## Gemini Ascendant

---

People with Gemini rising tend to be friendly, communicative, flexible, indecisive, unsure, liking to do two or more things at once, witty, clever, very active mentally, high-strung, temperamental, nervous or anxious, talkative, superficial, and always ready for something different.

There may be two distinct sides to you as Gemini represents the Twins. You have a strong need to communicate what you already know and to learn more.

**“** You enjoy reading and traveling as they both give plenty of scope for picking up new knowledge. You need variety and can be the jack of all trades and the master of none.

You tend to go wide for breadth, not depth. You may appear confident, but you can lack self-confidence and inner sureness. You love to talk, both with your mouth as well as your hands.

Mercury rules Gemini so Mercury will be important in your chart.

# Sun Profile

*The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.*

## Sun in Second house

You need to feel a strong sense of personal or self-worth. A desire for power through personal possessions, talents and money may engage your energies. Money comes and goes easily. You are generous and ambitious, but can be extravagant and grasping. You must watch a tendency to be possessive of or lord over people and things. If the Sun is afflicted by aspect, perhaps you do not feel loved or feel worthy of love.

### SECOND HOUSE

*The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.*

## Sun in Cancer

Cancerians have a strange way of moving through life in a sideways manner, never approaching life head-on, but always from the side. They generally do not tackle anything straight away, but always from the flank. Emotionally, they are up one minute and down the next. These mood swings are sometimes difficult for others to understand and deal with. Cancerians are tenacious, sympathetic, industrious, sociable, thrifty and protective. They can also be argumentative, sensitive, emotional, martyr-like, intuitive, psychic, and patriotic. Cancerians respond to life through their emotions rather than through their minds. They tend to absorb the emotional vibrations of wherever they're at, so it is important to always be in positive environments. Because they live in their feelings, they unconsciously seek sympathy and attention and affection from others. They have a strong need to feel secure. Home and family bring the highest sense of security. Because of all this, they want to be first with those they love or they are very unhappy. Cancerians must learn to release their loved ones to live their own lives. Cancerians are well-known for changing — their minds, their moods, anything. Since they usually possess a slower moving life force, they are usually less active than others. In order to be active, they must first motivate their mind. In general, they dislike exercise. As a consequence, they may become out of shape and gain weight in later years.

### CANCER

*Cancer's element is Water. Symbolic of the emotions, water signs need to give and receive. They thrive on the exchange of feelings. They need security and love to be wrapped in an environment of love and comfort.*

## Moon Profile

*The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.*

### Moon in Twelfth house

This position can indicate work behind the scenes in an institution, hospital or jail. There may be dealings with public welfare or those unfortunates of life. Conscious or subconscious sensitivity can be damaging if not held in check. You feel some sort of cross to bear which others may not be aware of and many troubles may occur.

Secret enemies may try to take advantage of you. Through suffering comes obedience. Your mother may be of great distress to you. Serving others is the safest, shortest road to God. Teach to others what you have learned through your own suffering. Concerning vocation: You prefer little or no contact at all with the public in your job. Symbolically, this position is the author hidden away in the attic, the playwright who will not attend a performance of his work, the behind-the-scenes person. The personality is hidden and may be limited and confined. In work, these conditions are preferred in order to provide maximum security and comfort to the personality.

#### TWELFTH HOUSE

#### XII

*The Twelfth House is commonly referred to as the House of the Unconscious. The unconscious state can help engender our successes, as well as assist us in coping with our failures.*

## Moon in Taurus

Your emotional nature is steadied and others find this quality soothing in you. You are generally even-tempered and peace-loving and are not easily ruffled or given to emotional displays. You can be downright stubborn at times, especially when it comes to making changes that are emotional in nature or that require emotional adjustment. You seek security and often expect this security to come from materials possessions and resources. Hence, you desire to collect material goods and money. You cling to things from the past or things you are used to in order to find this security. A great deal of affection and closeness is needed by you and this helps to assuage feelings of insecurity. But sometimes you hold onto people much too closely so they feel they can't breathe. You expect loyalty in love and you are very devoted to those you care about. You have the tendency to indulge in sensual comforts and activities. Eating rich or sweet food seems to give you security. You may have a weight problem because of this. Food can become a substitute for emotional satisfaction and love. You are resourceful, determined, and persistent. You perhaps have a green thumb and are good at getting anything to grow and prosper. You are happiest when working with your hands, probably with the earth or things of the earth. You can be lead but never pushed into doing things. You hate and fear sickness and pain. Too great a comfort with the status quo can prevent you from making necessary changes. Don't be too rigid in thought or deed.

