Virgo Ascendant

People with Virgo rising tend to be practical, analytical, discriminating, fastidious, careful, exacting, attentive to details, methodical, quiet, unassuming, shy, critical, thoughtful, and somewhat self-centered.

You have an ingenious, active and alert mind. Gaining knowledge and putting it to good use are important to you. You strive for perfection and can be quite the person to live with or to be around because your standards for yourself and others are so high.

“ At times others can never be 'good' enough to meet those high standards. Finding fault with what's wrong with things is your forte.

Sometimes, though, this can make relationships sour as you often turn your critical eye on the one you love and the things they do. Pessimism and being too self-critical are two faults you should try to improve upon.

You may tend to worry too much, especially about the small stuff, the little details. Too much worry can lead to health problems. You need to learn to digest every experience and assimilate it without bitterness, regret, spite or resentment.

You need to get rid of any negativity that stems from a feeling of inadequacy. You tend to look younger than you really are, no matter what your age.

“ You are very restless and nervous, so you seldom have much weight on you. At times you can be very indecisive and unsure. Mercury rules Virgo so Mercury will be important in your chart.

Sun Profile

The SUN symbolises the ESSENTIAL SELF; the WILL; CONSCIOUSNESS; GROWTH; the EGO; LIBIDO; OBJECTIVITY; INDIVIDUALITY; WHOLENESS; and the SPIRIT. It is the MASCULINE PRINCIPLE in contrast to that symbolised by the MOON. It is personified by RULERS; LEADERS; PUBLIC FIGURES; the FAMOUS; and PERSONALITIES.

Sun in Sixth house

You feel a need to serve others or to be of service to them. Or perhaps it's that you simply want to be served yourself. There may be a tendency to wallow in self-pity, seek sympathy for any little thing, or to develop hypochondriac tendencies. You are a faithful, diligent and loyal employee who is usually helpful to fellow employees. Some with this position are domineering and develop a false pride with those they work with or for. You can be an administrator, but you may prefer to be an employee. If you are in a position of authority, be careful not to be the office tyrant. You are very happy when you are busy and you hate being bored. You take great pride in your work and your workplace. This is where you want to shine and be better than all others. Worry and anxiety, especially over the desire to do things perfectly, can be detrimental to your health. You need to learn how to relax and not let stress and tension get to you. With this position you should be especially careful to take good care of your physical body.

SIXTH HOUSE VI

The Sixth House is commonly referred to as the House of Health. Implicit in maintaining good health is the ability to cope in the face of adversity, and this theme rings truest in the Sixth House.

Sun in Pisces

Pisceans are sympathetic, compassionate, unassuming, idealistic, intuitive, congenial, adaptable, psychic, emotional, creative, secretive, versatile, imaginative and self-sacrificing. They can also be impressionable, indecisive, self-pitying, hypersensitive and changeable. They need to serve others. Pisceans are sentimental and romantic in love. At times they expect too much from others and then feel hurt if the other person doesn't come through for them. They have a strong tendency to place their loved one on a pedestal. This leads to disillusionment when they discover their loved one has faults, too. The symbol for Pisces is two fish going in opposite directions connected by a cord. One fish represents the personality and the other represents the spirit. These two opposing forces operate within a Piscean, causing insecurity and indecisiveness. Handling these forces in a positive manner is very difficult for them. Some will seek to escape these pressures through eating, alcohol, drugs or other excesses. That is what one of the fish represents. The other fish represents the Piscean rising to great heights through self-denial, sacrifice and then ultimate attainment. Pisceans learn through suffering and they need to learn perseverance. Pisceans tend to absorb the information and environment around them. Thus it is important that they surround themselves with uplifting people and circumstances. Pisceans are creative, self-sufficient people whose minds are extremely active, due to their strong imagination, which they can sometimes get carried away with. They sense and feel things that others are not aware of.

