Sagittarius Ascendant

People with Sagittarius rising tend to be idealistic, aspiring, enthusiastic, religious or agnostic, interested in far away places and cultures or ideas, physically active, risk-taking, outgoing, breezy, extroverted, philosophical, perhaps dogmatic, prejudiced, superficial, looking for greener pastures, and on-the-go.

Sagittarius, the Centaur, is half-human, half-animal and this is perhaps the way you are. You have great aspirations, yet may have a most unruly desire nature.

“ You can shoot for the stars or wallow with the animals. There is love of animals, the outdoors, sports, gambling, adventure, and travel. You may lack concentration.

You probably have many acquaintances, but few friends. You tend to have casual contacts rather than in-depth relationships. You have a great restlessness and a love to be on the move.

You may always be looking for greener pastures, never stopping or slowing down to see where you really are and what's around you.

You tend to be talkative and direct and to the point. You may be lacking in tact and diplomacy due to your frankness. Ideas are very important to you.

“ You generally like working with the big picture and dislike all the little details. You may promise much and deliver less. You can rise to the heights or sink to the depths. Jupiter rules Sagittarius so Jupiter will be important in your chart.

Spiritual lesson to learn

Restraint, of all that is given away (and stop procrastinating).

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Tenth house

You may have a desire to attain success and power for the benefit of others or to seek success and power for yourself without thought of anyone else. You want to shine and be recognized for your accomplishments. You want to be really good at something. There is strong motivation towards succeeding in a career and/or personal achievements. You have the ability to inspire others through your example. You are ambitious and self-aggrandizement is possible. People in high places can help or hinder your career.

TENTH HOUSE

X

The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.

Sun in Libra

Librans like to weigh the pros and cons of a situation before they come to any conclusion. If carried too far, they get to the point where they can't come up with any conclusion, thus they can be very indecisive. They tip the scales one way, then the other, hoping to find the proper balance. Librans have an innate sense of fairness, though, and can be diplomatic, cooperative, helpful, idealistic, sociable, dependent, insincere, lazy and self-indulgent. Librans are happiest when in partnership or in situations where they can adjust or work with human relationships. Pleasant surroundings are important to them. Because Librans enjoy people and human interaction so much, they have a difficult time being alone. Because of this, they need to share their life with someone. Unfortunately, they have a tendency to be 'in love with love', because of their romantic and sentimental natures. Thus, they could rush into marriage without forethought and end up in a difficult relationship. Librans find it virtually impossible to remain emotionally stable if there is discord around them. This leads to their wanting peace at any price, which allows others to take advantage of them. They want to be liked by everyone, sometimes to their detriment.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus- inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Third house

You possess intellectual curiosity and may well express your true feelings through speech, poetry or writing. Intellectualizing your feelings is probable. There is a strong need for communication and for gathering information, which is later shared with people in general or women in particular. You have a fine sense of humor and like to joke and play around. Travel appeals to you because it affords new opportunities for learning. Routine of any kind probably bores you and you are constantly looking for variety. Your ideas change at a moment's notice and you are forever flexible and adaptable to any situation. Learning is perhaps better accomplished through listening rather than reading. Your mind can be quite emotional at times. Concerning vocation: the emphasis is on communication and information exchange. Your personality gathers, shares and reacts to information. This position represents the intermediary, the go-between, and the dissemination functions.

THIRD HOUSE

The Third House is commonly referred to as the House of Communication. In this House, much of the communication is going on between the individual and those he or she holds close: brothers and sisters, as well as neighbors.

