Gemini Ascendant

People with Gemini rising tend to be friendly, communicative, flexible, indecisive, unsure, liking to do two or more things at once, witty, clever, very active mentally, high-strung, temperamental, nervous or anxious, talkative, superficial, and always ready for something different.

There may be two distinct sides to you as Gemini represents the Twins. You have a strong need to communicate what you already know and to learn more.

“ You enjoy reading and traveling as they both give plenty of scope for picking up new knowledge. You need variety and can be the jack of all trades and the master of none.

You tend to go wide for breadth, not depth. You may appear confident, but you can lack self-confidence and inner sureness. You love to talk, both with your mouth as well as your hands.

Mercury rules Gemini so Mercury will be important in your chart.

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Fifth house

You have a desire to reveal your creativity, either constructively or destructively. You are interested in all forms of creative self-expression, such as sports, books, acting, the dramatic, games and romance. You have the ability to enjoy life and to give enjoyment to others. Happiness comes from your artistic or creative endeavors. You need to watch a tendency to be dictatorial or to take unnecessary risks.

FIFTH HOUSE

V

The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. The simple act of creating is, essentially, giving of oneself and making something -- making another? Yes, the Fifth House does speak to procreation and children, but it also addresses the creation of art and culture.

Sun in Libra

Librans like to weigh the pros and cons of a situation before they come to any conclusion. If carried too far, they get to the point where they can't come up with any conclusion, thus they can be very indecisive. They tip the scales one way, then the other, hoping to find the proper balance. Librans have an innate sense of fairness, though, and can be diplomatic, cooperative, helpful, idealistic, sociable, dependent, insincere, lazy and self-indulgent. Librans are happiest when in partnership or in situations where they can adjust or work with human relationships. Pleasant surroundings are important to them. Because Librans enjoy people and human interaction so much, they have a difficult time being alone. Because of this, they need to share their life with someone. Unfortunately, they have a tendency to be 'in love with love', because of their romantic and sentimental natures. Thus, they could rush into marriage without forethought and end up in a difficult relationship. Librans find it virtually impossible to remain emotionally stable if there is discord around them. This leads to their wanting peace at any price, which allows others to take advantage of them. They want to be liked by everyone, sometimes to their detriment.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus- inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Moon Profile

It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Eleventh house

Popularity with women often comes with this position. Many of your friends will be female. The feeling of belonging to a group increases your feelings of security. If you feel you do not belong, then negative emotions surface that all basically have to do with your own needs for security. Humanitarian projects may be important to you as you can develop your nurturing instincts with or for the group. You enjoy working for the good of the group instead of just your own good. You are responsive to the feelings of others. Concerning vocation: The network of friendships within the work situation is emphasized. Friends may help get the job, make the job rewarding and will probably endure after the job is done. A friend's advice about work opportunity or direction is perhaps more important than that of a professional counselor.

ELEVENTH HOUSE

XI

The Eleventh House is commonly referred to as the House of Friends. Through our friends, we find strength in numbers -- we see the power of the collective, the group.

very direct in thought, action, and speech and everyone knows how you feel. You pull no punches. You can be a very bossy individual if you do not try to control your moods. A desire to be in the limelight or in charge of things is present. You hate showing any personal weakness or that you need any support, comfort, or nurturing from others. Your enthusiasm for starting new projects is contagious and you are probably a better starter than a finisher. You are adventurous, courageous, and independent. You don't like complainers and are always ready to meet any challenge. A fair amount of physical activity is good for you so you can work off those moods you get into once in a while. You have a creative, flamboyant personality that likes to trail-blaze in unusual ventures. Perhaps your accomplishments cover inferiority feelings that lie beneath the surface.

Mercury in Fifth house

You have a need to prove your intelligence and to use that intelligence in creating things of a mental nature ? mental children, as it were. On the negative side, you can be stubborn, quarrelsome, skeptical, cynical, headstrong, and always holding the opposite views to others. There is interest in the occult.

may lack confidence in your own attractiveness and ability to draw love to yourself. This could create doubt of your own worthiness to receive love and appreciation. There is a strong tendency to be very critical of the partner and too expect perfection. Marriage may be delayed due to the desire to find that perfect partner, which does not exist. In fact, you see life as a competitive sport, game or performance. You love admiration and applause, and you have a strong sense of personal honor and integrity. You tend to be very self-confident, even arrogant. But you may become self-conscious, defensive, and rather belligerent if your self-confidence is shaken. You tend to be enthusiastic, rather impulsive, full of energy, and ambitious. You are very ardent in matters of love and will pursue your love interest with great fervor and passion, letting nothing get in the way of your desires. You don't beat around the bush, but say exactly what you feel, often in an embarrassing direct way. On the negative side, there may be a love of taking risks or of gambling. tends to be a bit extravagant or self-indulgent and it is up to you to control your desire nature. You may be stubborn in your philosophical or religious beliefs, needing proof of anything before believing. There is a fear of sickness and pain. Chiron Profile