PISCES

Pisces is a Water element, ruled by mystical Neptune! This sign is extremely receptive, nurturing, compassionate, and other-directed. Pisces feelings run very, very deep. A mutable nature endows Pisces with adaptable and unifying energy.

Moon Profile

The Moon symbolises protective urges, the unconscious mind, emotion, the home, feeling, reflection, instinctual responses, the family, rhythm, self-image, heredity, and nurturing. It represents the feminine principle, and complements the Sun. It is personified by the mother, wife, women in general, supportive figures, and those who protect.

Moon in Seventh house

You seem to attract sensitive people as partners, perhaps those who want to mother you or be mothered. There can be many changes of partners and many relationships because of the need to find someone who can bring an ultimate security. This search continues because security can only be found within, not without.

SEVENTH HOUSE

VII

The Seventh House is commonly referred to as the House of Partnership. With this House, we see a shift away from the self toward another -- a partner. By cooperating with and relating to another we unite for the purpose of achieving something.

You desire companionship, hence many relationships. Your feelings are greatly influenced by those with whom you are in close personal contact. You want to be popular with others. You are inclined to seek partners who can bring out your sympathetic side and play on your emotions. For men there is often a tendency to seek a mother figure and to bring out in others a desire to mother, protect and care for them. You are therefore likely to attract a partner who is kind and domesticated. Both you and your partner may need to be on your guard against moody or fickle behavior. Marriage may be undertaken with the object of establishing a home. More than one marriage is possible. There is probably a compelling emotional need for a partner and for marriage. In order to get the best results from any partnership you must learn to control any tendency to be continually at the mercy of your moods, which may result from over-vulnerable feelings. Try to control a tendency to be too dependent on others for your emotional stimuli and you should discipline a constant desire for changes in the nature of the relationship. Concerning vocation: Your work situation is tied to the public, partnerships, a keen awareness of public expectation and the need to meet it. Perhaps marriage is essential to give clear focus to work security. For many with this position, the work profile can be labeled a public personality. You are dependent upon others for the fulfillment of work needs. The process of

relationships is extremely important.

Moon in Aries

Adaptability and inconstancy in your efforts to initiate are present here. Frequent emotional upheavals due to a fiery temper are possible. Patience is not your strong suit and if things don't happen the way you want, and now, well, you can go off like a bolt of lightning. Your tendency is to be spontaneous, temperamental, impetuous, headstrong and you dislike restraint. You are

very direct in thought, action, and speech and everyone knows how you feel. You pull no punches. You can be a very bossy individual if you do not try to control your moods. A desire to be in the limelight or in charge of things is present. You hate showing any personal weakness or that you need any support, comfort, or nurturing from others. Your enthusiasm for starting new projects is contagious and you are probably a better starter than a finisher. You are adventurous, courageous, and independent. You don't like complainers and are always ready to meet any challenge. A fair amount of physical activity is good for you so you can work off those moods you get into once in a while. You have a creative, flamboyant personality that likes to trail-blaze in unusual ventures. Perhaps your accomplishments cover inferiority feelings that lie beneath the surface.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Mercury Profile

MERCURY symbolises one's INTELLECT; MIND; INTELLIGENCE; COMMUNICATION; MEDIATION; LOGIC; ADAPTABILITY; MOBILITY; REASON; ANALYSIS; DISCRIMINATION; HUMOUR; KNOWLEDGE and SPEECH Unlike the Sun and Moon, it is a NEUTRAL planet, and is personified by SIBLINGS; FRIENDS; THINKERS; WRITERS; TALKERS and those who MEDIATE.

Mercury in Fifth house

You have a need to prove your intelligence and to use that intelligence in creating things of a mental nature ? mental children, as it were. You desire to pass on your knowledge to others and to learn from them as well. Teaching children or young adults may provide quite a lift for you. Games of strategy and skill challenge your intellect. You desire to communicate your thoughts in a clever, inspiring and dramatic manner. You may have acting, writing, or speaking ability. As a teacher, you enjoy stimulating the minds of others and encouraging your students to greater things. Romances probably need to involve someone with whom you can communicate intelligently and relate to mentally. For you, sexiness is in the brain.