### TAURUS

*The Earth element of Taurus brings strength and the desire for solid ground, form and structure.*

*Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.*

# Mercury Profile

*MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.*

## Mercury in First house

You are adaptable, clever, inquisitive, eloquent, witty, and perhaps high-strung. You want to know something about a lot of things. Your speeches and writings reflect your own personal opinions. You may have jittery nerves which keep your body slim, but which could cause nervous disorders. You love talking about what interests you.

### FIRST HOUSE

*The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.*

## Mercury in Gemini

You have an extremely adaptable, energetic, active, alert, curious, and versatile mind. You seek knowledge, either through reading or conversation, or through travel and talking with the new people you constantly meet. You have so much nervous energy that this can sometimes cause great stress which must find an appropriate release. Exercise is a good way to release this tension. You are clever, witty, and always have a joke or comeback ready for any situation. You love being involved in multiple things at once and this may be a problem ? too may irons in the fire at the same time. You are quick to grasp new concepts and equally quick to lose interest in an idea or project once your curiosity has been satisfied. You like to taste a little bit of everything ? concentration and disciplined study are not your strong points. You are handy with your hands and may be ambidextrous or mechanically inclined. Debate and argument appeal to you. There is a tendency to scratch the surface with the things that strike your interest without learning anything very deeply. This is the jack-of-all-trades, master-of-none position. There is danger, then, of superficiality. Control of thought, word, and action is necessary in order to be successful. Find your focus, stay with it and develop perseverance. Journalism, speaking, teaching, sales, advertising, or writing may appeal to you. Mentally restless, you may change jobs or locations frequently, or do work that involves movement, travel, and variety. You grasp concepts easily and may become impatient with those who don't learn as quickly.

### GEMINI

*The Air element of Gemini brings communication, intellect and speed! This is one of the joy-of- life signs, one that reaches out, expands and expresses. Ruler of Mercury. Gemini is an inquisitive student with a quick grasp of subjects.*

# Venus Profile

*VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.*

## Venus in Fourth house

You desire beautiful things and a nice, rather luxurious home. You have an artistic nature with a talent for making people welcome in your home. Entertaining at home gives you real pleasure. There is a love of family and children. The latter part of life may be pleasant and comfortable, although you may find a tendency to add weight in later life.

### FOURTH HOUSE

### IV

*The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.*

## Venus in Leo

In affairs of the heart you are warm-hearted, spontaneous, ardent, affectionate, loyal and generous. You hate pettiness and stinginess in your partner. You seek the Hero, the Prince or Princess, someone you can idolize and adore, someone you have great pride in or someone who can sweep you off your feet. You crave love, appreciation, and attention from others and like to

be at the center of things. You are rather susceptible to flattery and love to feel SPECIAL. You want and enjoy drama in your love life and some grand romantic gesture or extravagant expression of generosity impresses you. You dramatize your emotions. You are honest, frank, attractive, kind, compassionate, and fun-loving with a charming personality. You find it easy to be in love with love. You may expect too much of people and thus become easily hurt. You must watch a tendency to be preoccupied with your physical appearance when you should be developing your inner potential. Vanity and becoming a show-off is possible. You need to be admired for your inner and outer beauty.

### LEO

*Leo is Fire to the core of the Sun! Fire brings a desire to create, innovate, and lead. The sign radiates mega-confidence. The fixed motivation adds self-reliance, a characteristic that works well in leadership positions.*

## Mars Profile

*MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.*

### Mars in Twelfth house

You may have intense emotional reactions and perhaps repressed desires and paranoia. People may sense this and cause problems for you. There can be trouble through slander or with secret enemies. You may have need to overcome deep, hidden, inner resentments. You may be subject to false accusations by hidden enemies.

You feel an aloneness. Your energy should be directed toward gaining an understanding of the meaning of life and for the development of harmony and oneness with humanity. A love of working in secret or behind the scenes can make you effective in getting the job done.

