insight can heal. The experience of Chiron in Scorpio is one of erupting energy that must find a positive outlet.

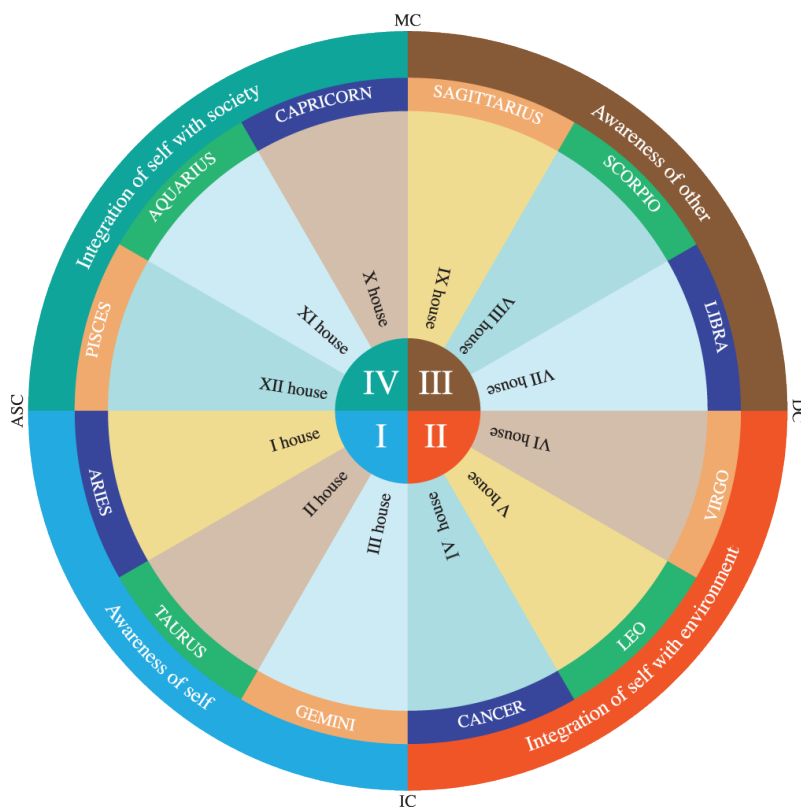

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of the all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

First House Cusp

House of Self

Others will tend to see you as discriminating or even fastidious. Your projection out to the world is one of good taste, and a keen mind. You enjoy lively conversation, and intellectual challenges that makes you popular with many people, especially in and around the work place. Your helpful and attentive nature is a welcome interlude for those that need comfort and encouragement, and you can count on the support of those that you have helped in the past. You may have a tendency to be too critical about what other people say or do, and this could lead to misunderstandings, or create reactions that have an adverse effect on your relationships. Because of your changeable nature, consider your decisions after careful consideration, rather than be too hasty and lose control of the situation.

Second House Cusp

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

You tend to handle your monetary concerns with great care and prudence, and there is little likelihood of not being fully aware of your financial status at any given time. Your inclination to be thrifty in financial dealings indicates that it is easy to keep a budget, and thus less chance of indiscriminate buying that might result in lost savings or inability to pay the bills. Attention to details will keep investments in line, although the tendency to overlap other various interests could result in less important affairs to 'slip through the cracks'. Along with your sense of discrimination is a tendency to be critical, and care should be taken to avoid disputes with family, friends, co-workers, and others sharing in financial relationships.

You would prefer to travel for pleasure rather than business, although trips in association with business partners could be beneficial. Your transportation preference usually tends toward air travel, although the comfort of rail might have a strong appeal. Companionship will determine in many cases whether you travel or not, as you prefer not to be alone. Relationships with family, relatives, and neighbors are expected to be friendly and helpful, although correspondence may fall behind at times.

Someone you care a great deal about could relocate, or leave under some form of confusion. The home may come through an inheritance, or the result of a legacy. If you grew up in an old, creaky, weathered house, it could have seemed just a little haunted. Or if you live in a modern airy apartment or home, it might seem rather austere at times, or remind you of a place from the dim past. After marriage the home could become highly charged with emotion. Jealousy and possessiveness could mar domestic harmony, and strain the relationship. Death of loved ones will be especially hard as you are usually very close to them. You may view your own death as an enigmatic mystery.

Fifth House Cusp

The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. Nerves are often affected by worry, which can then bring stomach problems; stay calm and cool in unexpected situations. It is best to work in an area that is of high interest, or where personal achievement is a dominant factor. You are not likely to stay in any job that becomes routine or dull; a congenial atmosphere is important to you.