FIFTH HOUSE

V

The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. The simple act of creating is, essentially, giving of oneself and making something -- making another? Yes, the Fifth House does speak to procreation and children, but it also addresses the creation of art and culture.

Mercury in Aquarius

Your thoughts tend to be unique, unusual, rapid and coming completely out of the blue, eccentric, unconventional, scientific, weird and perhaps a bit ahead of their time. You are a progressive and non-traditional thinker and are very open and receptive to new technologies and breakthroughs and the latest discoveries in any field. You believe that humanity can resolve their problems through creative intelligence using inventive minds and scientific principles. You are a bit impatient with those who are conservative and unimaginative and those who are afraid perhaps to think about and try new things and ideas. Keeping abreast of the latest developments and technologies is fun for you. Reading science fiction helps give you food for thought regarding radically new ways of looking at things. You have a strong humanitarian impulse, an aptitude for organization and you enjoy being involved in cooperative group efforts or businesses that are contemporary and innovative. You have a versatile, disciplined, practical and original mind. You are intuitive and resourceful, with the ability to correctly judge human character and penetrate the mask that others wear. You follow your own convictions regardless of what others think of you and you have the ability to express your ideas clearly so that others easily comprehend. On the negative side you can be eccentric, bohemian, radical, revolutionary and stubborn.

AQUARIUS

Ruled by shocking Uranus is a element of Air, Aquarius very much epitomes the planet that inspires it. This sign has astonishing intellectual and communication skill.

Venus Profile

VENUS symbolises RELATIONSHIP; HARMONY; LOVE; ATTRACTION; ART; BEAUTY; PLEASURE; RELAXATION; FRIENDS and SEX. It is FEMININE SEXUALITY in contrast to the masculine sexuality of MARS. We thus each have a masculine and feminine side, to a greater or lesser degree.

Venus in Fourth house

You desire beautiful things and a nice, rather luxurious home. You have an artistic nature with a talent for making people welcome in your home. Entertaining at home gives you real pleasure. There is a love of family and children. The latter part of life may be pleasant and comfortable, although you may find a tendency to add weight in later life.

FOURTH HOUSE

IV

The Fourth House is commonly referred to as the House of Home. When we think of home, we think of that place where we put down our roots. We lay our foundation and plant ourselves firmly into the Earth, as it were.

Venus in Capricorn

Love and affections are expressed in cautious, reserved and serious ways. You are probably not that demonstrative towards the ones you love. You care very much about what other people think of you and you fervently desire love and appreciation, yet your reserved responses make it appear that you are really very detached. Casual, superficial relationships don't interest you at all. You are cautious and serious about love and you want a deep, genuine, lasting love. You are old-fashioned and traditional regarding courtship and love, and will remain faithful to your loved one in good times and in bad. You may be attracted to persons older than yourself, someone who is emotionally mature and reliable and who can provide the security you desire. You tend to be loyal, trustworthy, patient and steadfast. For you love may be weighed against practical concerns or on the basis of security needs. Perhaps you'll marry for money or status. You have a strong desire to protect yourself from being hurt and this may keep you from being as outgoing and forward in love matters. You may be very fearful, selfish and jealous or cold and calculating if Venus is badly aspected. There may be an intense ambition and desire for prestige and status.

CAPRICORN

Capricorn is the leader of the Earth signs, ruler of Saturn. Here is a stabilizing force, one of the hardest-working signs of the Zodiac. The Mountain Goat has intense powers of self-concentration, but not in an egotistical sense.

