## What is Synastry

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forearmed to better cope with the struggles of life.

# Synastry House Report

---

## **Ryan Thomas Gosling's Sun In Blake Ellender Brown 4th House**

Excellent, this is a powerful and emotionally gratifying connection. There is a strong link between you both – either in this life or karmically. Your meeting may be seen by you as meat to be. You may have a home town or family connection and it is very likely that you will share a strong bond in terms of a shared past or similar upbringing.

There is a strong feeling of shared identity. You have very strong protective instincts when it comes to your partner and you arouse the father/mother instinct in them. With this aspect you both have each other's back and you can operate as a very powerful, robust unit. Often there is a sense of, 'You and me against the world'.

You have a significant effect on your partner and can really reach them on a profound level. Your partner is very sensitive to your words and actions and so you have to be self-aware as he/she takes you very seriously and will take your deeds to heart – maybe more so than should be.

Your partner will perceive this bond as strong and they will trust in you; you may become somewhat of a rescuer as this partner may rely on you more than you may feel comfortable with, especially emotionally. Indeed, it is possible that you will both parent each other to an extent as this is a nurturing combination and yet you may be the leader, the one with whom the buck ultimately stops.

The 4th house placement of the sun brings an intimate connection which is very personal and dear to you both, but it can also bring out an irrational side to you both which makes life quite changeable and you do not always make good decisions together.

This is a very good combination for couples who meet much later in life.

You may both do well in terms of property investments.

## **Ryan Thomas Gosling's Moon In Blake Ellender Brown 6th House**

Since the 6th house represents work, duty, care and health, you may feel responsible for organising your partner's life or helping them achieve better health. In fact you may have met as you are their secretary, nurse, doctor, fitness guru or dietician.

You may feel burdened in some way by your partner and you could begin to feel like you are their nursemaid. There is a sense of you being taken for granted.

I have seen this placement with women who run their partner's bath and set out his clothing; indeed you are motivated by being useful and dutiful in love and yet you risk becoming a doormat and not putting your emotional needs high enough up the list.

This is the placement of the traditional 50's housewife and even if you are a thoroughly modern woman, you may still feel that the buck stops with you and you bear most of the domestic responsibility. You have your finger on the pulse and tend to be the one who sorts out practical problems and knows what your partner needs.

Your partner probably cannot cope without you and that is where your power lies. This is a very good position for your partner as by knowing you they will adopt better fitness and health practises or at least be more aware of health and hygiene.

While you are a terrific support to your partner, they may accuse you of being too critical or not minding your own business.

## **Ryan Thomas Gosling's Mars In Blake Ellender Brown 5th House**

There are some fireworks. This love match is full of surprises. Things start quickly, either of you will make the move and there is eagerness and mutual sexual

attraction.

You may compete hard to keep each other's attention and there is some boasting and one upmanship. This is a competitive combination that spurs you both on creatively and professionally. This is excellent for couples in very competitive back biting industries i.e. banking, the arts, and corporate management as you can motivate and inspire each other. You will both achieve more and become more recognized with this placement.

This is sexually exciting as you will encourage greater sexual expression in your partner and they can come out of their shell in terms of physical and sexual confidence.

They love your spirit and passion and you bring excitement and fun into their lives.

You both enjoy working with children and may act as sports coaches. You will support the arts and enjoy creative activities together.

You both enjoy sharing the lime light, although over time you can pull ahead a little leading to a sense of failure and disappointment in your partner.

In some cases your partner may have an ability they keep totally secret. You may be the one who talks of a career as a singer and then one day your partner gets up and belts out Nessun Dorma and you think, 'Heck, I never knew he/she could do that.'

## **Ryan Thomas Gosling's Mercury In Blake Ellender Brown 3rd House**

This is an excellent placement for communication and you are a very busy couple. Life can be a bit of a blur with this placement as so much happens and it is all a big rush. There is great communication, understanding and in general, agreement.

You may well have siblings or cousins who know each other or maybe you are neighbors. Life with you two is never dull and yet you may not often have time to sit back and relax and enjoy the moment. There is a meeting of minds and you both

have a super intellectual connection. No matter what goes down you can always talk it through and you should be able to come to agreement and a working solution.