#### TWELFTH HOUSE

#### XII

*The Twelfth House is commonly referred to as the House of the Unconscious. The unconscious state can help engender our successes, as well as assist us in coping with our failures.*

## Mars in Gemini

Mentally and physically you are the busy, little bee. You are constantly in motion with many and various activities, usually several at a time. You are happiest when busy and you hate boredom. Your mind is alert, active, and constantly seeking to learn more. You absorb knowledge like a sponge and you will debate and argue with anyone who wants a mental sparring match. A great deal of nervous tension or anxiety can exist with this

position and it is important that you get regular exercise to relieve the stress. You talk with your hands and may be ambidextrous or have mechanical ability. There is a need to think before acting and to have patience so that you keep yourself out of trouble. Sometimes you just do things for the sake of doing something and this is not always a good idea. Look before you leap. Travel appeals to you because you never know what you might learn or who you might meet. Burns or accidents can occur to the shoulders or arms, probably due to haste. You can accomplish a lot in short bursts, but projects that require long-term commitment, stamina, and steady, persistent effort are not easy for you. You often scatter your energies into so many directions and activities at once that you cannot finish or follow through on some of them. You need variety, change, and mental challenges. Your mind is sharp and you enjoy mental challenges, games, or competitions. Matching wits with someone else really brings out the competitor in you. Your drive and energy is more mental than physical. You use your wit, intelligence, communication skills, social sophistication, and awareness to achieve your goals. Sarcasm and humor come easy to you. You need to learn how to conserve energy so you don't burn out and concentration so you will complete projects and carry through on promises.

### GEMINI

*The Air element of Gemini brings communication, intellect and speed! This is one of the joy-of- life signs, one that reaches out, expands and expresses. Ruler of Mercury. Gemini is an inquisitive student with a quick grasp of subjects.*

# Jupiter Profile

**4** JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

## Jupiter in Sixth house

This placement tends to give good health. Any health problems are usually caused by extravagance and over-indulgence, too much of a good thing. You are helpful to others and are a dependable worker with a sense of loyalty. You inspire cooperation and good will among your fellow workers. You enjoy your work and give of your time willingly. Watch that you do not overwork or overindulge in eating or drinking. There could be difficulties in the liver and blood or poor circulation due to over-indulgence.

### SIXTH HOUSE

### VI

*The Sixth House is commonly referred to as the House of Health. Implicit in maintaining good health is the ability to cope in the face of adversity, and this theme rings truest in the Sixth House.*

## Jupiter in Scorpio

You tend to be efficient and hard-working, with a flair for business and finance. You are resourceful and willing to do all the work necessary in the fulfillment of a task. You are secretive, but there is, also, great inner strength and courage. You have a magnetism that draws people to you. You have an ardent, aggressive, self-reliant nature and an enthusiastic, constructive mind. On the negative side, there may be trouble and loss through the indulgence of the lower nature and love of rich and expensive food and sickness on that account. Any tendencies for wild speculation and risk-taking should be controlled. There is interest in the occult. Strong healing abilities may be present. These energies are meant to be used to gain a higher consciousness and greater universal wisdom.

### SCORPIO

*Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.*

## Saturn Profile

**♄** SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

### Saturn in Tenth house

You are self-reliant and independent with good business and organizing ability. Success for you comes slowly, through perseverance and hard work. You must accept your responsibilities, otherwise life will be a series of setbacks and failures. Chasing power and using others to get what you want will cause your downfall. You need to control your ambitions. Be careful of bridges you burn ? you may need to cross back over them. There may be difficulties with either parent because of their discipline, strictness or a need to control your life.

#### TENTH HOUSE

**X**

*The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.*

## Saturn in Pisces

It may be difficult for you to set boundaries for yourself and others, or to be as disciplined and organized as you want or need to be. Things have a way of getting lost in the shuffle of everyday life and it may be hard for you to keep your touch on the pulse of things around you. Sometimes you just get lost in the fog and can't see your way clearly. You are intuitive, sympathetic, sensitive, imaginative and self-sacrificing. You are a practical idealist and have a tendency to take life perhaps too seriously. You may have the sense that your present life's troubles are due to actions from the past. And this is probably the truth. You must reap what you have sown in previous lives and Saturn comes to exact his payment. Perhaps this is why you tend to feel more sorrow, perhaps, than the usual person. There can be success in working behind the scenes, away from the public eye, perhaps doing research or working in institutions. On the negative side you can be indecisive and moody, with a tendency to react emotionally to negative conditions or people. Depression can set in if success escapes you or if you feel that you have been unfairly treated. You need to develop faith in the future and let go of the past. Disidentifying from other people's troubles will allow you to help them in their own sorrows. Teaching what you have learned in your experiences is a fine road to soul growth.