Mars Profile

MARS symbolises DESIRE; AGGRESSION; WILL; ACTIVITY; IMPULSE; COMPETITION; SEX AND SEXUAL DRIVE; INITIATIVE; BATTLES; ANGER and MASCULINITY. It is MALE SEXUALITY in contrast to the feminine sexuality of VENUS. In a woman's birthchart, it often symbolises the IDEAL MALE IMAGE within the psyche that gives rise to attraction to those who embody or evoke it.

Mars in Eighth house

There may be energy, desire, and enthusiasm for research, for getting to the heart of things, and for playing detective and uncovering secrets. There may be financial problems, probably through a partner, in order to de-emphasize the importance of money. There may be financial benefit through marriage or inheritance. There is a need to share willingly of personal resources in any cooperative relationship. You must learn to control your desires (passions) and your lower nature. There may be interest in healing or surgery.

EIGHTH HOUSE

VIII

The Eighth House is commonly referred to as the House of Sex. This House delves into relationships -- interactions with another and how certain aspects of those interactions can take on a more communal nature.

Mars in Aries

You are aggressive, pioneering, adventurous, and always on the outlook to start new projects. You hate restraint and don't like to be told to do something or how to do it. You want to lead, not follow. At times you can be headstrong, impulsive, and impatient. Waiting is not something that appeals to you. You go after what you want with great zeal and you do not take no for an answer. You love competition and anything that allows you to test or prove yourself. Cooperation is not your strong suit and you can be very self-willed, self-absorbed, and selfish at times. The me-first attitude is strong in you. You are self-reliant and hate depending or relying on others. You need to be your own person and do things your way, even if it might not be the best way. Your best talent is in getting things off the ground quickly. If initial success does not come quickly, you may get tired of that project and move to the next. Sustaining is not your strong side. Long term efforts are not as appealing to you as quick, short term affairs that you can finish with quickly so you can start something else. Energy and enthusiasm are your strong side. Self-control is important for you to learn so you don't burn out. Physical activity and keeping in shape appeals to you. You may be prone to accidents due to haste. You need to learn to stick to a project until it is finished before rushing off on a new endeavor. You must learn to control your temper and impulsiveness.

ARIES

The Fire element of Aries brings assertive "I" energy. This is a flaming drive and the desire to do something! The Aries will is full of tension and passion; the "I" brings a need for independence.

Jupiter Profile

4

JUPITER symbolises EXPANSION; OPTIMISM; PHILOSOPHY; EXCESS; GENEROSITY; WISDOM; OPPORTUNITY; GROWTH; RELIGION; LEARNING; ASPIRATIONS; ENTHUSIASMS; INDULGENCE; POSITIVITY and VISION. It is the opposite of the principle of contraction symbolised by Saturn.

Jupiter in Tenth house

This position may bring opportunity and expansion as well as success and honor to you in your profession or in your community. Much of the reason is your congenial and generous nature. You have a magnetic personality and people sense you will not let them down. Many opportunities will arise which are of benefit to you and to society as a whole. There is a strong sense of responsibility toward your career and toward personal achievement. You have the ability to get others to believe in your expansion-oriented, long-range plans, dreams and visions.

TENTH HOUSEX

The Tenth House is commonly referred to as the House of Social Status. It is about the place we have attained in our social (or work/career) grouping and in society as a whole. Think status, the authority it conveys, and consequently, the role we take in our community.

Jupiter in Cancer

You are loving, peaceful, friendly, sociable, sympathetic and probably very patriotic. You have a most vivid imagination and have many Utopian dreams. There is probably interest in mystical things. You have good financial judgment, especially in real estate, with the ability to accumulate money and possessions, especially after mid-life. Much help is received from the parents.

You may have weight problems, especially later in life because you do enjoy the delicacies of the dinner table. Your full potential may not be reached until middle or later life. There may be a tendency towards stinginess, holding on too long to memories and possessions. You may be a pack-rat. Maudlin sentimentality and over-emotionalism may also be problems for you.