You understand each other and there are rarely miscommunications. You may have a very healthy texting or sexting life as communication in all forms is the life blood of this union. You may well have met via social media or internet dating and your love affair may have begun by exchanging letters or emails.

This match, although great fun, can be a little hectic and superficial and one would need strong aspects from Venus and Pluto to bring depth, intensity, passion and loyalty. There is the danger that you will take each other for granted.

This aspect is excellent for couples whose work involves journalism, teaching or education as you can bolster each other's mental astuteness and confidence and work well on related subjects.

You enjoy night life, city breaks and are a very social couple.

## **Ryan Thomas Gosling's Jupiter In Blake Ellender Brown 2nd House**

This position is a very positive one for love, affection and acceptance. You have a great capacity to appreciate your partner at a deep level. You can expand their sense of self love and help them to appreciate their innate talents and intrinsic nature.

You can be instrumental in helping your partner to earn more and have success in business. They say that success and financial security often comes when you relaxed and feel grateful and secure with where you are, you are able to make a partner feel more satisfied with themselves and more secure in who they are and from that stems the start of great success.

You bring each other wellbeing and comfort and together you expand in many ways. This placement bodes well for financial achievement and also social wellbeing, it can also lead to excessive consumption of food or luxuries, and monetary waste. You

may both encourage laziness, complacency and greed in each other and you may never know when enough is enough. You need to keep a grip on things.

You may not be sympathetic enough about your partner's financial or work struggles and you may give endless advice, to which your partner may say, 'All very well for you to say.' You may develop a critical attitude about some of your partner's spending and they may resent your judgmental attitude.

Sex and affection tend to be a feature of this aspect and when it is good it is very good. This placement is feast or famine and the good times are splendid, while you tend to weather the bad times in good spirits.

### **Ryan Thomas Gosling's Venus In Blake Ellender Brown 3rd House**

This combination is all about fun. You may meet online or on social media and texting or emailing each other may be key to the start of the relationship.

This love match gets off the ground fast and moves quickly. You enjoy taking trips and attending events together and dating is filled with variety and fun.

You enjoy each other's sense of humor and there are many laughs and jokes shared. Your partner brings out the playful side of you and communication is terrific. You can chat all day and you are comfortable together. Your partner finds you intelligent and witty, they like what you talk about and find you fascinating. Being with your partner gives you more social and intellectual confidence and you begin to make more of your communication skills.

While fun and flirtation are abundant, there is something superficial about this combination and one or both of you may not be taking it seriously. It could be a fling or an affair unless other aspects are strong.

There can be arguments which are petty and you may not really experience passion physically. This match needs constant change, variety and refreshment which can

become exhausting.

One of you, more likely you may shy away from commitments when it comes down to the wire. Promises may not be kept and you could begin to bicker. Enjoy this while it lasts and you will part as good friends.

## **Ryan Thomas Gosling's Saturn In Blake Ellender Brown 2nd House**

Money and managing money is key in this relationship, you may control the purse strings and ensure that money is saved or that you have insurance. You tend to be the bank manager of the love match, the one who clamps down on excess and encourages resourcefulness. You have to be careful that your partner does not spend behind your back.

Your partner may get into the habit of agreeing with you for the sake of it, when their true feelings or innate understanding runs contrary to what you say and believe

This often leads to a very prosperous union, with many of the trappings of wealth i.e. nice cars, flashy house. This combination works well if you are in business together and you both desire greater status - it may be a shared sense of ambition that was what attracted you to each other.

While emotionally this relationship can be shallow, it can also be very robust and may endure many ups and downs. At the end of the day, you are both pragmatic and will knuckle down and do what needs to be done.

You may be the one to financially rehabilitate your partner. You may also help a partner to be more determined and persistent in developing talents, projects or abilities which have potential.

## Ryan Thomas Gosling's Uranus In Blake Ellender Brown 4th House

As Uranus moves rather slowly through the zodiac and spends about 7 years in each sign, if you date people of a similar age they may have Uranus in only one of two of your houses and visa versa.

You can help your partner break free, yes indeed, you can be the catalyst for positive change in their life and you may help them escape a confining family life, trauma in their past or a highly regimented and restrictive background. You are able to show them a new way of living and you provide a path forward into the light.