Moon in Pisces

Your emotions are expressed sympathetically and compassionately. You are sensitive, kind and gentle, imaginative, shy, tender-hearted, and have an innate understanding of how other people feel and react to situations. It hurts you if another is hurt. Because of your kindness and non-judgmental attitude, people in trouble, pain or confusion come to you hoping to find answers. It is difficult for them to think that you may be in pain yourself, but even if you are, you will do your best to help them or teach them. You seem to sense that all the pain you have suffered is for a higher purpose, if only to teach others or help show them the way. At times, though, your soft-hearted is taken advantage of and then you feel the need to withdraw, to regain your strength and composure. Music plays an important part in your life and you are instinctively drawn to it. It is as a voice from your spirit's true home. It helps you to express the emotions within that sometimes are so nebulous or vague that they cannot be put into word. You have a very romantic nature and can fall in love with love. Sometimes your feelings and fantasies get so carried away that you become overly emotional or sentimental, much to the dismay of those around you. You have your moody spells that people do not know how to deal with. You are not afraid of difficult or hard work and you especially like to work for those less fortunate than yourself. You prefer to work behind the scenes, as you may be easily drained of energy by others. There may be talent in art, dancing or music. Tendencies to day-dreaming may need to be controlled.

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in Tenth house

Perhaps you will write or speak as a career. The teaching profession may hold promise for you. You have the ability to communicate your ideas to others and to be recognized for them. Your manual dexterity and mental alertness may lead you to a field where this is a real necessity. You may have several jobs, as you have a variety of talents. There is a possibility of travel in your profession.

TENTH HOUSE

X

The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.

Mercury in Libra

One of your best talents is your ability to see all sides of an issue, and to negotiate and bring about compromise and reconciliation. You are diplomatic, fair, tactful, and reasonable, possessing considerable social finesse. You work well with all groups of people. You are objective and somewhat detached from emotional bias and may make an excellent consultant, mediator, or public relations person. You insist upon fair play and seek peace and harmony in all situations. Your fine aesthetic sensitivities allow you to work in artistic or cultural environments. You have a persuasive, rational, well-balanced mind with artistic sensitivities. You are flexible and willing to listen to all sides of an issue. This may lead to vacillation and indecision, though, because sometimes you cannot make up your mind as to which side has the most merit. Your thinking process works by means of comparing things and finding analogies. This is when you are at your best.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus- inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

Venus in Tenth house

Your pleasant disposition and harmonious nature make you popular in your career and with the world at-large. People seem to want to do nice things for you, which can lead to laziness if you abuse this energy. You have a loving and friendly approach to the world with a general attitude of optimism. This placement can be favorable for public speaking and singing. Your voice may be used to please and inspire people. This position usually grants comfortable financial circumstances.

TENTH HOUSEX

The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.

Venus in Virgo

You are quietly devoted and faithful to your loved ones, and often become a kind of servant to your love partner. You are more comfortable showing love for someone by doing something for them, making something for them, or simply being there for them rather than telling them so in a romantic sort of way. You are somewhat timid about expressing too much sentiment or emotion. You may lack confidence in your own attractiveness and ability to draw love to yourself. This could create doubt of your own worthiness to receive love and appreciation. There is a strong tendency to be very critical of the partner and too expect perfection. Marriage may be delayed due to the desire to find that perfect partner, which does not exist. You desire everything to be clean and orderly around you. A tendency to criticize and nag can be overcome by learning how to serve others in a simple way. You are able to be kind, tender, and sympathetic, thus you may excel at nursing.

VIRGO

Virgo is an Earth sign, with a need for solid ground and form. Ruled by shape-shifting Mercury, Virgo works hard to stability. This sign analyzes and organizes life; the goal is to build a firm foundation.

Mars Profile

MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.

Mars in First house

You have an abundance of physical vitality. Sometimes there is so much energy that you become reckless, impulsive, and throw caution to the wind. You may experience cuts and burns on your head and face which may leave some sort of scar. You are assertive, independent, impatient and want to do your own thing. You have strong organizing ability. You are usually self-confident. Guard against accidents due to rushing around in your impulsiveness. You may be subject to higher than normal fevers.