Chiron in Tenth house

You desire to be recognized and admired. You want to be seen as accomplished and respected. You may be prone to giving too much power to others' opinion of your work and need to achieve something and find respect in the world, coming to believe that if someone doesn't get what you're doing or why you must be doing something wrong. You want to succeed because you fear rejection. You are scared to try and succeed because you fear ridicule. Don't do things to appease other people, do them to make yourself happy, whether that is being super successful or sitting in the middle of a daisy field writing music. The truth is that you're hypersensitive to feeling rejected if someone doesn't give you a chance to prove what you can do, and this can lead to quite a serious self-esteem problem when it comes to you giving yourself a chance to do something and do it well. You may be workaholic to the point of obsessive dysfunction because you feel so strongly motivated to justify your self-worth. Your need for status may become obsessive, and your good leadership quality needs to be controlled. Try to accept yourself as you are. Chiron in Pisces

Your energy antenna picks up on most everything in the world around you. You're more sensitive than most to the currents of unprocessed emotional stuff others are carrying, and you might unwittingly absorb them more than you feel is healthy. You also need time to unwind and unplug from the world, perhaps more than most people around you, in order to clear yourself out. Facing your own buried and painful subconscious and repressed memories and pain can heal. You may fall into the perpetual victim role, continually coddling old wounds or spending entirely too much time feeling sorry for yourself. Creative and meditative pursuits can work well here, and also unwinding in nature and with animals. Only through the experience of deep spirituality can the gift of healing emerge. Awareness of God is indicated here with this placement. You may feel that you have lost faith with the universe. You also may feel guilty even though there is no reason to feel that way. You must learn that sometimes things happen for a reason. By examining your problems, you may find deeper insight and connection. Facing your own buried and painful subconscious and repressed memories and pain can heal. Your inner self calls for a heart opening into choosing unconditional compassion, but you're picking up on – and likely absorbing – so much that it can seem an impossibility to respond to all of it with an open heart. Your task is to learn to accept the reality of pain, sorrow, and other kinds of suffering as part of the human experience, judging none of it while not absorbing it, and seeing it for what it is.

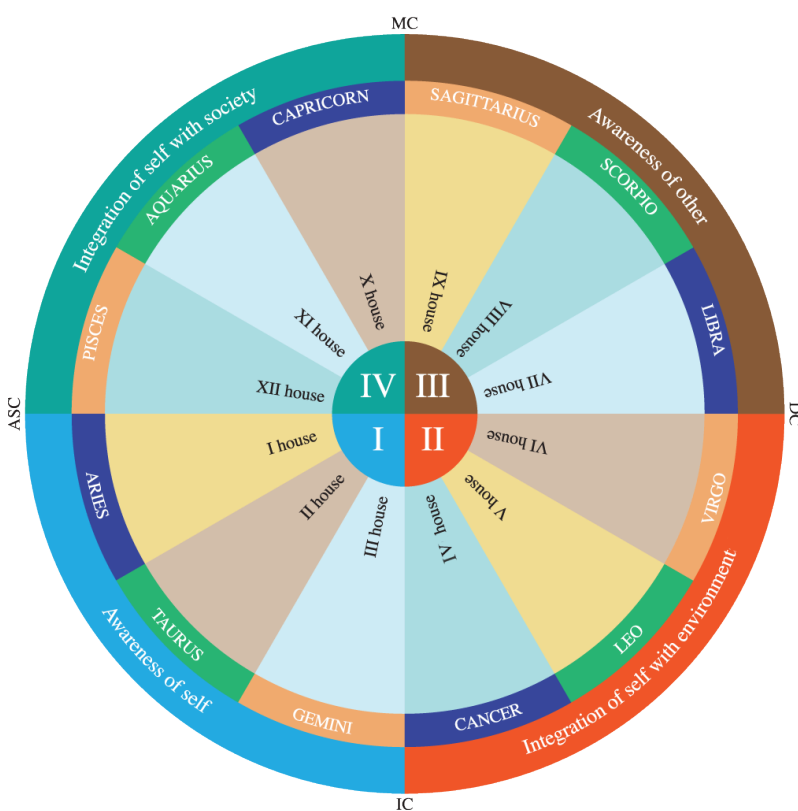

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of the all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

For you, the world is a place to travel, see, and experience in all its variety. Your manner of personal expression through thought, writing, and oratory could bring recognition in any of those fields. Others are apt to perceive you in a physical sense as alert, aware, quick on your feet, and on the move most of the time. You have an intellectual appeal to many people that would have them seeking you out for information or advice. Because of your quick wit, and active schedule, you have a tendency to take on projects before completing those already started. You may be fortunate in a business involving short journeys, or establishing several business locations not located too far apart, yet connected by highway, and accessible to the public at large.