Together, you may have an unorthodox living arrangement, you may also move frequently or live in an ultra-modern or converted building. Family life can be a source of upheaval and great uncertainty. You could be a couple that live on the road or travel constantly.

You have big ideas about how family life with this partner could be and you may be very disappointed when they are unwilling to settle down or reveal they do not want children. Your differences when it comes to having a family or how to bring the children up can reveal deep cracks in the relationship. You may end up breaking up as you cannot stand his domestic habits or lifestyle or because your values in terms of family values are miles apart.

You may find your partner emotionally unstable and his issues may overwhelm you. You may find yourself living the lifestyle that suits your partner, not you, and the question is how much will you compromise?

You may understand your partner emotionally better than they understand themselves, but you may not be able to ultimately help them with deep seated problems.

Your partner's inability to move on and their connection to their past may divide you. If you already have children from previous relationships, this could also generate too

much contention for you to cope with.

## **Ryan Thomas Gosling's Neptune In Blake Ellender Brown 5th House**

As Neptune moves rather slowly through the zodiac and spends about 13 years in each sign, if you date people of a similar age, or even born in the same decade, they may have Neptune in only one or two of your houses and visa versa.

Romance is certainly going to be interesting and yet it can also be highly confusing - your partner's romantic messages may be misunderstood by you and it could take your relationship a while to take off due to all these mixed messages. The partner loves to talk about aesthetic matters i.e. art, movies and culture. In some cases they talk obsessively about themselves and wish you to give them reassurance about their talents, abilities and appeal - they may seek compliments and tire you out with their insecurities.

Your partner may work very hard at romance and they may be a compulsive flower sender or writer of romantic poetry or messages, your partner certainly tries very hard to create a magical ambiance and yet you may find that they are hopelessly idealistic about love and not able to deal with the harsh reality. Hopefully however, you will relent and take a leave out of their book and sail away on this romantic magic carpet with your partner.

Your partner could be very keen on talking about having children from the start of the relationship.

Your romance will follow an unusual trajectory and there can be some confusion and hurt feelings. You must be honest and straightforward with each other.

## **Ryan Thomas Gosling's Pluto In Blake Ellender Brown 3rd House**

As Pluto moves rather slowly through the zodiac and spends about 18-20 years in

each sign, if you date people of a similar age, or even born in the same generation, they may have Pluto in only one or two of your houses and visa versa.

While conversations are stimulating and deep, at times you may dominate the flow of ideas. What you say goes and you may always want the last word. You may argue incessantly and push for the predominance of your thoughts and opinions.

You will seek to act on what you think is best and you are not always compromising.

You may be suspicious of your partner and you may go overboard in trying to influence their thinking. You may be resentful or sulky if proven wrong.

While great psychological awareness and the ability to talk about deep and meaningful subjects is probable, you need to develop more detachment and so you can benefit more from your exchanges.

You must not fall into the trap of playing mind games and trying to always second guess and outwit each other.

Trust may be lacking, but there is mutual respect.

# Synastry Aspect Report

---

## Moon Trine Moon - ☾ △ ☾

Harmony

Orb - 3.41

This connection provides good emotional rapport and harmony. This is a great aspect for people in the same family or living in the same household. There is mutual understanding of one another without losing yourselves in the process. Companionship, cooperation, and a spirit of helpfulness make this an excellent combination for an enduring partnership or marriage.

## Moon Trine Mercury - ☾ △ ♀

Harmony

Orb - 9.37

This aspect is good for communication about everyday practical affairs, especially those relating to business, work and domestic matters. There is an ability to communicate emotional matters. This is not an indicator of sexual attraction, but it does tend to improve romantic affairs.

## Mars Trine Sun - ♂ △ ☉

Harmony

Orb - 8.73

When you're together, you feel confident and excited, and you sense that your individual energies are heightened and focused by the relationship between you. You find that you're even better suited as business partners than as lovers, because you motivate and inspire one another to such new heights. Alternatively, you find projects to work on as a team within the romantic relationship like raising kids or pets, refinishing furniture for your house or planning out and planting a garden together.

**Mars Trine Mars - ♂ △ ♂**

Harmony

Orb - 8.67

As a couple, your combined energies really create something spectacular and that could start in the bedroom. You're highly attracted to each other, with a very passionate bond. You express your desires in some very similar ways, so you don't have many chances or reasons to misread each other's signals. You feel stimulated when you're together, awake, aware, tuned in to all the possibilities that the world has to offer you.