CANCER

Cancer's element is Water. Symbolic of the emotions, water signs need to give and receive. They thrive on the exchange of feelings. They need security and love to be wrapped in an environment of love and comfort.

Saturn Profile

SATURN symbolises RESTRICTION; LIMITATION; DUTY; WORK; CRYSTALLISATION; CONCENTRATION; INHIBITION; DISCIPLINE; FOCUS; INHIBITION, FORM and WISDOM. It is the CONTRACTIVE PRINCIPLE in contra-distinction to the EXPANSION represented by JUPITER. It is personified by THE ELDERLY; SERIOUS PEOPLE; BUSINESS-PEOPLE; THE SICK; WORKERS and JUDGES.

Saturn in Third house

Your mind is serious, exacting, patient and orderly plus you have the ability to concentrate on deep subject matter. With this ability comes a tendency to depression, pessimism, loneliness or despondency. You have organizational ability and are probably conservative and traditional in your thinking. Mathematics and strategy games may appeal to you. Time consuming projects do not bother you. You may feel a bit isolated from siblings and neighbors or they may give you trouble. There may be issues of communication with either. Try to stay optimistic in your thinking and in the meantime simply keep working hard. Your lungs need plenty of oxygen, so try to sleep in a well-ventilated room.

THIRD HOUSE

The Third House is commonly referred to as the House of Communication. In this House, much of the communication is going on between the individual and those he or she holds close: brothers and sisters, as well as neighbors.

Saturn in Scorpio

You can be very self-disciplined. You have executive ability and are perceptive and extremely capable. You may have psychic ability. People may find you difficult to understand because of your reserved exterior and secretiveness. Your mind may be mechanically oriented and you are resourceful, even under the most adverse circumstances, patient and persistent. The action and energy of Mars is combined with the forethought of Saturn in a most wonderful combination. Whatever you do is done with intensity. On the negative side, though, there is danger of stubbornness, revenge, lack of forgiveness, resentment, and ruthlessness. Tendencies to grub for money and prestige can cause harm. There can be health problems with constipation or hemorrhoids. There is a need to transform your desires. You need to learn when and how to let go. This also applies to eliminative bodily functions. Holding onto anger can cause stones to develop in the gall bladder or kidneys.

SCORPIO

Scorpio is a Water element, and this makes it a somewhat enigmatic sign. Water is more receptive and introverted, but Scorpio is a Plutonian-power force. Perhaps that is why Scorpio is the sign capable of the greatest metamorphosis and renewal.

Your rebellious nature may cause you to do the opposite of what you are told to do in your line of work. Your strong imagination, intuition and creativity will be applied to any career you choose. Sudden changes in job fortune are probable. Routine work drives you batty. A career in electronics, computers, invention, metaphysics or mechanics is possible.

This can mean rebelling against the traditional forms of security such as the home and the native country and looking for new alternative ways of forming one's base, such as self-development. You tend to be emotional in a variable way, which can make you sympathetic with others feelings, or may mean you react emotionally to the conventional home or to patriotism.

Neptune in Second house

You have a strong imagination and psychic sensitivity which can be used to tap your inner talents. You receive intuitive hunches and are apt to have vivid dreams. You have an appreciation of beautiful objects. You seldom worry about money, which may be just as well, since your finances can be complicated and sometimes confusing. This placement can tend to make you extremely generous or extremely dishonest. If dishonesty is present, you will experience losses through theft, fraud and deception. Do everything on the up-and-up and money matters will go smoother. Avoid risky speculations and investments. Be completely honest with respect to money matters.

SECOND HOUSE

The Second House is commonly referred to as the House of Possessions. While this speaks to that which we own, it's not limited simply to tangible things. We own our feelings and emotions, as well as our inner selves, abilities, needs and wants.

And you are enthusiastic and optimistic about life. You may speculate or gamble, risking everything to preserve your individuality, against impressive and oppressive power.