FIRST HOUSE

I

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Mars in Sagittarius

You are aspiring, enterprising, idealistic, and forever following some bright and distant star, planning some new venture or investigating new potentials that will expand your horizons. You are a rolling stone. You aim high and are not content simply with a quiet, secure existence. You like to stretch your limits, to see how far

you can go, and to take risks. You are a positive thinker, expect success for yourself, and are philosophical about failures. You are flexible and bounce back from disappointment rather quickly, usually with another hopeful new idea you want to try. Your enthusiasm and confidence are contagious and enable you to enlist the aid and support you need for your projects. However, you sometimes promise more than you can actually deliver, due to over-optimism or insufficient attention to the practicalities involved. You also tend to get distracted and sometimes have too many things going at once. Although it may be very difficult for you, there are times when you must simply develop and show commitment, perseverance, and persistence in order to make your dreams and goals a concrete reality. Too often you fall short of what you could attain because you are unwilling to persist through the difficult or less exciting times. You also enjoy competition and usually do not take it too seriously. You tend to be friendly, optimistic, impulsive, enthusiastic, independent and argumentative. You may be an active traveler. Your energies need to be used in physical outlets and you may be an athlete. You have a tendency to exaggerate. You may also have strong religious and philosophic convictions and can go crusading if you feel the cause is just. On the negative side you may be sharp-tongued, quarrelsome, disagreeable, self-righteous, verbose, intolerant, and dishonest.

SAGITTARIUS

Sagittarius is Fire energy and the ruler of Jupiter. This is a very active, extroverted, mobile, expansive sign. The Archer is always ready for action, bursting with goals and idealism.

Jupiter Profile

4

JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in Eleventh house

You probably have lots of friends who are willing to do almost anything for you, and you for them. These friends are knowledgeable, idealistic and may be of foreign culture or descent. The social life appeals to you and this may be the cause of over-indulgence or over-extravagance on your part which could get you into trouble. You are popular, with faithful and influential friends. You have a natural ability to organize and plan large group activities. You are a strong supporter of groups, foundations and philanthropies.

ELEVENTH HOUSE

XI

The Eleventh House is commonly referred to as the House of Friends. Through our friends, we find strength in numbers -- we see the power of the collective, the group.

Jupiter in Scorpio

You tend to be efficient and hard-working, with a flair for business and finance. You are resourceful and willing to do all the work necessary in the fulfillment of a task. You are secretive, but there is, also, great inner strength and courage. You have a magnetism that draws people to you. You have an ardent, aggressive, self-reliant nature and an enthusiastic, constructive mind. On the negative side, there may be trouble and loss through the indulgence of the lower nature and love of rich and expensive food and sickness on that account. Any tendencies for wild speculation and risk-taking should be controlled. There is interest in the occult. Strong healing abilities may be present. These energies are meant to be used to gain a higher consciousness and greater universal wisdom.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Saturn Profile

SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in Tenth house

You are self-reliant and independent with good business and organizing ability. Success for you comes slowly, through perseverance and hard work. You must accept your responsibilities, otherwise life will be a series of setbacks and failures. Chasing power and using others to get what you want will cause your downfall. You need to control your ambitions. Be careful of bridges you burn ? you may need to cross back over them. There may be difficulties with either parent because of their discipline, strictness or a need to control your life.

TENTH HOUSE

X

The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.