### PISCES

*Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.*

Sudden and unexpected long journeys are possible. Mental journeys in the form of dreams, visions, intuition and prophecies are possible. Your mind ever seeks to expand, gain knowledge and journey where it has never gone before. Too much mental activity, though, can cause nervousness and perhaps lead to a mental breakdown.

### NINTH HOUSE

### IX

*The Ninth House is commonly referred to as the House of Philosophy. In keeping with that theme, it's our search for meaning which is the focal point here.*

If you are taken up by your imagination, it is likely that you manage to put even crazy ideas to a practical and profitable use, making money out of them in the process.

There may be difficulties through infectious, deep-seated diseases or problems in the colon area.

#### SIXTH HOUSE

#### VI

There may be obsession in areas concerning genetic engineering, creating (and destroying) life, and cloning. You may be interested in occult studies. In various kinds of research (not only science), discoveries made during this period may not be made public (secret)

# Chiron Profile

---

## Chiron in Fourth house

This placement means that you have a unique path when it comes to learning to admit, acknowledge, and honor your feelings and needs. This also shows your deepest wound residing in your family life. This is a hard placement to dig into because the 4th house shows the deepest part of your soul. Forgiving the past is needed.

Forgiving yourself and those who made you feel the way you felt is needed. You feel like a fish out of water. You often express feelings of "otherness". There can be indications of childhood abuse, abandonment by the father, and early childhood trauma, if other aspects support this, or there are hard aspects related to family. A lack of self-confidence may make you think doing anything with your life is a waste of time. You may have difficulty in starting your own family or refuse to start one because as your early life was insecure. You have a great deal of empathy towards others. You may have found in life that no one else can validate your needs – even your right to have needs – and this might have inspired you to veer into loneliness or hopelessness. When you accept that you need to treat yourself in certain self-caring ways in order to move through difficult emotions and loneliness, you can heal truly.

### FOURTH HOUSE

### IV

*The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.*

## Chiron in Virgo

Virgo is an earth sign, ruling physicality. Wounds will be physical in nature. Virgo is the sign of improving, fixing, healing, helping, and serving. You have the ability to put a tremendous amount of pressure on yourself to be right all the time, and you're hypersensitive to when it's obvious or pointed out to you that you or something you're doing isn't perfect. You serve yourself well through unconditional acceptance of what you don't yet do well. Medicine and physical labour may work through and heal. The ability to work may be impaired either by the self or the partner. You are destined to teach perfection of form here on Earth in order to achieve higher consciousness. You may be a person who is excessively critical, obsessed with insignificant details, and cleanliness. Hypochondria is also a possibility but might be a person who neglects your own health while giving excellent advise about it to everyone else. You must learn to deal with imperfection. This can be very difficult for you. You may feel there are things wrong that can never be healed. This combination can end up being overly critical or obsessed with tiny details. Watch any tendency to berate yourself or beat yourself up, and accept that you're a work in progress who is learning as you go. You're wired to believe that you're not lovable if you're not perfect. In reality, there's no such thing as perfection. You are the only one on the planet who can choose to love you even if your skills and abilities are not perfect. You have always been an encouraging influence for yourself, no matter what kind of criticism you've received in the past for not being perfect, on time, or fully prepared as if superhuman.

### VIRGO

*Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.*

# House Profiles

*The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).*

The 12 Houses of astrology are symbolic of the all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

# First House Cusp

## House of Self

*The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.*

For you, the world is a place to travel, see, and experience in all its variety. Your manner of personal expression through thought, writing, and oratory could bring recognition in any of those fields. Others are apt to perceive you in a physical sense as alert, aware, quick on your feet, and on the move most of the time. You have an intellectual appeal to many people that would have them seeking you out for information or advice. Because of your quick wit, and active schedule, you have a tendency to take on projects before completing those already started. You may be fortunate in a business involving short journeys, or establishing several business locations not located too far apart, yet connected by highway, and accessible to the public at large.