**Mars Trine Jupiter - ♂ △ ♃**

Harmony

Orb - 6.64

You love being together, no matter what you're doing whether you're talking and laughing, taking a walk, seeing a movie or whatnot, you have a great time. However you spend your time as a couple, you both enjoy yourselves immensely. If one of you is feeling down or pessimistic, you only have to be around your partner for a few minutes before you start to perk up again.

**Mars Trine Venus - ♂ △ ♀**

Harmony

Orb - 9.34

You have a major appetite for each other, but you rarely have trouble with complications like jealousy or possessiveness, at least not on your lover's side. They just support you and give of their love freely. You may feel more emotionally bonded with them than you have felt with anyone in a long time.

**Mars Conjunction Saturn - ♂ ♂ ♄**

Dynamic

Orb - 8.47

You two either complement each other well or antagonize each other for your

differences. Your partner learned to be a little more spontaneous and carefree, while you discovered responsibility and hard work. Problems might arise in the later part of your relationship when your passion gets dampened by too much focus on responsibility. Your partner's controlling attitude will only create rebellion and even more unpredictability within you. Try to focus on knowing each other as the people that you truly are, even if it scares you, your differences really aren't so frightening or annoying and in fact, they're complementary.

### Mars Conjunction Uranus -

Dynamic

Orb - 0.3

Influencing things between you, don't expect a calm, ordinary relationship. You could go through a lot of ups and downs together, and you might never come to a place where you can really trust the bond between you, unless other aspects have a more stabilizing influence. Sexually, you keep things very interesting together because there is a feeling that if you don't keep changing it up, your partner will lose interest. There is a feeling of change between you; you're never quite able to pin your partner down and get a commitment, or even a straight statement of their feelings or desires. You still feel as if they're constantly evading your advances, like a complicated fencing match with sexual overtones.

### Mercury Sextile Sun -

Opportunities

Orb - 2.23

From the get-go, you've shared an easy understanding and a communicative rapport. It's just easier than usual, especially for your lover, to hash it out and express themselves without hurting your feelings. This is because you have an instinctive understanding for just how to get through to them, and how to respect their individuality. You also have great potential to be highly creative together; whether this takes the form of some really fun, unique dates or actually launching a creative or entrepreneurial project together is up to you.

## Mercury Sextile Mars - ♀ ✱ ♂

Opportunities

Orb - 2.29

The conversation began at your first introduction, and it hasn't stopped since. You leave no stone unturned when it comes to sitting down for a chat. Talking and trading ideas is such a big focus between you that there isn't a huge amount of quiet time in your relationship there's just be so much to talk about. You stimulate each other creatively to a high degree; you inspire new and unique ways of thinking, and you come up with ideas together that you'd never have thought of on your own, even if you're usually rather quiet or reserved.

## Mercury Sextile Mercury - ♀ ✱ ♀

Opportunities

Orb - 2.99

Even if there are other more challenging aspects between you, this one helps keep you on the same wavelength. You agree on most things, and even the subjects you don't agree on are interesting, because you get to look at both sides of an issue together and debate over it. At base, you think in similar ways your thought processes take similar tracks, ones that each of you recognize in the other. The individual style in which each of you reasons things out and processes information blends together nicely, so you share a feeling of familiarity.

## Mercury Opposition Jupiter - ♀ ♂ ♃

Tension

Orb - 4.32

You have to be careful about how the two of you communicate. You set up a pattern of projection and idealism in the early stages of your relationship, and that's likely led to confused interactions in the present day. Idealizing each other came from a good, well-intentioned place in the beginning, of course.

## Mercury Sextile Venus - ♀ ✳ ♀

Opportunities

Orb - 1.62

If there are other, less harmonious aspects between you, don't worry this one really helps to smooth over the harsh effects of those, because as a couple, your focus is on getting along well and working together as a loving, communicative team. No, you delight in leaving love notes for your lover in their briefcase or purse, describing all the wonderful ways that your life changed when you two got together; you write songs or poems for them, give them sweet cards every chance you get. You really let them know just how special you think your sweet partner is.