You can be very imaginative in ways that will attract money to you, and in maintaining a tenacious grip in preventing it from flowing away for unimportant reasons. Although you tend to be conservative about finances, your sensitive nature may allow for contributions to charity, or for the welfare of others. You may also be prone to spend for things that make you comfortable, or bring pleasure, or enhance your safety or security. Investments in agriculture, property, insurance, and commodities based on liquids such as water-rights or drilling, and soft drinks would be beneficial to your financial base.

You could be drawn to the theater as a writer, producer or actor in playing out the drama that takes place on the stage. You would find satisfaction in teaching young people, or children, since you tend to have an affinity for them. Travel holds an interest for you, although circumstances are more likely to decide when and where you go. Road travel to picturesque and scenic places has greater appeal than to low flat places. You can expect amiable relations with relatives and neighbors, although contacts may lack any set order or pattern. Your personal correspondence is not apt to be prolific, but enough to inform those most concerned.

You could find yourself seeking your own home at an early age, probably before marriage. Your relationship to your parents will be amiable enough, but you will be off to seek your own fortune early on. You may find the company of pets to be a comfort in the home environment, and poor animals in distress brought home for care. The indication is for an active life up to the very end.

Fifth House Cusp

Attempts to ascertain the exact manner of death is usually not too fruitful an undertaking, although certain characteristics do prevail. Where feelings of enmity or resentment might occur in the life, it would be best to avoid legal entanglements, as this is one way someone not happy with you could take action. Should you experience financial success, there is apt to be someone that is annoyed by this situation, and attempt to undermine your position. Even in the area of romance, where affection is involved, an element of jealousy could arise. Should a clandestine affair draw you into a perplexing predicament, it could spill over into a difficult situation where anger flares, and retribution become something you have to deal with. Along other lines, there is an inclination to seek seclusion or solitude. If you become religiously inspired, you could seek a monastic order, or feel compelled to make sacrifices for your beliefs.

Aspects Profile

Sun Opposition with Moon - ☉ ☿ ☾

Tension

Orb - 0.16

The placement of the Sun and Moon in opposite signs shows an inconsistency of the flow of energies in your life. There is some conflict between your conscious will and your emotions. You may experience an ebb and flow to your ability to express yourself, and in your productivity. You may find yourself frequently at odds with those with whom you must come in contact. Relationships mean much to you, and you need them to be solid. To succeed in relationships, you must give more than you receive. You may have difficulties releasing the past and forcing yourself to move forward.

Sun Conjunction with Mercury - ☉ ☿ ☿

Dynamic

Orb - 3.65

The conjunction of the Sun and Mercury produces a sound mentality. You handle stress well. Yet you may think of yourself as a nervous person, and you may be. You have fixed opinions, although these may or may not be freely expressed depending on other factors in the chart. The thinking is much in harmony with the individuality expressed by the Sun. It's hard for you to view yourself objectively, or as others see you. Usually much mental energy is shown by this placement.

Sun Trine with Saturn - ☉ △ ♄

Harmony

Orb - 0.65

A trine formed between the Sun and Saturn makes it easy for you to accept and handle responsibility. Difficult times in your life result in minimal struggle. You inherently know how to react to problems and take advantage of counteracting

opportunities. You may have ambitions, but these are not very strong. Most of the time you attain success by doing what is right, when the time is right. Somehow you bring a sense of stability to every situation. Life is not always a basket of roses, and sometimes you get depressed and deflated. Yet you can always get reorganized and back on the right track.

Moon Trine with Mars - ☾ △ ♂

Harmony

Orb - 6.36

The Moon forms a trine with Mars denoting a very active emotional nature and much psychic energy. You possess the ability to back your strong imagination with will and action. You do more than is physically required, whenever you can. You have strong feelings, but these feelings are controlled and constructive. In general, you deal with people well. You can be firm and forceful without becoming abusive and violent. You express a self-confidence that assures you won't be threatened by associates or competitors. You have the need to fight for what is right, but you do so in a fair and evenhanded way. Actions are unbiased and just.

Moon Opposition with Mercury - ☾ ☿ ♀

Tension

Orb - 3.81

The Moon and Mercury in opposition suggests that it's hard to bring emotions and reason into balance. Issues are clouded by concern over trivialities, and emotional response often wins over common sense. Conversely, cold logic sometimes overcomes due concern for the individual. In either case, you find it hard to integrate feelings and thinking. It's hard to predict your conclusions on any particular issue. Occasionally, you become nervous and emotionally troubled. When this aspect is active by transit, you may be easily irritated and argue at the slightest provocation. This is not necessarily your normal mode of response.