# Second House Cusp

You can be very imaginative in ways that will attract money to you, and in maintaining a tenacious grip in preventing it from flowing away for unimportant reasons. Although you tend to be conservative about finances, your sensitive nature may allow for contributions to charity, or for the welfare of others. You may also be prone to spend for things that make you comfortable, or bring pleasure, or enhance your safety or security. Investments in agriculture, property, insurance, and commodities based on liquids such as water-rights or drilling, and soft drinks would be beneficial to your financial base.

There is an indication that you could be drawn to study in areas that your imagination might be put to good use. Writing plays or novels in which you could spin tales would undoubtedly be pleasing to you. Along more mundane lines, you would be inclined to learn or study in those areas that are the most interesting to you, and even this is subject to a degree of changeability. You tend to enjoy traveling whether for business or pleasure, and short or medium trips are most likely, although you would grab any opportunity to visit faraway places. See that you make arrangements for your comfort, as you are not usually interested in "roughing it," unless for special occasions. Home and neighborhood have an important place in your life, and harmony and peace with family and friends is always considered. You should handle your own correspondence as it tends to be personal and private.

You often take the lead in planning future family activities, and enjoy developing home improvement projects. Once a new project is started you are determined to see it finished. You have a natural store of energy and family members may have trouble keeping up with your zest for work and fun. The indication is for a long and active life right to the end.

# Fifth House Cusp

## House of Pleasure

*The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. The simple act of creating is, essentially, giving of oneself and making something -- making another? There is an inclination to be somewhat analytical about how you approach others, and to apply your own values as to how a relationship should develop. While you have a wide range of friends, you're not inclined to follow the party crowd. You can have a good time without letting go, and proper conduct is expected from everyone. Courtship is something you probably have a preconceived idea about, and you desire an orderly, sequence of events to unravel in their due time. There may be few children from marriage, but many factors will determine the exact number. Although you may not be artistically inclined, you possess a shrewd eye for form and design. Your opinion is of great value to those who appreciate your fine tastes. You are more inclined to invest rather than speculate, and investments in food, catering, or in the health fields would benefit most.

Your sunny and happy disposition rarely finds you suffering any major health problems. When you do come 'under the weather' your recuperative powers are strong, and you're back on your feet in no time. You do tend to become emotional at times, and this can have an affect on the physical body. Sleep is a good tonic for this type of malady, and napping can improve your spirits dramatically. Try to avoid any kind of discord, whether around you or even at a distance, as this will have an effect on your emotions, and this is not good for you. Your on-the-job attitude is generally upbeat and happy, and you have many friends that like your easy going manner. You would do well in a partnership whether in business or any other enterprise. You have a unique ability to share and take responsibility at the same time. Your partner will appreciate your efforts and abilities.

Marriage is possible to someone with a love for the outdoors, or an interest in sporting activities. There is a good likelihood of meeting the right person through travel, or in foreign lands. Relationships that are not nurtured or continually worked on have a possibility of drifting and eventually falling apart. General partnerships could bring a degree of success, and productive contacts maintained throughout the land as well as overseas. A marriage partner that is also a business partner is not usually considered favorable.

Land or real estate, and stocks and bonds are assets likely passed on to you as a rightful heir. Under certain circumstances the possibility exists that a debt might be inherited rather than someone's assets. Attempts to ascertain the exact manner of death is usually not too fruitful an undertaking, although certain characteristics do prevail. Bone disease or problems with the joints, particularly the knees, may be significant. Lethargy or lack of vitality might sap the strength needed to maintain resistance against viral attacks or disease, notably in old age. The emphasis on long distance travel is in carrying out the affairs of a business, or in meeting the obligations imposed by a business or in other related matters. The same can be said for affairs conducted in foreign lands, or with foreign governments, especially where publicity or prestige are involved. Long journeys taken for personal reasons, such as a vacation, are apt to be met with some delay, or scheduling problems. It is important that arrangements be made to secure personal comfort prior to departure. All forms of travel can be utilized; air, sea, rail, and road, although the most satisfying will be by that which carries one over the land. Religious matters may not take on great importance, and in some cases skepticism may predominate. Where religion is a major factor, then it is apt to be with the orthodox belief systems.