Saturn in Libra

You are diplomatic, tactful, and you have balanced judgment which inspires trust. In matters of health there may be urinary problems or trouble with the kidneys. Saturn tends to obstruct the filtering action of the kidneys, allowing toxic elements to stay in the blood stream and intoxicate the body. Drinking distilled rather than spring, mineral or tap water would be better for your kidneys. There is a need for you to cooperate and share in harmony, patience, and love with other people. Marriage or partnerships may be restricting, requiring hard work and discipline so that you may learn the lessons of cooperation rather than competition. Marriage and partnerships give you a sense of security and for that reason you seek them out. You may marry for practical reasons, for money, or to someone a lot older or younger. Various possibilities exist with this position. You may take great trouble to find a mate who is able to demonstrate a similar integrity, and thus marry at a later age than most, or you may choose an older partner or a contemporary who is apt to be austere or undemonstrative. A desire for perfection may make you too demanding in the marriage or your view of marriage may be too conventional or old-fashioned. If Saturn is badly aspected, then you may be cold or regard marriage as a yoke with which you do not care to burden yourself. Or lastly, you may tell yourself that you will never find a partner who will measure up to your requirements.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus-inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Uranus Profile

URANUS symbolises SHOCK; CHANGE; INDEPENDENCE; THE NEW; INVENTION; REBELLION; INDIVIDUALITY; EXCITEMENT; ORIGINALITY; ECCENTRICITY; INSPIRATION; UNORTHODOXY and REFORM. It is personified by TECHNICIANS; REBELS; ALIENS; INDIVIDUALS; ECCENTRICS; ASTROLOGERS; REVOLUTIONARIES; REFORMERS, and those who are unusual or different in some way.

Uranus in Twelfth house

You tend to be highly intuitive and secretive, with humanitarian ideals. You may have feelings of loneliness. There may be nervous difficulties. There is interest in metaphysical subjects. You may have unique psychic experiences which you keep to yourself for fear of being ridiculed. You have a tremendous desire to feel free and a constant questioning of the meaning of life and of the imperfections you see around you. Unresolved difficulties in your subconscious mind need to be brought out and disposed of. You have a tendency to feel that something is going to get you, to sneak up on you, if you are not careful. It is as though you always have a sense of impending doom. You need to overcome this apprehension. Self-control must be developed.

TWELFTH HOUSE

XII

The Twelfth House is commonly referred to as the House of the Unconscious. The unconscious state can help engender our successes, as well as assist us in coping with our failures.

Uranus in Sagittarius

You deviate in a free and tolerant way, especially in relation to long journies, philosophy, religion and higher education. People born in these years tend to innovate in various areas of knowledge. They may even be innovative in religion. In order to seek release from accepted beliefs and dogmas, they travel a lot to distant places, with the purpose of leaning and experiencing more. They are particularly good at dreaming up new ideas. You may be involved in unleashing your ties to common social beliefs and creating new ways of thinking.

SAGITTARIUS

Sagittarius is Fire energy and the ruler of Jupiter. This is a very active, extroverted, mobile, expansive sign. The Archer is always ready for action, bursting with goals and idealism.

Neptune Profile

Neptune in First house

You tend to be artistic, idealistic, dreamy, procrastinating, psychic, and very (hyper)sensitive to your environment. Getting lost in your own imagination can sometimes make you moody, frustrated, unstable or impractical. You may be a sucker for the sob stories of those who feel down and out. You may enjoy playing the role of savior, or of martyr. The day-to-day pressures of the world can drive you away and into your own little world. Be sure you do not get lost in it. You still have to live and function on this earth plane. Your physical body may be susceptible to all sorts of real or imagined ailments. You are like a sponge and can soak up the influences of the environments you are in. So be careful what you surround yourself with. Watch any medicine you take because a little probably goes a long way for you. Perhaps the secret for you is to lose your ego so that you will find yourself.

FIRST HOUSE I

The First House is commonly referred to as the House of Self. The First House speaks to the realization of one's ultimate potential. This process of becoming a unique individual is one of the greatest contributions we make to the world in which we live.

Neptune in Sagittarius

You refine knowledge and philosophy in a free and tolerant manner. It may be you distil the essence of knowledge so it is mystical and uncertain. There may be a tendency to believe in a free manner, without using the critical facilities. You are very sensitive to matters related to freedom, especially in foreign lands and with foreign people. You are very tolerant, but this may be because you fail to see certain details and become entranced by your noble dreams of a better world. Yet, you do have a powerful ability to overcome these problems, and achieve a powerful solution.