## Mercury Sextile Neptune - ♀ ✳ ♃

Opportunities

Orb - 1.37

You two are comfortable communicating on abstract planes. Long conversations in which you discuss everything under the sun are enjoyable for you, but so is interpreting each other's dreams, reading poetry together, singing, creating or enjoying art together and so on. Those creative activities teach you a lot about each other and yourselves. You're each able to discuss many subjects, both concrete and complex, with ease; in fact, you don't always have to communicate in words.

## Mercury Conjunction Pluto - ♀ ♂ ♇

Dynamic

Orb - 3.57

Your partner has a strong effect on you, mentally. When you're together, your thoughts, ideas and conversations take on a deep sort of intensity you might talk about life's larger complexities, such as sex and death, or the intensity could come out in the way they treat you. When your partner has an idea that's abstract or otherwise complicated, you're able to give it rational expression.

## Jupiter Square Neptune - ♃ □ ♆

Challenging

Orb - 2.3

Your partner stimulates the most idealistic parts of your nature, which sounds nice except that they could encourage you to step off the edge of the mundane world and into the stratosphere with them. You're so idealistic when you're with your partner that you could become quite irresponsible. After all, if all your focus and interest goes toward the uplifting feeling of being together, you can't get much done in the way of tedious, day-to-day responsibilities. You talk each other up and it could be hard to come down again and face reality when it intrudes, which it has a nasty habit of doing.

## Venus Sextile Saturn - ♀ ✳ ♄

Opportunities

Orb - 1.64

You each know that you can bring your problems to the table, whether they're personal problems or issues related to work or anything else, and together, you can figure out how to solve them. Clear communication and practical innovations are your forte as a couple. You communicate well with each other and you treat each other with generosity. There is a feeling of 'what's mine is yours' between you.

## Venus Sextile Uranus - ♀ ✳ ♅

Opportunities

Orb - 6.53

No red roses or chocolates for you two; an impromptu rooftop picnic is much more your style, and your partner can amaze and excite you with the events they take you to. You two are attracted to each other in the extreme and you probably jumped into this relationship fast and then you hit the ground running. You felt as if you'd never met anyone like this person before, or maybe you'd just never been attracted to anyone like this. This is a highly creative and social relationship; you two have a lot of fun exploring the mischief you dream up together, and you inspire all kinds of

creative ideas in each other.

### Saturn Sextile Saturn - ♄ ✳ ♄

Opportunities

Orb - 8.47

You work well as a team, and you help each other accomplish whatever you set your minds to, as individuals or as a couple. Whether it's on an emotional or financial level, you both want the same level of security and you have the same idea about how to make it happen. You have very similar ideas of how to be a disciplined and responsible human being, and you cooperate with each other very well which makes you wonderful business partners as well as romantic ones. So, you work hard together, keeping your eyes on the prize, and best of all, you get to enjoy the fruits of all that honest labor together.

### Saturn Square Neptune - ♄ ☐ ♆

Challenging

Orb - 0.73

You naturally take a practical view of life; you trust in the things that you can see, touch, feel and otherwise count on in a tangible way. You believe in hard work and responsibility, and anything more abstract than that seems untrustworthy or out-and-out silly to you. But there's a whole other side of things the intangible, the instinctive, even the psychic and your partner has a good grasp on these concepts. They lead with their gut, acting on instinct and reaching out as often with their mind as they do with their hands.

### Uranus Square Sun - ♅ ☐ ☼

Challenging

Orb - 6.23

One word describes your relationship: conflict. At first it might be infrequent or mild, but as your involvement deepens, you go head to head more and more often. Unfortunately it's much more likely that there are painful disagreements that cut into

both your souls.

### Uranus Square Mars - ♄ ☐ ♂

Challenging

Orb - 6.17

You two know almost instinctively how to get under each other's skin. Your lover probably tries to control you what you do and when, what you say and don't say even if that's not normally in their nature. Something about your insistence on independence makes them try to pin you down by force. You rebel against any controlling efforts on their part.

### Uranus Square Venus - ♄ ☐ ♀

Challenging

Orb - 6.85

The attraction between you is so strong and exciting that it could have inspires you to jump right into a full-blown relationship before you knew each other very well. Things between you feel exciting, new, unexpected and unique. Your interactions are spontaneous and lead you places you don't expect to go; you're social together, and you blend your groups of friends. They aren't able to count on your bond; you probably have a hard time committing to them, and you might even find that your feelings toward them change as fast as a pendulum swings.