Although you are likely to establish life long companions, there may be many that will come into your life, and then go out of it; some will make a lasting impression that could be missed over the years. Because of your sympathetic nature, it would be wise to use discrimination in choosing whom to make your friends, since they may ask you to make sacrifices on their part, and in your effort to be helpful, you might be taken advantage of. Your hopes and wishes tend to be modest in scope, and you can be satisfied with your attainments in life.

Where the possibility of resentment is possible in life, it could come about through competition. Whether in sports, business, or social affairs, someone on the losing end is not apt to take too kindly to your attitude; thus it would be best to avoid showiness, or pretentiousness. Where restrictions might come into effect the indication is incarceration, such as a prisoner of war, internment over political activities, or civil disobedience. Enmity, should it arise, might occur because of new ideas challenging the old order, and your participation in overthrowing that order, which could be by aggressive means. Avoid incurring anyone's hostility over anything you might do, or have done, in that injury or harm might be the result.

## Aspects Profile

---

### Sun Trine with Jupiter - ☉ Δ ♃

Harmony

Orb - 7.71

A trine formed between the Sun and Jupiter shows a generous degree of creative talent. You have a considerable amount of self-confidence, and you like yourself without being conceited or boastful. You are intelligent, articulate and very well informed on many subjects. Your personal pride and integrity show up plainly in the way you conduct yourself. You are a lucky person, because things just seem to fall in place for you. You like to cut a comfortable course that allows you to maintain your freedom and control of situations. You indulge yourself, and you are also very generous to others. You relate well to people because you give everyone because you can be magnanimous and give others the benefit of the doubt.

### Sun Trine with Saturn - ☉ Δ ♄

Harmony

Orb - 0.19

A trine formed between the Sun and Saturn makes it easy for you to accept and handle responsibility. Difficult times in your life result in minimal struggle. You inherently know how to react to problems and take advantage of counteracting opportunities. You may have ambitions, but these are not very strong. Most of the time you attain success by doing what is right, when the time is right. Somehow you bring a sense of stability to every situation. Life is not always a basket of roses, and sometimes you get depressed and deflated. Yet you can always get reorganized and back on the right track.

### Sun Opposition with Neptune - ☉ ♂ ♆

Tension

Orb - 9.75

The opposition of the Sun and Neptune suggests that you will periodically be challenged by problems difficult to understand and diagnose. This aspect presents much confusion in your life. Sometimes you may create imaginary problems where none exist, and feel singled out to face unfair obstacles and penalties. Early in your life you may have felt that you were being singled out for discipline, and responded with a defensive attitude toward your teachers or parents. In maturity you must learn to accept responsibility and meet challenges not always so clearly defined.

### Moon Conjunction with Mars - ☾ ♂ ♂

Dynamic

Orb - 5.62

The conjunction of the Moon and Mars shows much emotional anxiety and impatience. It is an aspect that seems to energize emotions and those emotions may often come out with Martian or aggressive qualities. Your feelings are usually very active, and always in a state of turmoil. In short, your emotions are intense. This conjunction can show passions that are very ardent and demanding, and actions can sometimes be blind to caution and common sense. There are tendencies that may lead you to accomplish much if you can only guide these energies with some wisdom. Often, however, a more destructive vindictive facet to the personality results from this aspect.

### Moon Square with Venus - ☾ ☐ ♀

Challenging

Orb - 2.41

The square formed between the Moon and Venus shows you are apprehensive about forming close emotional ties because of the responsibility they bring. Something in your upbringing or experiences makes it hard for you to admit your feelings. This aspect doesn't make you reject companionship, but instead you form connections that are not desirable or for some reason not workable. It may be preferable for you to be independent for some time until you have learned to understand people and have an accurate sense of their motives. A high degree of emotionalism and

sentimentality must be understood and overcome before entering into a binding commitment.

### Moon Trine with Uranus - ☾ △ ♅

Harmony

Orb - 0.07

The trine formed between the Moon and Uranus suggests that your early environment and experiences gave you an inquiring mind. You're mentally alert and able to absorb knowledge easily. You relate well to people because you listen well and appreciate the opinions of others. You hold your own in an argument because you are always well armed with the facts. You're not exactly a rebel to authority, but you never hesitate to challenge anyone who assumes power irresponsibly. Your thinking integrates experiences of the past with a clear vision of the possibilities in the future. You've learned from your past, yet you're anything but old-fashioned. Your colorful expression is original and spontaneously imaginative.