Moon Sextile with Saturn - ☾ * ♄

Opportunities

Orb - 0.81

The Moon sextile Saturn shows a degree of reserve and caution in your feelings in close relationships. You have a willingness to discuss problems that arise, and you sincerely try to understand. You are modestly ambitious, but never likely to sacrifice integrity to get ahead. Determination may be stronger than otherwise indicated in the chart. You communicate well, and teaching comes naturally for you. You project knowledge clearly and with real authority. You seek a partner who is sincere and has clearly established plans for achieving goals. You respond to people with good resources of mind and spirit, and besides these traits they must have stable emotions. In your free time you read or study, recognizing that growth is possible only if you continue to expand knowledge.

Mars Square with Jupiter - ♂ □ ♃

Challenging

Orb - 2.71

The square formed between Mars and Jupiter shows that in some ways you are an extremist. You can become susceptible to fanatical religious or social beliefs. When you gamble, it is likely to be for high stakes. You may not know when to quit. Moderation has to be learned; it's not a natural trait. Women with this placement have trouble with men. Your employers are slow to credit and advance you despite your capabilities and inclination to hard work. It is perhaps better for you to be self-employed.

Mars Opposition with Saturn - ♂ ♂ ♄

Tension

Orb - 7.17

Mars and Saturn in opposition suggests some conflict between your desires and your sense of responsibility. There is conflict between a need for impulsive action, Mars behavior, and the conservative apprehension associated with Saturn. There

is a sense of being rejected associated with this aspect. You establish goals out of realistic reach, and then suffer feelings of futility when you can't achieve them. You may over evaluate the accomplishments of others, and undervalue yours. Like yourself a little better, and establish objectives that are attainable in a detailed process. You may be well suited to work in law enforcement, the military, industrial engineering, or conservation. Personal relationships are often disappointing to you. You may select a mate that is an extension of one of your parents. You should instead seek one who would be less demanding, more liberal, and who could compensate for the austerity of your parents. It is unlikely that your family environment will be a replay of your childhood. You will want your children to have more flexibility to enable them to become secure, independent adults.

Mars Square with Neptune -

Challenging

Orb - 4.46

The square between Mars and Neptune suggests that your natural tendencies to assert yourself may cause confusion and turmoil in your life. You may experience ups and downs in your feelings and ambitions. Vague or subconscious reasons prompting you to act may conflict with your sensitive feelings. This aspect stimulates interest in spiritual issues and produces a degree of psychic energy, even spiritual delusion. It's often associated with sexual anxieties, repressed sexual urges, or some degree of deception associated with sexual affairs. This aspect is one that suggests you may do best when you are alone. You should perhaps work by yourself or with as few people as possible. Preferably, you should work in a field such as medicine where you can satisfy a need to provide human service and remain detached. Develop your abilities to plan and control, and be more willing to accept responsibility when something goes wrong.

Mercury Trine with Saturn -

Orb - 3

Mercury forms a favorable aspect to Saturn in your chart producing a practical, well disciplined nature. The reasoning power and retentive memory is very strong. You are able to solve problems easily because you use every fragment of information you possess. You are very exacting in calculations and craftsmanship. You view life seriously. You're a disciplinarian type who can succeed in any role where management skills can be employed. Your sense of self-containment is notable. You are not inclined toward flattery, so any compliment you give is earned.

Jupiter Trine with Venus - ♃ △ ♀

Harmony

Orb - 6.11

The trine formed between Venus and Jupiter shows that inner poise enables you to view people and circumstances with optimism. Negative elements don't disturb you much because you're so sure everything will turn out right. It's hard to be depressed around you. It's rare for you to share your difficulties with anyone, preferring to work them out on your own, with little or no fanfare. You have an outstanding talent for handling people, and you will no doubt succeed in fields where this can be put to use. Your sense of ethics and social decorum is also strong as you strive to be your best. You reach out to people with sincerity and honesty. Vulgar and ill-mannered individuals really turn you off.

Jupiter Square with Saturn - ♃ □ ♄

Dynamic

Orb - 4.64

The conjunction of Venus and Uranus suggests that you are inclined to sudden attractions. This placement gives a sparkle to your personality making you popular and socially active. It may be hard for you to stay tied to one person because your affections are so universal by nature. It's a good idea for you to give your romances the test of a little time. Avoid rushing in to marriage. If you are artistically inclined, this aspect adds a degree of originality to your work or performances.

Venus Sextile with Neptune - ♀ * ♃