### Neptune Trine Jupiter - ♆ △ ♃

Harmony

Orb - 8.43

You encourage your partner's spiritual growth in a way that excites them beyond measure. But you, this amazing person in their life, has a handle on the more emotional and spiritual side of human experience, and you invite them into your world for the betterment of both of you. You're enlivened by their natural optimism and spontaneity, and you offer them your own compassion and emotional support in return. You probably tune in to each other on a psychic level, which allows you to

understand each other's feelings without having to speak or ask about them.

### Neptune Conjunction Saturn - ♃ ♂ ♄

Dynamic

Orb - 6.68

You come at life in two very different ways, which causes you to develop some ideas about each other that aren't necessarily correct. Your partner tends to take a practical viewpoint, trusting in hard work and responsibility and believing only in the things that they can see, touch, feel and otherwise count on in a tangible way. Their reliance on the concrete often looks to you like they're being a stick-in-the-mud! You take the opposite path; you have a deep reliance on the intangible, the instinctive, even the psychic side of life.

### Neptune Conjunction Uranus - ♃ ♂ ♅

Dynamic

Orb - 1.49

This aspect's influence is intense for both of you. You could both feel as if you're on the verge of something when you're together a wild new idea, the realization of a lifelong fantasy and, in truth, you probably are. Your deepest, most abstract ideals, the ones you've probably kept to yourself for the most part out of nervousness that no one will understand them, finds radical form and expression in this relationship. On your partner's side, their creativity is enhanced, and their spirituality grows by leaps and bounds.

### Pluto Sextile Sun - ♇ ✳ ☉

Opportunities

Orb - 8.95

The bond between you is powerful and transformative. On a physical level, this person responds to you with a deep and compelling passion, one that is enhanced by a strong emotional sensuality. You're able to provide them with a lot of support and encourage them to pursue their ambitions. Not just career-related ambitions, either.

**Pluto Sextile Mars - ♃ ✳️ ♂**

Opportunities

Orb - 8.89

But you don't have to stop there when it comes to focusing the power that this aspect brings to your relationship. The two of you are able to join forces and accomplish almost anything you put your minds to. This strength and determination could be put to good use in a variety of ways.

**Pluto Opposition Jupiter - ♃ ♂ ♃**

Tension

Orb - 6.86

Expect to have a hard time with each other when it comes to growing as individuals within the relationship. You are on a highly emotional path toward self-knowledge during this relationship; you're doing a lot of hard work and personal transformation, and this personal struggle invariably ends up pulling your partner in, even if they don't want to be. A further part of the problem is that you have such different ways of meeting issues and translating perceptions you're polarized between logic (your partner) and emotion (you), and you have a hard time even speaking the same language, much less understanding where the other is coming from. A third part of the problem is your tendency to project your subconscious need for change onto your lover.

**Pluto Sextile Venus - ♃ ✳️ ♀**

Opportunities

Orb - 9.56

You dominate this person's dreams, their sexual energy, their waking life and their imagination. You have a strangely magnetic hold over them, and as long as you're both open and honest about your own position in the relationship whether or not you want things to be serious, for example this influence should make for a positive, even transformative experience for both of you. If you are both in it for the long haul, let each other know that as well.

## Pluto Sextile Saturn - ♇ ✳ ♄

Opportunities

Orb - 8.25

Especially if there are other positive communication aspects between you, this one really helps to lend purpose and stability to your relationship, as long as you keep the lines of your communication open. Each of you is on a lifelong growth trajectory, and a relationship between you really benefits both of you because you support each other's ways of learning, growing, transforming and shaping your lives. You both mature through the course of this relationship.

## Pluto Sextile Uranus - ♇ ✳ ♅

Opportunities

Orb - 0.08

You talk at length about your beliefs, and you support each other's causes. Going to rallies or book readings together could become a big part of your relationship, because ideas are important to you big ideas that could change the world. You both want to get out there and into the mix of things, and the fervor of your activities could definitely fuel your passion for each other. You could get very involved in something that you discover as a couple a movement, an inspirational author, Pilates or yoga something that you do with the clear thought in mind of making your lives better, more consciously lived, more important.