### Moon Trine with Neptune - ☾ △ ♆

Harmony

Orb - 2.7

The trine formed between the Moon and Neptune denotes close ties with the family. This bond may not be consciously apparent to you. There is a link from the past producing an unconscious prompting that plays an important part in your decision making. You have a keen psychic sensitivity, and you express your creativity in prophetic or intuitive ways; you are in tune spiritually. This aspect often gives a love of the arts, especially music. You may dramatize life, and exaggerate and distort events. Apathy may be one of your larger liabilities.

### Moon Opposition with Pluto - ☾ ♂ ♇

Tension

Orb - 0.62

The opposition between the Moon and Pluto suggests a very demonstrative show

of affections and a strong sensitivity to any signs of rejection. Occasionally, this aspect denotes the loner. You try to control your family and friends, often displaying emotional vehemence in your relationships. This aspect may show an alternating from aggressiveness to austerity in love and romance. This aspect brings jealousy, impulsiveness and sensuality. Perhaps because of your relationship with your parents, you may feel rejected occasionally, and you may seek drastic solutions to your problems. You must learn to handle your attitude of intolerance in relationships.

### Mars Trine with Uranus -

Harmony

Orb - 5.69

The trine formed between Mars and Uranus shows originality and enthusiasm in your actions. You are very energetic and freedom loving. You are an impatient person who always has several irons in the fire. Your impulsive and restless nature needs to concentrate more on moderation. In fact, you may demand freedom to exploit your potentials, and you actually feel sorry for those that are trapped in limiting circumstances. This is not a good aspect for someone with a boring 9-5 job. You do need to focus on learning moderation, and especially in romantic affairs, you need to be less restless and impulsive. The limiting ties of marriage and convention may not be your cup of tea.

### Mars Opposition with Pluto -

Tension

Orb - 5

The opposition between Mars and Pluto shows a defiant attitude. Sometimes there is a lack of control over aggressive tendencies. You can alienate some people as you assert your rights, or what you believe to be your rights. You must evaluate the positive and negative aspects of any idea or plan. Always consider the values of compromise before taking any action. Both Mars and Pluto are associated with sexual drive since these two planets are the co-rulers of Scorpio. With this aspect in

opposition your sexual drive will be strongly affected and in some conflict. You may be led to form extremely strong alliances, but it may as easily cause severe rifts in relationships. The drive may be to gain power over others. It is certain that you will encounter problems in your personal affairs.

### Mercury Trine with Jupiter - ♃ △ ♃

Harmony

Orb - 5.18

The trine formed between Mercury and Jupiter shows you are likely to get a good education. If you get a well trained mind, life should be easy. You have much confidence and pride in your mental abilities. You like to spend time philosophizing and thinking in broad general terms. Your mind may contain stores of knowledge because you learn rapidly, and you retain what has been learned. You may elaborate on and enlarge the truth to a degree, but you are a person of high integrity and high standards of behavior. You have an optimistic and fresh outlook on life, and an explicit belief in your capacity to succeed. Avoid being indulgent and pompous about your knowledge. Knowing what you know it should be unthinkable that you would not do much in life.

### Jupiter Trine with Saturn - ♃ △ ♄

Harmony

Orb - 7.52

The trine between Jupiter and Saturn shows serious purpose to your life which may have been influenced by a family tradition. Although you are somewhat materialistic and desire the finer things in life, you lack the motivation and drive to attain them. There is a tendency to seek and find easy ways of doing everything. Whatever success you are to achieve is apt to come in the latter part of your life. You have a bad habit of comparing yourself unfavorable to others rather than realizing your own self-worth.

### Venus Square with Pluto - ♀ □ ♇

Challenging

Orb - 3.03

A square forms between Venus and Pluto suggesting that your emotional life is subject to many problems. Many of these relate to sex. This aspect causes intense emotional and sexual involvements, and sometimes this can be with very debasing influences. In extreme cases, this aspect shows involvement with prostitution or other sex related crimes or rituals. Sexual passions are hard to control and properly direct, and romantic ties are in some way fated. It may be any benefit you receive is always accompanied with some negative side effect. What you want and seek is often not what you need, and obtaining the objective or object creates ill effects. Life is full of upheavals and upsets in domestic and professional affairs. There is a need to be more honest and less patronizing with people. Don't make promises unless you intend to keep them. This aspect must be controlled by the free will. Trines