SAGITTARIUS

Sagittarius is Fire energy and the ruler of Jupiter. This is a very active, extroverted, mobile, expansive sign. The Archer is always ready for action, bursting with goals and idealism.

Pluto Profile

PLUTO symbolises SEXUAL ENERGY; THE ORGASM; DEATH; TRANSFORMATION; DESTRUCTION; REBIRTH; POWER; EVOLUTION; THE MASSES; REGENERATION; THE WILL; REVOLUTION; THE UNDERGROUND AND UNDERWORLD; THE UNCONSCIOUS; WAR; ATOMIC POWER; BIOLOGY; SURVIVAL; PROCREATION and CONCEPTION. It represents the process of destruction of old forms and the release of the energy inherent in them in order to create new life.

Pluto in Eleventh house

Loyalty of friends is important to you. Some friends may try to be quite controlling of you or you may be quite controlling of them. Intensity of friendships really appeals to you. Your friends may find you rather charismatic. They perhaps see you as the rebel or the reformer or idealist. Friends will come and go as the need for your own growth changes. This is all part of the cosmic process. What ceases to grow, dies. This includes friendships and all relationships you may have with different groups of people. Groups and organizations can play major roles in your regeneration or transformation. Your dedication to high ideals can be used for the benefit of all mankind, if you apply yourself. You have leadership ability and the will to fight for causes that are beneficial to others.

ELEVENTH HOUSE

XI

The Eleventh House is commonly referred to as the House of Friends. Through our friends, we find strength in numbers -- we see the power of the collective, the group.

Pluto in Libra

You transform in a diplomatic and harmonious way, matters related to relationships with others and partners. You may be obsessed with fairness and justice as it relates to others and to marriage partners. Relationships must be perfect or they are nothing. You deal with these matters intellectually and through communication. You are motivated by your values and while you are normally diplomatic, there may be explosions of anger at what you consider unfair.

LIBRA

Libra represents the Air element. It is a sign that is more extroverted and active. For Venus- inspired Libra, beauty, balance and harmony are important. There is a great need to share, to be fair and impartial.

Chiron Profile

Chiron in Sixth house

You're prone to take criticism too seriously as if it means you have no right to trust yourself or choose your own methods, which can lead to you editing your natural, unique contributions to what needs doing and how it might be done. You may be preoccupied with your own health and possibly even be a hypochondriac. You worry incessantly yet don't do much to remedy it. You may wish you could relieve yourself of all the strict rules you place on yourself but feel you cannot risk it. Routine is difficult for you and you prefer to do things of your own accord, but you can easily tell others how to organize their own lives and keep up with healthy habits. If you deny routine, try adding a little structure to your life here and there, and you might find yourself benefiting from it. Stress and emotional reactions can aggravate health problems for you, and you have to be careful with diet and exercise. You have great healing ability and when you have come to the point of dealing with your own issues, you will achieve great success in this field. You may wish you could relieve yourself of all the strict rules you place on yourself but feel you cannot risk it. Relaxation, essentially, is the key word. Free yourself from worry and relax. The gift of Chiron in this house involves a resourcefulness when it comes to streamlining processes, perhaps even inventing them, in the interest of more efficiency.

SIXTH HOUSE

VI

The Sixth House is commonly referred to as the House of Health. Implicit in maintaining good health is the ability to cope in the face of adversity, and this theme rings truest in the Sixth House.