LEO

Leo is Fire to the core of the Sun! Fire brings a desire to create, innovate, and lead. The sign radiates mega-confidence. The fixed motivation adds self-reliance, a characteristic that works well in leadership positions.

Chiron Profile

Chiron in Fifth house

You're carrying an inner infant who wasn't given time, space, and freedom to play and be care-free, and in your adulthood, this can make you resistant to the opening to sharing what's unique personal about you and your view on life. You have creative expressions, the creative expression does not just mean art or music related endeavours but also experiencing joy from everyday things that make you happy. You do not have to be so serious all the time and can afford to relax every once in a while. You might feel it's too risky to share with others what you think about a given topic, even when you have a clear opinion worked out inside your head, for fear that you'll be rejected. It's important for you to realize that everyone has a certain level of cringe-inducing vulnerability when risking sharing personal things about themselves, but you're wired to take many reactions from others as indicative of rejection. You may have been held back from being able to do what you wanted to do and therefore feel restricted. This is a placement that needs to abide by the advice 'take time to smell the flowers.' At some point, you will face an ego crisis where you discover and draw the firm boundary of will and ego you need to survive. Strangely enough, you will deny having any creative skills, but talking to your friends you'll discover a hobby or craft you should be giving more time. You are easily deflated due, probably, to parents who told you that you could not do 'that' – though you would have known that you could. You must learn that doing purely for pleasure is absolutely okay and crucial to your happiness.

FIFTH HOUSE

V

The Fifth House is commonly referred to as the House of Pleasure. Oftentimes, pleasure is the result of a creative act. The simple act of creating is, essentially, giving of oneself and making something -- making another? Yes, the Fifth House does speak to procreation and children, but it also addresses the creation of art and culture.

Chiron in Aquarius

Your aim to build long-lasting meaningful friendships and you enjoy participating in a variety of new activities with friends. You may feel uncomfortable in large groups. You are feeling unsure about how to heal yourself because you may tend to get stuck in your head and be logical about emotions. You may stem from feeling

different when you were young. It's important to make sure that even if at a given time you're not connected to past wounding and pain that needs attention in you, you don't become habituated to ignore what you feel and need, and what makes you insecure and fear rejection. It's okay at times to be detached from feelings as long as you leave the door open to feeling and, importantly, are willing to go to the places within you where a small, helpless part of you might be clueless about how to love the self. A too serious and standoffish personality might repel friendships. You never miss the opportunity to attend a banquet for a particular group to which you belong. You are quick to discard friends through your backstabbing communication, unable to understand exactly what a long established true friendship means. You seem destined for only distant acquaintance relationships. You may have a genius for helping other people express their genius. If you have this placement, you may be devoted totally to radical, new systems of thought, or reject them entirely. Don't stick blindly with the old, but don't throw it out before you think about it first. Look for a way to blend the old with the new. Social rejection makes you want to withdraw from the public and stay only with those with the same interests. You need to learn to be yourself and cherish your differences.

AQUARIUS

Ruled by shocking Uranus is a element of Air, Aquarius very much epitomes the planet that inspires it. This sign has astonishing intellectual and communication skill.

House Profiles

The planets represent energies and cosmic forces that can be utilized in various ways. They are like the actors in a play. Houses represent the different spheres of life where these energies can be and are brought to bear, for better or for worse. If the planets are the actors in a play, then the houses represent the various settings in which the actors play out their roles (signs).

The 12 Houses of astrology are symbolic of all the departments that make up human life. The planets and zodiac signs will manifest themselves most strongly in the sphere of life represented by the House in which they fall on your chart. Remember, the houses are not "energies" like the elements or planets, nor do they color the expression of energies like the zodiac signs do. The houses are WHERE these energies are most likely to manifest. The houses are the fields of experience, not the experience themselves.

Thus you would be happy earning income through creative pursuits such as writing, painting, sculpture, architectural and interior design, or through investments that provided a regular income.