Chiron in Taurus

Taurus is the sign of slowing down, getting things in order, and operating according to a sensible pace that ensures success. It also shows what we instinctively value, including ourselves. This is the sign that gives us our gut-level sense of self-worth. You're hypersensitive to what it means if others rush you in any way, or demand immediate responses. Placing value on the wrong things seems to be a real danger. You seem to fall victim to the

misconception that mistakenly places too much emphasis and value on lower earthly pleasures. You may have the urge to hold on to every penny while denying yourself any of life's pleasures, or a rejection of "those low, materialistic values" and, consequently, a life of poverty. Your energy antenna is working through the lens of the need to slow down and get centred in the body in order to know what's true. Make sure you give yourself time and space to figure out what's best for you, as if you rush into what others expect or demand, you'll trust yourself less and less over time. This placement centres your consciousness in your body and tending to its basic needs whenever they arise, developing a self-validating response to the reality of your physical needs, which can make it easier to do the same with your emotional needs. At some point in life, you felt that you didn't get enough of something, whether it was material things, or emotional, mental or spiritual attention. You feel unfulfilled and undernourished in some way. You need to learn to value yourself and treat yourself the way you want others to treat you. Love is all around. You are born to love and be loved.

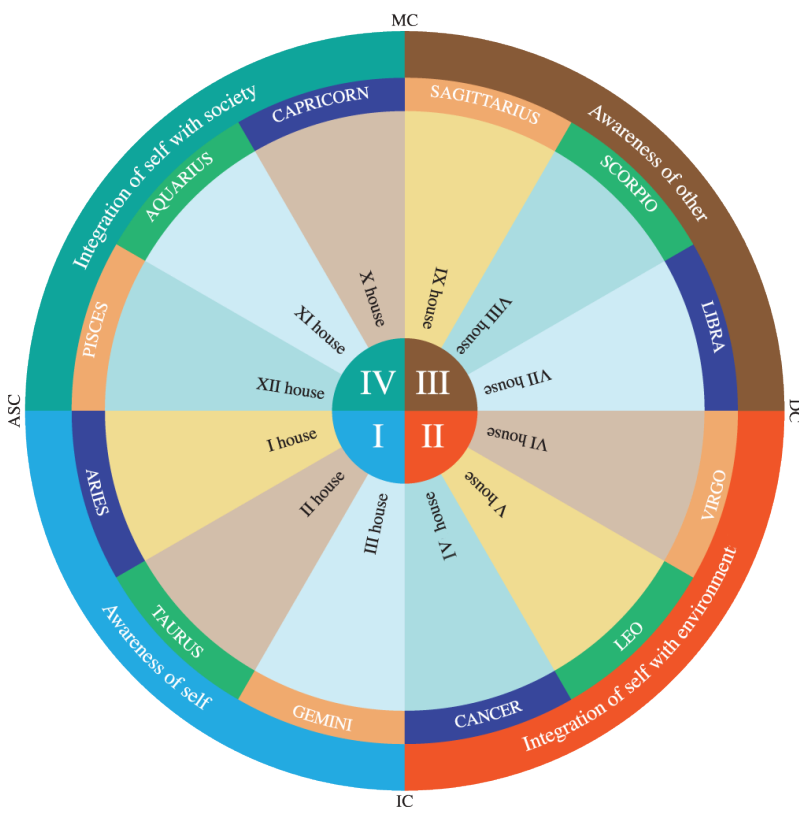

TAURUS

The Earth element of Taurus brings strength and the desire for solid ground, form and structure. Preservation is important. The Bull's fixed motivation seeks first to stabilize, then produce. Ruled by loving Venus, Taurus has great emotional depth.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Occasions may arise in life when unseen influences operate in the background, or forming associations with various people bringing conditions you are not aware of, and this then opens the possibility of falling victim to what you know not. Such a situation could occur by starting a sexual relationship with someone that is married, and they don't tell you. Although you are perfectly innocent, you are still in a potentially dangerous situation. Another possibility might occur with a spouse that is jealous or possessive because they seem convinced something is going on behind their back, even though nothing is. By the same token, avoid making accusations or insinuations about your spouse, unless of course, you have certainty. This is a murky area in life, and it will not be easy to see through to what is really going on. Trust in your inner senses, as these tend to be highly developed and active in this area.
